Greetings!

Everyone's tax bite is going up in 2013. The only question is how much. Use this link to determine what your increase might be: <http://interactive.taxfoundation.org/taxcalc/#calculator>

That's the bad news.

The good news is that the Rapower3 Renewable Energy Program changes your input. If you change the input, you change the output - to your benefit.

The average dual-income household, that pays taxes, forks over \$5,000 each year to the IRS. Enrolling into RaPower3 could reduce your federal income tax burden to ZERO! And it would return all the federal income tax that you will pay for 2012 (\$5,000) & reduce your 2013 tax liability to zero as well (another \$5,000).

Everyone's tax situation is different. That's why we tailor-make a program specifically designed for your household. Email me back or better yet, call me on my cell: 503.312.2138 (Pacific Time), and we will go to work on your customized program. All the details are uploaded at www.RaPower3.com. All's that you & your spouse need to know is that everyone who participates in the program makes money - for the next 35 years! Starting as soon as your next paycheck.

The longer you delay, the more money you hand over to the IRS & the less money you will have to fight rising prices.

WE'RE GOING GREEN!

CoachFree: Roger Freeborn - 503.312.2138

P.S. - This is no joke. Read about our success stories online: <http://goo.gl/Yzqmx>. Your story could be next.
