recollection today?
A. No, there isn't.

3 Q. Are you taking any medications or drugs
of any kind that might interfere with your memory?
A. No.
Q. Have you had anything alcoholic to drink in the last eight hours?
A. No.

9 Q. Okay. And are you currently under a
doctor's care for any illness?
A. No.
Q. I'm going to show you --

MS. HEALY-GALLAGHER: Off the record for a second, please.
(There was a discussion held off the record.)
MS. HEALY-GALLAGHER: Back on, please.
Q. I'm handing you, Mr. Johnson, what's been marked as Plaintiff's Exhibit 2, which we looked at yesterday. And I just had a couple of questions about IAUS.com.

You testified yesterday that you are the author of the content for IAUS.com?
A. That's correct.
Q. That's correct, okay.

How does your content get online?

1 Randy -- Randale Johnson would be one, and then Greg
2 Shepard would be another. But before them there were
3 -- there were others that participated in taking
4 photographs and handing me the pictures and stuff like 5 that.
6 Q. Okay. And if there are pictures and 7 videos on IAUS.com, it's either you or Randale or Erin
8 Joos who would have -- Joos who would have posted
9 them; correct?
10 A. That's correct, yes.
11 Q. When did IAUS.com start its presence on
12 the Internet?
13 A. I'm not sure, but it would be in the
14 1990s, I believe.
15 Q. From the 1990s to the present day, who
6 else has been responsible for posting content for
17 IAUS.com?
18 A. Oh, there have been -- there have been
19 many people that have come and gone, you know, in the
20 company. It would be probably Curtis Snow, Chris
21 Taylor. I don't know. There's other -- there's about
22 four or five other people that I don't remember --
23 Q. Since --
24
25
A. -- who they are.
Q. Okay. Since the 1990s, if material is

3 Q. Who is that person?
4 A. It's a -- there's several. Would be
Aaron Joos or Randale Johnson.
6 Q. Could you spell the first name that you said?
8 A. Aaron Joos, J-O-O-S.
9 But I also have the capacity to do it
0 myself. I am also a programmer, so very fluent in programming.
Q. Okay. So Aaron Joos, Randale Johnson, or you, are the people who actually post the content online?
A. That's correct.
Q. Okay. Any others?
A. No, not -- not really.
Q. Who provides the photographs for IAUS.com?
A. I -- there have been different people that take different pictures over the years, and then we utilize them. There have been a variety of people that have taken pictures and then given them to me to -- to post online.

I can't remember all of their names, but

1 posted on IAUS.com, is that material only posted with
2 your approval?
A. That's correct, yes.

4 Q. Then we saw yesterday that there's --
there are e-mail addresses that end in @IAUS.com;
correct?
A. Yes, uh-huh.
Q. How is that e-mail hosted?
A. Well, there's several -- there have been
several different hosting companies, but I believe
this -- the e-mail is hosted through a -- presently is
through Gmail.
Q. How long has it been with Gmail?
A. It's been a long time, but I don't
remember exactly when it was when Gmail came -- Google
came in a little bit later than all the rest, you
know, so we probably would have used other accounts
before Google. But then we went to the Google Gmail
accounts, but I don't know exactly when.
Q. So do you think it was, like, before

2010?
22 A. Oh, yeah, I think it was probably around 23 -- could have been 2005. I don't know when Google -24 Google actually came aboard, but I think it was right 25 around 2005.
A. It means if I choose to comply with the

Page 18
auditing, that we -- we must comply by having public accountants do the audits. If we choose not to do the audits, we're not obligated to -- for any public CPAs
or with -- with those licenses. We can then -- we can
then just have regular CPAs do the audits or do the 6 accounting work.
Q. All right. Let me back up real quick. So let's take it since 2005.
A. Okay.
Q. Has IAS had its financials reviewed by an accountant at the end of each fiscal year?
A. No. There's been two, maybe three years in which we -- we didn't file.
Q. I -- hang on.

I'm not talking about filing with the
SEC. I'm just asking about year-end audit by an accountant.
A. Well, yes, but not -- not the -- not in a form of an audit, just the accounting.
Q. Okay. So just year-end accounting?
A. Just year-end accounting. The audits are performed by a public auditing procedure, so you really can't -- you can't designate those as audited financials.
Q. Okay. If -- so if a CPA does not audit

1 the financials --
2 A. They go on the record as -- as being 3 non-audited financials.
4 Q. Okay. Okay.
5 A. And they have to be registered that way
6 so the public understands that these are -- have not
7 been audited.
8 Q. I see.
9 So how do you make the decision as to whether to get an audit for a particular year or not get an audit?
A. Well, it really -- it really wouldn't be

13 -- the only time I think we weren't audited was during
14 a period of time when they had changed the laws on the 15 auditing procedures.
16 And they had also made it very difficult
17 for people to become public auditors. And it made it
18 very difficult to get an auditing firm available to do
19 our audits, because we were a small -- a small --
20 small company, and most -- most the auditors were busy
1 and weren't -- weren't available.
22 And so it was difficult to find an
23 auditing company that would -- that would do it and do
24 it the way we would want it to be done.
25 Q. So then do I understand you correctly,

Page 20
1 sir, that the -- if you did not get audited books,
2 there were two reasons: One was a change in law and
3 the audit procedures; and two, difficulty obtaining a
4 professional to audit your books?
5 A. Yes. During this period of time, I think 6 it came out from the Sarbanes-Oxley law.
7 Q. That's all I need to know, is the two 8 reasons.
9 So were there any other reasons besides
10 those two?
A. No.

12 Q. Do you recall which years you decided not to have your books audited?
A. I don't -- not -- not offhand, but I
think it was in the 2010, '11, or '12, but I'm not positive on that.
17 Q. So that was my next question.
18 Do you recall how many years you went
19 without audited books?
A. I think over three. But I'm not positive on that, either, but I think there was three.
Q. And, Mr. Johnson, if IAS does file a Form $10-\mathrm{K}$ with the SEC, all the statements in the $10-\mathrm{K}$ are true and accurate; correct?
A. As far as I know they are. I'm not an

## Page 21

accountant, so if there -- if there are ways, the procedures of the actual accounting is done, I wouldn't be able to determine their accuracy.
4 But we have -- but we have two different
5 accounting firms that -- because of that, we have two
6 accounting firms that do the preliminary work and they
7 audit each other, and then it goes to an auditor that
8 finalizes the -- the accuracy of the actual
9 financials.
Q. Okay. But, generally, this is
information about IAS and its business activities; correct?
A. I think so. That's what it appears to be.
Q. Okay. Do you have any reason to believe that this might not be correct if it was filed with
the SEC?
A. No. I think I -- as far as I know, I've tried to keep this as accurate as possible.
Q. Okay.
A. They just -- they just keep redoing the
same things over and over again, so I don't know that
I looked back on anything, but, yeah. But I think --
but I think from what l've looked at is fairly
accurate.
Q. And then if you take a look at Page 20.
A. Page 20, okay.
Q. Just take a look at Page 20.
A. Okay.
Q. Pages 20 to 21.
A. Okay.
Q. That section falls under "Management's Discussion and Analysis or Plan of Operations." Do you see that?
A. On Page 21?
Q. Pages 20 and 21.
A. Okay. "Management's Discussion and Analysis or Plan of Operations." Okay.
Q. The content on these two pages, 20 and 21, do you have any reason to believe that that might 5 be inaccurate if it were filed with the SEC?

Page 22
1

1 A. Sure.
2 Q. When -- okay.
3 You -- you said a couple of things when
4 you identified the product that RaPower-3 has a
5 license to market.
6 A. Right.
7 Q. First I want to ask what are -- what
8 product is RaPower-3 marketing today?
9 A. Right. Today they're doing the solar
10 power projects.
11 Q. Any other product?
12 A. No.
13 Q. When you say "solar power projects," do you mean lenses?
A. I mean lenses, yes.
Q. Do you mean anything else by that?
A. No, not right now.
Q. Has RaPower-3 ever marketed anything other than lenses on behalf of IAS?
A. No, not at the present time.
Q. Have they ever?
A. No.
Q. And then you said that RaPower-3 has the 23 ability to market other products?
A. That's correct.

Page 26
1 Q. What other products might RaPower-3 market?
A. There's -- there's a long list.
Q. Is it all of IAS's technology?
A. Yes, uh-huh.
Q. Is the royalty agreement that we've been talking about, is that the only contract between IAS and RaPower-3?
A. Yes.

10 Q. And you said, Mr. Johnson, that the
royalty agreement requires RaPower-3 to pay 85 percent of all profits to IAS?
A. That's correct.
Q. What do you mean by "profits"? Do you mean gross revenue?
A. No. The -- no. The profits after -after all the accounting, you know, and expenses.
Then the profits from the sale of the product would be 85 percent then would go to IAS.
Q. Okay. So what's contemplated is

RaPower-3 sells lenses. It collects money for those lenses?
A. Correct.
Q. RaPower-3 deducts any expenses it 5 incurred by selling the lenses?

1 A. That's correct.
2 Q. And then 85 percent of the remaining amount of money gets paid to IAS?
A. That's correct.

5 Q. Okay. Where does the rest of the profit go?
7 A. It would go to the ownership of RaPower, 8 and that would be -- it's a pass-through company, as
9 an LLC, a pass-through company. So all the profits
10 then would pass through to the other entities.
11 Q. To whoever owns RaPower-3?
12 A. That's correct, yes. But you're asking
3 the wrong person that, right.
Q. I will address that otherwise.
A. That's fine.
Q. Mr. Johnson, you testified yesterday that you set the price for lenses.

Do you remember that?
A. I don't know that you're talking to Nelson Johnson or the CEO of the company.
Q. Well, whoever -- however you were acting or however -- through which entity you were acting?
A. Neldon Johnson sets the price.
Q. Neldon Johnson sets the price, okay. So my question is do you set the price as

## CEO of IAS?

A. No. I set the price as Neldon Johnson.
Q. Okay. In fact, has RaPower-3 received -withdrawn

In fact, has IAS received royalties from
RaPower-3?
A. Not -- not at this time, no. There
hasn't -- the accounting, the way the accounting
works, it's that RaPower has not received -- hasn't
had any profits because of the project isn't complete.
That's -- there again, that's a RaPower
question, but, yeah. But, yes, excuse me.
That's a Utah term, by the way. We're all Swedes and so that's part of our language that came with us.
Q. What project needs to be complete for RaPower-3 to turn a profit?
A. That's a -- understand that's a RaPower-3 question.
Q. Well, if you know the answer, you need to answer.
A. That's fine. Just as long as you know that that's where -- that's where it is.

The accounting, the people that do the accounting determines when -- when the -- the project

Page 29
is complete for the -- for the purpose of determining the profits.

When there's no unknowns of values and in producing the entire energy profit, energy field,
RaPower is not just involved in selling the project,
but they're collecting the money for the entire purpose of erecting the entire project.

And the entire project then comes out of the sales that -- of the -- of the total sales and the loans, and all that accounting that goes with you, to show how much money's loaned, how much the cost of the steel structure, the turbines, the -- the electronics if we're doing CPV systems.

All of that is then -- would have to be
accounted for before there's a determination of the profit, from what I understand, from the accounting people.
Q. Who --
A. Or the people that do the accounting.
Q. And -- and from whom did you get this understanding?
A. Well, that comes from any accountant we hire. I think we're doing Petersons right now, and we've asked them about it and that's their determination.
Q. Why?
A. Well, it's in the laws and it's because
they don't -- I imagine, I don't know for sure -- what I imagine is it's so they don't get so friendly they become biased toward the people that they're doing the accounting for. They're independent accountants.
Q. How did you get that understanding that you have to change accountants every few years?
A. From the accountants.
Q. From the accountants?
A. Yeah, that's what they told us.
Q. Which accountants told you that?
A. The public accountants that do the public accounting work for...
Q. Sure.
Q. What accountants have you used since 2005?
A. That I don't know. I can't remember the names, but we've probably used several.
Q. How many times have you changed accountants since 2005?
A. It's been three or four times. You could You have to rotate.

IAS 30(b)(6)

Page 31
1 2 who told you that?
3 A. Well, the first one, I think, was that Hansen Barnett. But -- but I think they changed the laws since then. Since they changed the law, that's when -- that's when the Sarbanes-Oxley, I think is
what they quoted me, I think is what determines how
long they can stay as your accountant. The person
that actually does the accounting. The firm may stay
on, but you have to rotate the individuals that do the accounting.
Q. Okay. So have you -- how many times have you changed accounting firms since 2005?
A. Probably two or three times, at least.
Q. And which accounting firms has IAS used since 2005 ?
A. I know there's been at least three.

Pinaki right now is the last one, and I think Hansen
Barnett, I think, was doing it in 2005, but I'm not even positive of that.
Q. In between HB\&M and Pinaki, what other accounting firms has IAS used?
A. I'm not positive of the names, but -- I'd
have to look up the names to be certain.
Q. Does Mantle \& McReynolds ring a bell?

Page 32

4 Q. Just to be clear, Mr. Shepard, your testimony is that RaPower-3 is collecting --
A. You said Mr. Shepard. So --
Q. My apologies.
A. -- correct that.
Q. Mr. Johnson.
A. All right. Thanks.
Q. You testified that RaPower-3 is collecting all of the money for the solar projects?
A. No, just for the ones that they sell.
Q. I see.
A. Right.
Q. So RaPower-3 is collecting the money for the solar projects that will use any of the lenses that RaPower-3 sells?
A. That's correct.
Q. You testified that RaPower-3 has not paid any royalties to IAS, but has RaPower-3 paid any other money to IAS?
A. That I -- I'm -- I think that they bought some -- some stock from IAS.
Q. Have there been any other payments from

Page 33
RaPower-3 to IAS for any other reason?
A. There may have been, but I'm -- I'm not positive on any other.
Q. For example, does RaPower-3 pay IAS for expenses?
A. That I'm not sure. I don't believe they do, but I couldn't be positive on that. If it did it would be accounting to a prepayment on royalties if they -- if they did that.

So it would have -- it would have been an anticipated royalty if that -- if they did pay anything like that. But I -- I don't remember them doing something like that.
Q. So, Mr. Johnson, if you don't know about what other payments RaPower-3 has made to IAS, is there anyone else at IAS who would know?
A. No. We'd have to go back to look at all the accounting work that's been done and we'd have to go back to the accountants. I'm not saying they haven't, but I just don't remember it.

And I probably would have remembered something like that, because it would have been required to be put in as a -- as a prepayment on royalty agreements to do that.

That's not saying in the early stages
Page 34
that something like that could not have happened, but it's just something I don't remember.
Q. Okay. All right. Mr. Johnson, switching gears to LTB, LLC.
5 Does LTB, LLC have any contractual relationship with International Automated Systems?
A. If it does, it would be the same royalty agreement, 85 percent. But as far as I know, I don't believe they do. I'd have to check that contract with 10 Dave.
Q. So, to your understanding, Mr. Johnson -actually, withdraw that.

So you're not sure whether LTB, LLC has any contractual relationship with International Automated Systems; correct?
A. There -- as far as I know there isn't any, but I'm not positive. I would have to check again. But -- and we can get that from Dave. So you can ask, you know, that's not a problem.
Q. Okay. So even if not a contractual relationship, does LTB, LLC have any business dealings with IAS?
A. Not directly with International Automated

Systems, no.
Q. To your knowledge, does LTB1, LLC have a
contractual relationship with IAS?
2 A. Repeat that again. I didn't get the 3 first one.
4 Q. To your knowledge, does LTB1, LLC have a 5 contractual relationship with IAS?
6 A. No, they do not. No, not that I know of.
7 Q. Even if not contractual, to your
8 knowledge, did LTB1, LLC have any business dealings with IAS?
0 A. No, they did not.
11 Q. To your knowledge, does Cobblestone
12 Center have any contractual relationship with IAS?
A. If they did have it would be the same contract that is with RaPower. It would be the royalty agreements. But I do not believe they have any with Cobblestone. But if they do have, it's because we're pass through -- pass-through entity. If they are a pass-through entity where other entities, then it would be a contractual agreement on a royalty basis of 85 percent of the profits.
Q. So today, Mr. Johnson, you don't know whether Cobblestone has a contractual relationship with IAS?
$23 \quad$ Q. So today, Mr. Johnson, you don't know
24 whether Cobblestone has a contractual relationship
25 with IAS?

Page 36

1 A. No, because I -- I don't -- I don't
think -- there isn't any profit generating.
Q. Sir, that's not my question.
A. I know, but that's why I'm thinking it
doesn't have, is all. And so I do not -- I do not
know for sure, but I don't -- I don't know for sure.
7 Q. Okay. Sir, I'm going to direct you to
8 take a look at Plaintiff's Exhibit 486.
9 A. 507.
10 Q. 486.
11 A. 486.
12 Q. That's the notice of deposition of 3 defendant International Automated Systems, Inc.
A. Okay.
Q. Take a look at Page 4.
A. Okay.
Q. Paragraph 4.
A. Paragraph 4.
Q. Where it says IAS's -- under the "Topics For Examination," do you see that heading up at the top of the page?
A. Yes.
Q. Paragraph 4 says a topic for examination is:
"IAS's business relationship, if any,

| Page 37 | Page 39 |
| :---: | :---: |
| 1 with RaPower-3, Johnson, Shepard, | 1 correct? |
| 2 Freeborn, LTB1, LTB, LLC, LTB O\&M, | 2 A. Yes, I think so. Yes, they did. |
| 3 LLC, SOLCO I, LLC, Cobblestone | 3 Q. And now -- well, let me take that back. |
| 4 Center, L.C., and XSun Energy, LLC." | 4 After the towers were constructed, IAS |
| 5 Did I read that correctly? | 5 also performed work on those towers and the lenses in |
| 6 A. That's correct, yes. | 6 them; right? |
| 7 Q. So, Mr. Johnson, when you say you don't | 7 A. Yes. |
| 8 know what the business relationship is, to me that | 8 Q. So IAS was originally maintaining the |
| 9 means you're not prepared to answer this -- to respond | 9 towers and the lenses at the R\&D site; correct? |
| 10 to this topic today. | 10 A. For a short period of time, yes. |
| 11 A. You're probably correct. I wasn't aware | 11 Q. Who owns the towers at the R\&D site? |
| 12 of -- this is the first time l've seen this. I -- | 12 A. I think my wife does, but l'm not |
| 13 I've never been given this. Sol -- I'm -- I | 13 positive. |
| 14 apologize for not having read this, but -- unprepared, | 14 Q. Glenda Johnson? |
| 15 but I'm not aware of this documen | 15 A. The actual towers, yeah, are owned by |
| 16 MS. HEALY-GALLAGHER: We will carry on | 16 Glenda Johnson, but I'm not positive. |
| 17 today, and I'm just noting for the record that if we | 17 Q. Why do you think t |
| 18 have to come back because Mr. Johnson is not prepa | 18 A. Because I know they're not -- I know |
| 19 to testify on behalf of IAS, we will be seeking costs | 19 they're not owned by IAS, and Glenda Johnson owns |
| 20 and all appropriate remedies. | 20 everything else that -- that is owned. |
| 21 Q. Mr. Johnson, yesterday you testified that | 21 Q. So does Mrs. Johnson also own the land on |
| 22 Cobblestone was the entity that is operating and | 22 which the towers stand? |
| 23 maintaining the towers and lenses on the R\&D site; | 23 A. No. On -- on those -- that property, |
| 24 right? | 24 International Automated Systems, I think, owns the |
| 25 A. Cobblestone Center is the company that | 25 land there. But they -- they -- they do not own the |
| Page 38 | Page 40 |
| 1 erects and manufactures the product. | 1 towers. |
| 2 Q. Okay. So then is Cobblestone also a | 2 Q. So if Mrs. Johnson owns the towers, how |
| 3 marketing entity for IAS? | 3 is it that you as the manager of RaPower-3, SOLCO, and |
| 4 A. No. | 4 XSun Energy had the authority to hire Cobblestone to |
| 5 Q. Then why would Cobblestone have a royalty | 5 operate and maintain them? |
| 6 agreement with IAS like RaPower-3? | $6 \quad$ A. Because she said I could. |
| 7 A. That's -- I think that's what I explained | $7 \quad$ Q. Do you have that in writing? |
| 8 to you, is why I didn't think they did have is because | 8 A. No. But I'm not even positive she owns |
| 9 they're not a sales organization. | 9 it, so -- but I know International Automated Systems |
| 10 Q. Who is it that hired Cobblestone to | 10 doesn't. |
| 11 operate and maintain or construct towers, either at | 11 And International Automated Systems is |
| 12 the R\&D site or on the construction site? | 12 the only person you're talking to, and even in the |
| 13 A. It wasn't me as a CEO of International | 13 list there it doesn't indicate that if I do not own |
| 14 Automated Systems. | 14 it, I don't have to know about it. |
| 15 Q. Who was it? | 15 Q. Sir, this deposition -- in this |
| 16 A. Mr. Johnson. | 16 deposition I'm asking you questions, and if you have |
| 17 Q. So Neldon Johnson in your personal | 17 personal knowledge of the answer, you must answer. |
| 18 capacity hired -- | 18 Do you understand that? |
| 19 A. No. As a manager of RaPower. | 19 A. Not as the CEO I don't. |
| 20 Q. I see. | 20 Q. Sir -- |
| 21 A. And manager of XSun and the manager of | 21 A. I can answer as Neldon Johnson or I can |
| 22 SOLCOI. | 22 -- and if you need to do that, that's fine with me. |
| 23 Q. Mr. Johnson, I believe you testified | 23 But you need to designate who you're talking to. |
| 24 yesterday that IAS is the entity that constructed the | 24 And when you're threatening me with |
| 25 towers on the R\&D site in the first place; is that | 25 something of -- of gaining knowledge that you can get |

with a piece of paper, I do not think that is -- is to
the point where it needs to be a threat made in this
session that you're going to bring me back and
4 question me over a document that can be handed over to
5 you in -- in a legal setting that would give you the
6 same answer.
7 Q. Sir --
8 A. And I do not appreciate that.
9 Q. The reason that I don't know who I'm
0 talking to and what capacity you're talking from is
because there has been incredible obstruction of the
United States discovery in this case.
A. There has not been that. That's been alleged construction [sic]. Don't be saying that at all, because that is not true.
Q. I am going to ask you questions.
A. And there never has been. In fact, it
has been proven that it hasn't been.
Q. Sir, let me finish, then you can talk.

I am going to ask you questions today.
If you need to identify from which role --
A. Mr. --
Q. Excuse me, sir.

If you need to identify from which role you are answering questions, please do that.

Page 42

25 that the -- the scope of the deposition was defined by
A. Mr. Johnson is not required to be in this deposition today, and he is not here. And so any questions that you address to Mr. Johnson now will be absent.

I am not required to be here on behalf of Mr. Johnson at all. I am here in behalf of the -- of International Automated Systems, and that is all I'm here for. And that's the only questions I will answer here, because Mr. Johnson is not required to be at this deposition. His deposition was yesterday.

If you had a question for him, you have a legal responsibility to identify that period of time, and he has a legal right to limit your time that he has -- you have access to him by law, and that is spent yesterday.

MS. HEALY-GALLAGHER: Mr. Snuffer, would you like to instruct your client on his obligation to espond to my questions today with his personal knowledge.

THE WITNESS: Not on -- only as the CEO.
Mr. Johnson is not here. And he can't make me be here. And that's a fact.

MR. SNUFFER: Well, and I think the

IAS 30(b)(6)

rights to use the -- the patents and the technology
that is owned by Starlight and Blacknight.
9 Q. You said that Blacknight and Starlight
0 own the technology?
A. That's correct.
Q. What technology does Blacknight own?
A. You're asking a question that's not related to International Automated Systems.
Q. Well, sir, IAS pays royalties for use of the technology, so IAS has knowledge of which the technology, so IAS has knowledge of which
technology it pays for to which entity. So please answer the question.
A. It's in -- it's in the filings. It's in
the filings. You want me to read them?
21 Q. I'm asking for your knowledge. If you don't know, you don't know.
A. Well, I don't know exactly every one of them, and I might be saying something not true, but they are listed --
those particular companies and -- and in the financial
statements they are totally listed there, and you have
access to that information.
Q. BY MS. HEALY-GALLAGHER: So, Mr. Johnson,
you're pointing to Plaintiff's Exhibit 507?
A. Yes.
Q. And it's your testimony that information

25 about which company Blacknight or Starlight owns which
answer them by this document. So if you want to know
them, they are listed right in here (indicating).
Q. I'm going to stop you for a second, and
instead I'm going to ask which company owns the solar
energy technology at issue in this case?
A. Blacknight and Starlight.
Q. They both own?

MR. SNUFFER: So the record's clear, he's
referring to -- he's referring to Exhibit 507 in his
statement "this document."
MS. HEALY-GALLAGHER: Okay.
THE WITNESS: But it's -- but it's not --
it's not -- it's not something that I would have the
those particular companies and -- and in the financial
statements they are totally listed there, and you have access to that information.
Q. BY MS. HEALY-GALLAGHER: So, Mr. Johnson, you're pointing to Plaintiff's Exhibit 507?
Q. What relationship is that?
A. They -- the Blacknight and Starlight own
the technology. They also own the voting rights of
he company. They also have warrants for buying stock
rights to use the -- the patents and the technology
that is owned by Starlight and Blacknight.
Q. You said that Blacknight and Starlight own the technology?
of IAS's technology, that information can be found in Plaintiff's Exhibit 507?
3 A. That's correct, and you are in the possession of that document.
5 MS. HEALY-GALLAGHER: Let's take five. (There was a break taken.)
MR. SNUFFER: If we could go back on the record.
9 I just -- I wanted to state on the record that the notice of deposition was given before we entered the case, and we're not included on the certificate of mailing.
13 And l've had several conversations with
14 Justin Heideman, but he did not provide me with a copy
15 of the notice, and I haven't been of much use to the
6 -- to the client in advising him about the scope of 17 this.
18
19
20 given us by Heideman, but I assume that Mr. Heideman
21 had an obligation to have furnished that to
22 Mr . Johnson, because it came in on his watch, and
23 apparently he failed to do so.
24 Nevertheless, I think we can probably get 25 an answer to everything with Mr. Johnson making a few

Page 52
1 phone calls during the lunch hour.
2 MS. HEALY-GALLAGHER: Let's please mark 3 this as the next exhibit number.
4 (Exhibit 517 was marked for identification.)
5 Q. BY MS. HEALY-GALLAGHER: Handing you
6 what's been marked, Mr. Johnson, Plaintiff's
7 Exhibit517. This is the United States Notice of
8 Rescheduled Party Depositions.
$9 \quad$ This notice was served on all counsel
10 June 22, 2017.
11 MR. SNUFFER: Is this 517?
12 MS. HEALY-GALLAGHER: 517, yes.
Q. Okay. You can put that aside.
A. Doesn't have any of these documents here.
Q. You can put that aside.
A. I want you to know that there's no other documents that relate to any information I'm required to bring with me in this notice.
19 Q. Mr. Johnson, we were talking about
20 Blacknight and Starlight and which technologies IAS
might pay them a royalty for before we took a break. On the break, did you talk to anyone about the facts of this case?
A. No, I did not.

25
Q. Now, in 2004 IAS acquired the patents for

1 the solar energy technology at issue in this case.
2 All right?
3 A. We got the license, yes, that's correct.
4 Q. Who did IAS get the license from?
5 A. I think it's Johnson Family Trust or MPJ
6 Trust.
7 Q. Okay. So then has IAS ever made a
8 royalty payment to Blacknight?
9 A. No, they have not.
10 Q. Has IAS ever made a royalty payment to Starlight?
A. No, they have not.
Q. Why has IAS not made a royalty payment to Blacknight?
A. Because it hasn't -- there hasn't been any revenue generated, and so there was -- hasn't -hasn't been any profits reported.
18 Q. Is the royalty agreement between IAS and 19 Blacknight in writing?
20 A. Yes, it is.
21 Q. Who signed that agreement on behalf of
2 Blacknight?
A. Neldon Johnson.
Q. And who signed that agreement on behalf of IAS?

1 A. Neldon Johnson.
2 Q. Why has IAS not made a payment to
3 Starlight?
4 A. There hasn't -- there hasn't been any
5 revenue reported from International Automated Systems.
$6 \quad$ Q. Is the royalty agreement between
7 Starlight and IAS in writing?
8 A. It is.
9 Q. Who signed the royalty agreement?
10 A. Neldon Johnson.
11 Q. For both parties?
12 A. Neldon Johnson, yes.
13 Q. For the fiscal year ending June 30, 2016,
4 how did IAS make money?
A. They didn't make money.
Q. Did IAS collect any revenue at all?
A. No, they did not.
Q. Did any person or entity pay any money to IAS in 2016?
A. For -- you'll have to designate for what purpose.
Q. No, I'm just asking. Did anybody pay any money to IAS for any purpose in fiscal year 2016?
A. Yes, I-- I believe so.

25
Q. What was that money for?

Page 54
A. Stock.
Q. Any other reason?

3 A. No.
4 Q. For the fiscal year ending 2015, did
5 anyone pay any money to IAS?
6 A. I do not believe so.
7 Q. No money at all?
8 A. I don't believe so.
9 Q. Not even for stock?
10 A. I don't believe so. I'd have to review
1 the documents to make sure, but you already have those
documents. They're a public record.
Q. At any time since 2005, has anyone paid

4 any money to IAS for any reason other than stock?
A. Yes, I believe so.
Q. For what reasons?
A. I think sometime International Automated

Systems was directly marketing the sale of the lenses for a short period of time.
Q. So people paid IAS directly for lenses?
A. That's correct.
Q. Has there been any other reason that
anyone paid IAS money, other than stock, other than
direct for the sale of lenses, since 2005?
A. Yes.
received from International Automated Systems from
Neldon Johnson for research and development on several of its patents and patent pendings.

Just how much, I do not know. And there
may have been a year where that transaction has not
6 occurred. But the documents are public record, and
7 you have access to those.
8 Q. You keep saying the documents are of 9 public record. What do you mean by that?
A. The documents that are anything to do with the accounting of the company, which would have
to do with money, are of public record and are listed
in -- on the files of the United States SEC websites.
Q. So when you say "public record," you're referring to IAS's filings with the --
A. That's correct.
Q. Let me finish the question.

When you say the documents are of public
record, you mean the documents that IAS has filed with
the SEC?
A. That's correct.
Q. What is it that Neldon Johnson has paid IAS to do?
A. International Automated Systems is -- I -- Mr. Johnson has contracted with International

Page 58
Automated Systems to perform certain research and development, along with its employees, on various patents and patent pendings.
Q. Are those contracts written?
A. Yes, they are.
Q. Where are they?
A. They're in -- they're in the documents, I think. Filing documents.
Q. What filing documents?
A. Those accounting filing documents.
Q. The documents IAS filed with the SEC --
A. Yes. They should be there.
Q. Sir, you need to let me finish the
question and then start to answer.
Did you get that?
What has Neldon Johnson paid for for research and development with respect to the solar energy technology in this case?
A. Again, that would be a -- a document that is in the public's domain, and you have access to those documents.
Q. So sitting here today, your answer is "I don't know"?
A. But to be exactly positive, I'm not exactly positive of every dollar that was spent by

1 Mr. Johnson to International Automated Systems for
2 research and development, but you have access to them
3 by the public documents.
4 Q. What expenses, if any, has IAS incurred
5 for research and development on the solar lens?
6 A. There's been millions of dollars spent on
7 the development of the solar lenses and its patents.
8 The exact amount is, again, public information and you have access to those documents.
Q. Mr. Johnson, you said that there are millions of dollars that have been spent on developing the solar lens; correct?
A. That is correct.
Q. What I need to know from you is where are those records showing the millions of dollars spent in $R \& D$ for the lens?
A. They are in the accounting documents of International Automated Systems, publicly filed and -- and publicly available.
Q. So do you mean in the SEC filings?
A. Correct.
Q. Is there any other place?
A. You probably have them yourself. They've been given -- you have access to those through the documents that you have received.

1 Q. So you believe, sir, that you've produced all documents that would show the millions of dollars in R\&D that has gone in to the solar lenses?
A. That is correct.

5 Q. Aside from the SEC filings, documents you believe you have produced, is there any other place that we could identify the millions of dollars that have purportedly been spent on R\&D for the solar lens?
9 A. I would assume in the documents that the 0 -- in the accounting documents, and the records that 1 the documents were produced from. There are -- there 2 are actual receipts and checks available, and I believe that you have been given access to those and you have received that -- those documents.
Q. So, again, you're referring to documents you believe you've produced to the United States?
A. That is correct.
Q. Any other source?
A. No.
Q. And sitting here today, sir, can you testify as to what you believe those expenses were?
A. From my recollection, the total expenditures of International Automated Systems for research and development is in the neighborhood of $\$ 40$ million. lenses; right?
A. That's correct.
Q. And then IAS paid money to conduct that research and development, it sounds like to me. Correct me if I'm wrong.
A. That's correct.
Q. Other than those two expenditures, has
any other person or entity, to your knowledge, paid
money to further research and development on the solar lenses?

Page 62

## Page 65

product that you see out there is paid for.
Q. Sir, let me stop you there.

3 A. Even for -- even beyond what has been 4 sold.
5 Q. So what I want to understand is who owned 6 the lenses that were originally installed?
A. Neldon Johnson.

8 Q. Okay. So when, if ever, have lenses been
9 installed that are not owned by Neldon Johnson?
A. Well, as people purchase them, then we
would designate.
Q. Sir, not my question.

When, if ever -- actually, could you read
it back.
(The record was read as follows:
"Q. So when, if ever, have lenses
been installed that are not owned by
Neldon Johnson?")
THE WITNESS: When the -- when the title
was transferred from Neldon Johnson to those
individuals.
Q. BY MS. HEALY-GALLAGHER: When -- when did that happen?
A. When the purchase occurred.
Q. I'm asking for a year.

Page 66

4 A. Correct.
5 Q. What do you mean by that?
6 A. Well, it wasn't -- it wasn't like that we
7 owned them for the particular reason. We -- they were
owned as part of inventory that was to be sold
9 and -- and marketed.
10 It wasn't owned, nor was it to take a --
any tax credits at that time. So they were -- they
12 were -- they were being erected to be sold to other
13 individuals.
14 But at the time, the person that paid for
them was Mr. Johnson. And -- or -- and so the
15 them was Mr. Johnson. And -- or -- and so the
16 inventory was held for a resell. It wasn't held for
17 the purpose of tax or anything like that.
18 Mr. Johnson never took any tax credits on
19 those items.
20 Q. Okay. And what I want to understand is 21 when title to the lenses transferred, to whom did it transfer?
23 A. Well, it wasn't like title like -- like a
24 car title. I mean, it was like a -- it was like a can 25 of beans. If you bought a can of beans, then you got,
you know, you got your -- your product.
2 So whenever -- when anybody purchased 3 that product, then they owned that product.
4 Q. Okay. So how does anybody know if it's 5 their lens up in a tower, currently?
A. Well, they would have access to that through -- through the records in the computer system.
8 Q. And you wrote that computer program; correct?
10 A. I did.
11 Q. And if you wanted to export data from that computer program, you'd be able to do that, 13 wouldn't you?
14 A. Yes, I would.
15 Q. Did IAS ever make any effort to connect a
6 particular lens with a particular owner so that an
7 owner could point to a lens and say that's mine?
18 A. If a person came down and asked where the
19 lens was at, they could -- we -- they could be -- that
20 particular lens could be accessed, yes.
21 Q. How would they know which lens was 22 theirs?
A. By the computer program.
Q. So the computer program would tell them which lens?

Page 68

1 A. It would tell whether the lens was installed or whether the lens was still in -- or it hadn't been installed.
Q. Okay. And if the computer program says the lens has been installed, does it say where?
A. If -- if it -- if it was registered
properly it would have -- would have told them that.
If the person who did it didn't register it properly,
then it would not have been registered properly.
Q. What do you mean "registered properly"?
A. The person putting it into the lens would then also have to register where that lens was placed.
Q. How would they know -- the whole reason is to find out where the lens is. How would the customer know where their lens is?
A. They would have to ask.
Q. And who would they ask?
A. They would ask me. They would ask

19 Mr . Johnson, who would be the -- at that time is the
20 manager of -- of RaPower-3. So you're asking a
21 question of the manager of RaPower-3.
Q. Okay. So I should ask -- I just want to 23 be clear -- so I should ask the manager of RaPower-3
24 how a customer is supposed to find out which lens is
25 theirs?

1 A. That's correct, yes.
2 Q. Has IAS ever placed a serial number on a 3 lens?
4 A. Yes, it has.
5 Q. When did it do that?
6 A. 2007.
7 Q. Where on the lens did IAS place serial 8 numbers?
9 A. Probably on the -- either the plastic or 0 the frame, depending on the individual that put it 11 there.
12 Q. It didn't have a systematic way of 3 applying serial numbers to lenses?
14 A. Either -- it either would have been
15 placed on the lens by the -- by the lens, or it would
16 have been placed on the lens itself.
17 Q. And how is it that IAS affixed serial 18 numbers to the lenses?
19 A. IAS wasn't involved in that. It would
20 have been RaPower.
21 Q. Sir, you just said that IAS affixed
22 serial numbers to lenses in 2007.
23 A. Yes. Okay, I'm sorry.
24 It would have -- it would have done it
25 with the -- a little plastic strip with a -- with a
Page 70
number generated by a -- a -- a computer program onto that strip.
Q. You said it would have done that. Did it do that?
A. Yes, it did.

6 Q. Okay. And how well did those little 7 sticky pieces hold up in the desert?
8 A. Well, I don't know. Some -- some did, 9 some didn't.
Q. So some serial numbers may have fallen off?
A. Could have done, yes.
Q. And, in fact, many of the lenses broke and fell out of the frames too?
A. That's correct.
Q. So how did you know which lens had fallen out of the frame and who it belonged to?
A. We would know. That's how we'd know -- I 9 would know.
Q. How would you know, sir?
A. I would have known where it was. We

2 bought it and then we replaced it.
Q. So would you search for a piece of

24 plastic with a serial number on the ground underneath
25 where the lens had fallen out?

1 2 where it was at.
Q. How would you have known?
A. Probably with a computer program would have told us.
Q. Okay. Are you willing to produce that computer program to the United States?
A. I did before. They already have it. 9 Q. Okay. Well, if we haven't received it, I'll work with your attorney on that.
A. Well, we'll -- we'll give you the same data that it produces. I'm not going to give you the program, but I will give you the data --
Q. That would work.
A. -- that it produces.
Q. That would work.
A. Okay.
Q. If IAS -- if a customer's lens has fallen out of its frame, how, if at all, is that lens replaced?
A. It's automatically replaced by the warranty system that is involved.

This program that you're talking about, by the way, that tracks, that was a program that was written in -- back in 1980 that tracked the entire --
the entire grocery store's inventory and location of all their inventory on the shelves, operated through
1995 in the grocery stores.
That portion of the program that took
care of the inventory of the grocery store was
transferred, a portion of that, into the program that
was used to market the products that we now sell.
8 Q. Okay. Let's talk about the warranty real quick.
A. The warranty is a -- I think a 15-year warranty.
Q. Hang on, sir. I'll ask some questions and we'll --
A. Sorry.
Q. -- slow it down a little bit.

So my understanding is that if a customer buys a lens and that lens is installed in a tower, if
that lens breaks and falls out, the lens will be replaced at no cost to the customer?
A. That's correct.
Q. That's correct.

But the same customer who owned the lens
that fell out will own the replacement lens?
A. That's correct.
Q. And that -- and the customer was not
required to pay for the replacement lens?

1 Q. Okay. And -- and, in fact, this is a 2 purchase order from IAS to Plaskolite; correct?
A. That's correct.

3 Q. Okay.
A. It's a better warranty than you get on
any other solar energy project, by the way. It gets
replaced no matter what breaks it.
7 Q. Has any customer ever asked IAS to see their particular lens?
9 A. I'm sure there has.
10 Q. About how many times?
A. Not aware of any, but I'm sure there has
been. I just don't know. I don't keep record of something like that.
Q. Okay. So you don't know --
A. I wouldn't know, no.
Q. Sorry, let me finish the question.

So you don't know if that's happened at all?
A. No, I do not.
Q. Mr. Johnson, IAS purchases the lenses from Plaskolite. Isn't that right?
A. Yes. Yes, it is.

MS. HEALY-GALLAGHER: Next, please.
(Exhibit 518 was marked for identification.)
THE WITNESS: There's just one correction
Page 74
I'd like to make on that last question about replacing the lenses.

We're not required to replace the lens
and put them back in the same spot. We can move the
lenses to another spot if we choose to. That's --
that's the -- that's part of the Operation and
Maintenance Agreement.
Q. BY MS. HEALY-GALLAGHER: Nonetheless,
sir, the customer does not have to pay for the replacement lens; right?
A. No. Everything else is the same, but I just wanted to make that one observation --
Q. Okay.
A. -- clear.
Q. All right. So you've been handed a copy of what's been marked Plaintiff's Exhibit518. For
the record, the Bates number is Ra3003059.
Plaintiff's 518 appears to be a purchase
order from International Automated Systems, Inc.; is that right?
A. That's correct.
Q. Do you recognize this document?
A. Ido.
Q. Sorry, was that you do?
A. Yes.
A. That's correct.

4 Q. And you -- this purchase order is signed by you; correct?
A. That's correct.

7 Q. And the date is -- you submitted this on
8 or about January 9, 2009; correct?
9 A. That's correct.
10 Q. The product description there -- in the middle of the page there is a "Solar Lens."
12 Do you see that?
13 A. Yes.
14 Q. The number of pieces is 2,100 ; right?
15 A. That's correct.
16 Q. And each piece, if you take a look at the
7 dimensions, is a rectangle; right?
18 A. Correct.
19 Q. And I believe you testified yesterday
20 that the rectangle could be cut, and so there's two triangular pieces?
A. That's correct.
Q. And I believe, sir, the lenses that we're talking about -- well, actually, let me ask you this: When you say "a lens," do you mean one of

25

Page 76
1 those triangles?
A. Yes.
Q. So with this purchase order, if IAS was
buying 2,100 rectangles, it would have ended up with about 4,200 lenses?
A. That's correct.
(Exhibit 519 was marked for identification.)
Q. BY MS. HEALY-GALLAGHER: Mr. Johnson, you've been handed what's been marked Plaintiff's
Exhibit 519, which for the record is Bates numbered Ra3003066.
12 Mr. Johnson, Plaintiff's Exhibit 519
13 appears to be a check from IAS to Plaskolite; correct?
A. That's correct.
Q. So IAS itself directly paid Plaskolite

17 A. That's correct.
18 Q. Has IAS paid for all of the lenses that 19 -- that any entity has used for the solar energy 20 technology in this case?
A. That's correct.
(Exhibit 520 was marked for identification.)
Q. BY MS. HEALY-GALLAGHER: Mr. Johnson,

4 you've been handed what's been marked Plaintiff's
25 Exhibit 520. For the record, the exhibit is Bates

|  | Page 77 | Page 79 |
| :---: | :---: | :---: |
|  | 1 numbered PSK1 through 9. | 1 Q. No. Okay. |
|  | 2 A. Okay. | 2 Help me understand that. What does that |
|  | 3 Q. Please take a look through these invoices | 3 mean? |
|  | 4 and let me know when you're ready. | 4 A. It's just -- it's just a reference to the |
|  | 5 A. Okay. | 5 size. But it's different than the . 085 . So they just |
|  | 6 Q. Sir, do you recognize Plaintiff's | 6 -- they changed the way they referenced the size, but |
|  | 7 Exhibit520? | 7 it's referenced -- it's a reference size. |
|  | 8 A. Yes, Ido. | 8 Q. So did the thickness of the lens change |
|  | 9 Q. Is it a set of invoices from Plaskolite | 9 between 2009 and 2012? |
|  | 0 to International Automated Systems? | 10 A. Yes, it did. |
|  | 1 A. That is correct. | 11 Q. Okay. Then if you take a look at PSK9, |
|  | 12 Q. To your knowledge, sir, are these all of | 12 which is an invoice from June 2014. The description |
|  | 3 the invoices from Plaskolite to IAS? | 13 says "Solar lens .85." |
|  | 4 A. I don't -- I don't know if it is or not, | 14 A. That's correct. |
|  | 5 but you have all the documents. | 15 Q. So in 2014 the thickness went back to |
|  | 16 Q. So these -- if you take a look, sir, at | 16.85 ; correct? |
|  | 17 Page PSK2. | 17 A. That's correct. |
|  | 18 A. Okay. | 18 Q. Oh, and you know what, we see that also |
|  | Q. The invoice there is for February 3, | 19 on PSK8; correct? |
|  | 2009. | 20 A. That's correct. |
|  | 1 Do you see that? | 21 Q. Okay. It looks like IAS bought 7500 |
|  | 2 A. Yes, Ido. | 22 rectangles in summer 2012. |
|  | 3 Q. All right. And then if we look down at | 23 Why did it buy so much at that time? |
|  | 4 "Description" where it says "Solar lens .085, 60.00 | 24 A. We were getting ready for additional |
|  | 5 times 49.12." | 25 projects outside of RaPower's projects. |
|  | Page 78 | Page 80 |
|  | 1 Do you see that? | 1 Q. What projects were those? |
|  | 2 A. Yes. | 2 A. They were just various entities that we |
|  | 3 Q. The . 85 in that description, that's the | 3 were getting ready for contracts for. |
|  | 4 thickness? | 4 Q. Would you please identify those. |
|  | 5 A. That's correct. | 5 A. I think they were the -- they could have |
|  | 6 Q. Yes, okay. | 6 been the -- the 1603 program, and partially those and |
|  | 7 And, Mr. Johnson, to your knowledge, in | 7 partially of the -- the -- we were getting ready to |
|  | 8 fact, has IAS received all of the solar lenses that | 8 produce the project for the company, the -- out of the |
|  | 9 are identified in these invoices? | 9 -- the east there, and possibly getting ready for |
| 10 | 10 A. As far as I know I have. | 10 other projects as well. |
|  | 1 Q. If you take a look, please, at PSK4, | 11 Q. Okay. So you identified the 1603 program |
|  | 12 which is an invoice dated June 20, 2012. | 12 projects, a project for that company back east that we |
|  | 3 A. Okay. | 13 talked about yesterday? |
| 14 | 4 Q. If we look down at the description again, | 14 A. That's correct. |
|  | 5 it says "Solar lens 149.312 times 59.75." | 15 Q. Any other specific projects at that time? |
| 16 | 6 Do you see that? | 16 A. Not that I know of, but -- but we were in |
| 17 | 17 A. Yes. | 17 the process of negotiating out several contracts, of |
| 18 | 8 Q. The 100, is that the width? | 18 which we decided not to enter into at that time. |
| 19 | 19 A. It's the thickness. | 19 Q. What were the projects you were in the |
| 20 | 0 Q. Thickness, sorry. Yes, thickness. | 20 process of negotiating? |
| 21 | 1 A. Correct. | 21 A. I think there was one in Yermo in |
| 22 | 2 Q. The lens went from . 085 to 100? | 22 California. There was -- there was one in -- in -- I |
| 23 | 3 A. Correct. | 23 think there's some -- there's some ones in Texas. |
| 24 | 4 Q. What -- is that supposed to be .1? | 24 There's some -- there's some in |
| 25 | 5 A. No. | 25 California. Maybe two or three in California. And |

there are -- I think there may be four or five or six.
One in Nevada.
And those contracts went on -- I put on
hold because I wanted to do some other things first.
But we had bought -- we had contemplated entering into
the agreements with those people.
Q. And this is all in or around the summer of 2012?
A. Yeah. It was roughly all -- all the way through that period of time. I think that's when some problems with -- with the -- with -- with the DOJ took place, and I think there was some indications that I just chose until we got through all of the problems with -- with the government entities, we chose not to -- to do any more until we were sure that the way we were -- the way we were selling them wouldn't come back on us.

I think that's why we partially backed away from those contracts. We wanted to see more where the government was focusing their attention to and why. We're still not clear on that issue.

So the big projects are -- basically we went on hold for that reason.
Q. So big projects went on hold, but entities continued to sell lenses to individuals?

Page 82 25 countries, including Iran, India, Saudi Arabia, China,
A. You're right. I didn't say I went on hold on all the projects. I just went on hold with some of the bigger projects.
Q. I'm sorry.
A. We lost a considerable amount of money on that, on the problems that were created by the United States Government.
Q. So why, sir, did you put things on hold for big projects but not lenses being sold to individuals?
A. Because we felt like that we could handle any -- probably any losses over a period of time on the smaller projects by working out even -- we have -we have entities that would like to buy -- buy us out and -- and we met with several countries during that period of time.

And we were contemplating during that period of time that we may, rather than incur any more problems with the United States Government, that it wouldn't be worth my time, at my age, to continue with the battle and the fight to create an energy system for the United States of the way we had it. We were the only ones with a new project, new -- new paths.

And at that time we met with several

1 and -- and -- and some of the other large entities
2 that were interested in helping us develop the project
3 or -- or buying us out from -- and getting rid of the
4 problems that we were currently involved with, which
5 would have produced plenty of capital, and they would
6 have taken over their -- any responsibility on the
7 smaller entity projects.
8 Q. Okay. So, sir, I just want to be clear. 9 Did you think at all about the impact on the individuals buying the lenses if there were problems with the IRS?
A. Of course we did. That's why we went through the process of going through attorneys, making sure that we were totally legal with the United States Government. Had, in fact, wrote the documents and wrote the laws in a way that we would be able to comply with.

We, as far as we knew, complied. In fact, the United States Government had already -- had already provided a tax return to an individual indicating that this system qualified for the tax credit and the depreciation.
Q. Who is that?
A. The way we was doing it.
Q. Who is that?

Page 84
1 A. Roger Hamblin.
2 Q. Roger Hamblin.
3 A. And so from that, the United States
4 Government then was involved in telling us that this
5 was a correct way to do business. And we even called
6 the IRS to ask them about the procedure which we were following. They indicated that we would be referred to a tax attorney.
9 The tax attorney was -- was an accredited
tax attorney who was, in fact, went through the system
to get a license to become a tax attorney by the -- by the United States Government.
Q. Who is that?
A. McConkie. And they then gave us their knowledge on the subject.
Q. I'm sorry, sir.

Do you think Kirton \& McConkie was
somehow authorized by the United States to give you that memorandum?
A. Yes, they were, because they went through the schooling and received a license, and I had every right to rely upon that license that these people were credible people, and they had a tax license to practice being a tax attorney. And with that we would have had every -- every right to rely upon their
statements to be accurate and true.
And so far, no one has proven any of
their statements to be inaccurate to this point. In
fact, we were then, according to Sam Alba, told that
they dropped the case, the criminal case on us, and
indicated that there was no fraud, nor tax scheme at that time.
8 Q. Sam Alba told you --
9 A. That's correct.
10 Q. Excuse me, sir. Sam Alba told you --
A. Yes.
Q. -- that -- I'll withdraw that.
A. So there was no reason for me to believe that I was doing anything wrong at that time, nor has there been any indication. There hasn't even been a court case. The United States Government has not brought a court case on the tax issue for three to four years.
Q. Sir, I'm going to stop you there.
A. And you know why they haven't?
Q. Tell me.
A. You know the reason why. And the only reason why you're here is the same reason. They are powerful people that are -- have called me and

Page 86
injected and told me what's going on.
Q. Who has done that?
A. Somebody from the Federal Reserve.
Q. Who is that person from the Federal

## Reserve?

A. I don't know who it is.
Q. Let me ask the question. Who called you from the Federal Reserve?
A. I don't know who it is. They indicated that they represented the Federal Reserve. I didn't believe them at the time.
Q. Did you ask for their name at the time?
A. I did. They never gave it to me.
Q. Okay. Are you aware of the number of people who have been audited by the IRS?
A. Yes, I am.
Q. How many?
A. I don't know exactly, but there's been over 50.
Q. Are you aware of -- would you be surprised to learn that it's hundreds?
A. I wouldn't be surprised. The government is -- is dumb enough to do something like that without ever going to a court case, but just to irritate the people that are doing this.

1 And yet you know what, you know there's a company called Amerex over in -- in Arizona --
Q. Sir, we're not here to talk about Amerix.
A. Oh, yes, we are.

MS. HEALY-GALLAGHER: Object to the responsiveness.
Q. I'm not interested in Amerex, sir.
A. You asked me a question about whether or not I felt for the people that -- that I do business with. And this is how I'm going to respond to that question.

There's a company called Amerex out of Arizona that have been working on CPB systems since 1989. They received $\$ 125$ million in grant money in that year to produce a concentrated solar PB system.

They then raised another $\$ 25$ million in the private sectors to produce that same thing. They then installed that in Arizona and in New Mexico, and they were -- or Nevada and New Mexico. They didn't -and it did not work, after they got it up. They got the tax credits and their depreciation, and it didn't last one year.

And another company called Amarose bought the company for the tax credits. And that company, even though that project was not working at the time

Page 88
1 they bought that, they got that tax credit, and
2 depreciation, because it was an LLC pass-through.
3 Now you go check that out. And now 4 you're asking me about how I feel about my customers?
5 And that didn't work, and yet the United
6 States Government did not do one thing to that people.
7 The same thing in Ibapah. That Ibapah project cost
$8 \$ 12$ a watt, and now it's over \$18 a watt, and
990 percent -- 80 percent of that is generated from
10 natural gas.
11 And that's a -- that's a scam because
12 they're getting 19 to -17 to 19 cents a kilowatt
13 hour for a natural gas power plant proposed with --
14 with -- with lenses of mirrors, and most of that
15 energy is generated today by the natural gas side of
16 that project.
17 And we could put the same turbine on my
18 project and it would operate. And it wouldn't operate
19 at the efficiencies of mine does, and it would not
20 make any money. And that project has not made a dime
21 yet.
22 And yet the Google -- they've got
23 \$2 billion in federal funding, they've got $\$ 2$ billion
24 in tax credits and depreciation to Google and to --
25 and to Walmart, and every other country -- company.

1 And yet you're -- you're over here
2 complaining about a project that actually does work, 3 and will actually make money, and will actually 4 produce product, and you're talking about me caring 5 about my -- my customers?
6 I have done everything in my power to 7 protect my customers by going through the process of 8 finding expert witnesses to my project. I have 9 validated every part of that project.
10 You have not proven one thing has not 11 worked. And yet you come here and you tell me that I don't care about my customers? And yet you go out there and violate the law.

You haven't made -- you have not proved one statute that I have shown, and I have asked you to do that, and you have not shown one statement that is incorrect by Kirton \& McConkie that I have not followed and I have followed to the letter.

And you people have violated the statute.
And the reason why I got my tax credit, because
there's a law out there that if you didn't do it, I
would sue the individual right at the time, and he caved and gave me my tax credit.

So I have a tax credit. So United States Government has given me a tax credit, and yet is still

Page 90
pursuing my other people. Why? You asked me -- you
tell me why the United States Government is bullying my people.

And yet they've let people like Google
and -- and the people that own the Walmarts get all their tax credits. But you will not allow these people to have the same advantages as you've given to Walmart in a -- in a fact thing that will not work, and it has never worked.

And you built one before that down in
Yermo, and you didn't last a year, and you duplicated and said it would work. And it hasn't worked.

And that guy sitting over in that chair was part of it. And he indicated that it would work, and it has never worked and it will never work. And it will never work because it can't -- it can't compete because of the high maintenance cost on that project.

Have you checked that out? No. Why? That's your job. Why? Why haven't you pursued that and found out why that did not function, and why we spent $\$ 2$ billion, and another 2 billion, and another 2 billion on that project. And now they're asking for more money on that project and you're giving it to them.

1 And you're 17 cents a kilowatt, and now 2 they've got a permanent tax in California at 17 cents 3 a kilowatt that the -- for 30 years. There's an extra 4 tax that they have to pay because of that project, 5 that prior purchase agreement, that was guaranteed by
6 the federal government. Everybody in California is
7 now paying extra money on a hidden tax.
8 And that is you people that have done that. And you're talking about me and my
responsibility to my customers? Yeah, I know exactly
what you people are.
12 MS. HEALY-GALLAGHER: Let's break for
13 lunch.
14 MR. SNUFFER: Okay.
15 MS. HEALY-GALLAGHER: Back in 30.

19 record

## after a brief lunch break.

Did you speak to anyone about the facts of this case during that break?
A. No.
Q. Was that a no?
3 questions that you gave this morning that you feel the
need to supplement or change?
A. No, I'm fine.
Q. Okay.

MS. HEALY-GALLAGHER: Next, please.
(Exhibit 521 was marked for identification.)
9 Q. BY MS. HEALY-GALLAGHER: Mr. Johnson, I'm
handing you what's been marked as Plaintiff's
Exhibit 521. Please take a look at that and let me
know when you're ready to answer questions about it.
A. Okay.
Q. For the record, the Bates numbers are

Ra315689 through 95.
A. Okay. Okay.
Q. Do you recognize this document?
A. I've probably seen it before, but I don't
recognize it as -- as anything more than what I can just read about it.
Q. Okay. So at the top it says this is an agreement for professional engineering services
between International Automated Systems and Brent
Davis Electric Power Engineering Associates.
Did I read that correctly?

Page 93
1 A. That's correct.
2 Q. Did IAS ever retain Brent Davis of Electric Power Engineering Associates?
A. I believe so.
Q. What did you retain him to do?

6 A. I think this was the design requirements
for the 1603 program.
Q. Okay. And you're looking at Page Ra315693; correct?
A. Right. But I -- but I think that's what -- I -- I recognize it as.
Q. So if we take a look at Paragraph 7 on the page Exhibit D, "Authorization of Services."
A. Okay.
Q. It starts by saying:
"Project Description: Provided professional engineering services for the Modular Electrical Power Interconnect concept development, engineering, design, review, evaluation, and Grant Application support for the 4 unit ( 120 to 150 kW ) solar tower modular test installation." Did I read that correctly?

Page 94
A. I think so.
Q. And did he produce those drawings and design?
A. I believe so. You should have them in
A. Correct.
Q. What is the "Modular Electrical Power Interconnect Concept"?
A. Well, it just means that you can connect several power projects together without having to --
the -- one of the advantages of my system is one tower
can be connected into a simple system, or you can
connect several towers together.
And you can -- and you can do it in a
modular component where you can individually add
towers on the design so that one tower is actually
finished and operational, and then add another tower
and it becomes part of the tower and so that you can
-- rather than you have to complete the whole -- whole project, you can complete it one tower at a time.

And this was the design engineering
drawings that per -- that we hired to -- to look at how we would do that.

1 Q. Are those -- are those the drawings that

2 Jason Clement sent to Kirton \& McConkie? Do you remember that from yesterday?
4 A. I don't know. It could be. Could be
5 part of that. There was -- I think there was quite a 6 bit of work -- work done on it, so -- but I think you
7 have those in your -- I don't have them. So...
8 Q. I have it as 357 .
9 Sir, I'm handing you what's been marked
as Plaintiff's Exhibit 357. We looked at that yesterday.
12 Would you please take a look at the 3 attachments to that exhibit.
14 A. Right. This is -- this would be part of 15 it here. Tower electrical plant.
16 Q. Go ahead and look.
17 A. This is done by Royal Engineering. Is 18 that the -- they were -- they were -- there was probably other engineering firms that we did hire to
20 get their expertise in certain areas that we wanted to
21 validate by having outside professionals, and so this
22 was -- this one was done by a different company. This 23 one was done by a company called Royal.
24 Q. And when you say "this one," you're 25 looking at plaintiff's --

| Page 97 | Page 99 |
| :---: | :---: |
| 1 Q. BY MS. HEALY-GALLAGHER: Mr. Johnson, | 1 A. No. |
| 2 handing you what's been marked Plaintiff's | 2 Q. Has IAS ever paid anyone for the use of a |
| 3 Exhibit 522. For the record, the Bates number -- | 3 lens for advertising purposes? |
| 4 we're going to use the Bates number that's all the way | 4 A. No. |
| 5 at the bottom of the page, which is Ra3004147.003 | 5 Q. Has IAS ever paid anyone for use of a |
| 6 through Ra3004147.004. | 6 lens in research and development? |
| 7 Do you recognize Plaintiff's Exhibit 522, | 7 A. No. |
| 8 Mr . Johnson? | 8 Q. Mr. Johnson, how does IAS keep track of |
| 9 A. I do, yes. | 9 who owns shares in it? |
| 10 Q. What is it? | 10 A. It's done by the stock exchange. So... |
| 11 A. This is electrical drawings for -- | 11 Q. What do you mean by that? |
| 12 Q. Well, let's start with the first page. | 12 A. We don't do it. We have a -- there's a |
| 13 So the first page is a letter from Brent | 13 company that is authorized to do that by the NASDAQ |
| 14 Davis to Randy Johnson; correct? | 14 stock exchange, and I don't know the name of the |
| 15 A. Correct. | 15 company. But you should have it in your documents. |
| 16 Q. And would this have been sent to IAS? | 16 Q. You believe you produced what to the |
| 17 A. Yes. | 17 United States? |
| 18 Q. Okay. And this letter's dated | 18 A. All the documents that IAS has, including |
| 19 January 24, 2011. | 19 the documents that would show that we pay money out to |
| 20 Do you see that? | 20 have our -- our stockholders being registered and kept |
| 21 A. Yes. | 21 on a NASDAQ file. |
| 22 Q. Any reason to think it was sent at a | 22 Q. But you say you don't know the name of |
| 23 different time? | 23 the company that keeps track of IAS's shareholders? |
| 24 A. No. | 24 A. No. They just changed, I believe. |
| 25 Q. All right. And then on the second page | 25 Q. What were they before? |
| Page 98 | Page 100 |
| 1 of Plaintiff's Exhibit 522, what -- what is this, | 1 A. I don't remember that either, but you |
| 2 Mr. Johnson? | 2 should have it in your records there. And I think |
| 3 A. On Page 004147-004? | 3 it's listed on our website, but I'm not positive even |
| 4 Q. Yes. | 4 about that. But it's in the -- in all the documents |
| 5 A. Okay. This is the -- the schematics for | 5 that we produced, you should have that. |
| 6 the -- the way you would put one tower up at a time, | 6 Q. And if we don't have it, are you willing |
| 7 interconnect to a -- a high voltage transformer that | 7 to produce it? |
| 8 would then enter the line. And each tower would be an | 8 A. Oh, yeah, that's fine. I just need to |
| 9 independent source of energy for the electrical | 9 make a phone call. |
| 10 hookups for the power. | 10 Q. Mr. Johnson, to your recollection, have |
| 11 Q. Okay. Did Brent Davis ever perform any | 11 you signed every 10-K that the IRS has submitted |
| 12 further work for IAS after this letter and drawing? | 12 A. Yes. |
| 13 A. Not that I'm aware of, but I didn't -- I | 13 Q. Let me take that back. |
| 14 wasn't even aware of this, actually. I mean, I | 14 To your knowledge, have you signed every |
| 15 couldn't remember what he did. It's been quite a | 15 10-K that IAS has submitted to the SEC? |
| 16 while ago. | 16 A. Yes. |
| 17 Q. And January 24, 2011, is after all of the | 17 Q. So, Mr. Johnson, how does IAS sell its |
| 18 towers were erected on the R\&D site; correct? | 18 stock? |
| 19 A. This -- this was not for that. This was | 19 A. It's just through the NASDAQ stock |
| 20 for the other projects. | 20 exchange. |
| 21 Q. And so no project has ever been | 21 Q. Does IAS have any relationship with any |
| 22 constructed using this design; correct? | 22 particular brokers? |
| 23 A. That is correct. | 23 A. No, they do not. |
| 24 Q. Has IAS ever paid the owner of a lens any | 24 Q. To your knowledge, are people who buy |
| 25 rent for that lens? | 25 lenses, do they often buy stock? |

They indicated that the mirror system
required a focal point concentration of about a thousandths of an inch tolerances.

And they had -- what they used was a --
was a pipe with a glass covering that they created a focused and concentrated the sunlight.
Q. Sir, I'm going to stop you there.

So you were looking into mirrors from other companies; correct?
A. Right.
Q. Right. Okay.

Page 102
The one in Barstow is a -- is a trough system using parabolic mirrors for their concentrator, and we were showing -- shown through their system at that time, shown their plant in Barstow where we -- we asked them what about the -- the mirror system, the ype of turbine that they were using, and how much hey would use in natural gas to facilitate the requirements of keeping a turbine operating 24 hours a day.

We asked them about then the maintenance them about the maintenance that would be on the mirror
A. I'm not aware of that.
Q. Do you know if they're encouraged to buy stock?
A. As far as I know, they're not.
Q. So, Mr. Johnson, you mentioned that IAS
had and has other technologies that it has developed
and worked on over the years?
A. That's correct.
Q. When did IAS start working with solar energy technology?
A. Around 2003.
Q. And what was IAS's first foray into solar
A. I'm not sure I understand that -- that question.
Q. What was your first initiative in solar energy technology?
A. Well, I -- I believe we started out with looking to do mirrors, and we -- and so we went to various operations in California that operated a -the mirror systems to -- in particular.

One was in -- out by, I think, Barstow. It's not called that, but it was close to that. And the other one was by the Marine Base in Yermo, I think, California.

Exhibit 523. Please take a look at that and let me know when you're ready.
3 For the record, the Bates numbers are
4 Ra3003308 through 3310.
5 A. Okay.
6 Q. Mr. Johnson, do you recognize Plaintiff's
7 Exhibit 523?
A. Yes, I do.

9 Q. It's the sales representation agreement
between IAS and SC Systems, LLC; is that right?
A. Uh-huh.
Q. Yes?
A. Yes.
Q. Dated 24 September 2003; is that right?
A. That's correct.
Q. Does this refresh your recollection as to
when Bill Pack became a sales representative for IAS?
A. Yes. It was in September of '03.
Q. Okay.
A. So it was close. '04, so, yeah.
Q. And we see in the last page of this
exhibit your signature on behalf of IAS; is that right?
A. That's correct.
Q. So by virtue of this agreement -- oh, I'm
sorry. Let's take a look back at the signatures.
For SC Systems, it looks like William
Pack's signature is there on behalf of SC Systems, LLC; is that right?
A. It looks like it to me too.
Q. It says that on the first page:
"SC is interested in obtaining a
right to advertise and sell equipment
for a Solar Thermal Energy Production
Plant."
Did I read that correctly?
A. Where you looking at?
Q. The second whereas clause.
A. Okay.
Q. Did I read that correctly?
A. Correct.
Q. What equipment did this give Bill Pack the ability to sell?
A. Whatever we had available that was in --
that had to do with the solar energy -- solar energy
project.
Q. And what equipment did he actually sell?
A. He didn't sell any. We were -- we were

24 -- we were in contact with a company, and that's where
25 I was getting to when you stopped me.

Page 106
Q. Was Mr. Pack going to sell the turbine?
A. He was selling the entire project.
Q. Okay. So an entire --
A. And so the entire project would have been, at that particular time, basically we were looking at two different types of projects. The other one, the first one was the -- the -- and then this is about 2002 or 2003 -- we were looking at -- at purchasing the solar --
Q. Sir --
A. -- system.
Q. -- stop, please. on.
A. And we were --
Q. No, I'm not interested. Please stop.
A. And then -- and then -- you asked the question. I'm finishing -- I'm finishing the damn question.
Q. I'm going to stop you.
A. Well then take out the whole question, because you're not going to use partial questions [sic], and you're not going to stop me from telling you what the whole question is.

You asked me a question, and I'm telling you the whole question. You asked me what he was
going to sell, and I'm telling you where we get the product for him to sell.
Q. I don't want to know where you got it. I want to know what he was going to sell.

So if he was going to sell an entire system of solar energy production from mirror to generation, that's what I want to know.
A. I was telling you that.
Q. Is that right?
A. No. We -- it isn't right. It isn't
correct. Because you have to have the whole thing or you don't get it correct, then you make assumptions and then you go and draw a whole big picture out of
nothing, out of thin air that isn't even accurate.
Q. Let's move on.
A. I have a right -- I have a right to go
through the entire question to get it clear so that
you cannot go out there and put a point on a -- put a
point on a mirror, or a blackboard and say this is the
eye of an elephant, and this is a point on an
elephant, this is his eye, and I'm going to draw the whole damn body around it.

MS. HEALY-GALLAGHER: I object to the responsiveness of the answer, and I'm going to move

THE WITNESS: Object to the whole thing,
Q. BY MS. HEALY-GALLAGHER: If we look back at Plaintiff's Exhibit 523, we see that there was a commission anticipated for SC Systems; is that right?
A. That's correct.
Q. Okay. You can put that aside.

MS. HEALY-GALLAGHER: Please mark next.
(Exhibit 524 was marked for identification.)
Q. BY MS. HEALY-GALLAGHER: Showing you,
sir, what's been marked Plaintiff's Exhibit 524.
Please take a look through that and let me know when you're done.

## 1 gotten it if not from IAS itself?

A. Well, he might have got part of it from

IAS, but I don't know. I -- I don't -- I'm not
familiar with the document. I didn't -- I didn't -- I
didn't put this document together, nor did anything --
did any of my employees put this document together.
I am not familiar with the document. We
have never used this document. We have never -- we never generated a sale from this document. And so the document is just something someone put together that maybe wanted me to participate in, I chose not to.
12 Q. Oh, so you believe this is a solicitation 3 to IAS?
A. Yes.
Q. Why would Mr. Pack be soliciting IAS to participate in something?
A. Because he wanted to make a sale.
Q. But he was IAS's sales representative.

How is he going to sell something to IAS on behalf of IAS?
A. It's easy. All -- he's trying to sell a program that he wants me to participate in to make a sale. I chose not to.
24 He was -- he was pitching this to me that
25 I would go out and -- and allow him to market this,

A. -- turbines.
Q. -- you never provided the turbines?

3 A. Well, they never provided their --
4 their -- they didn't provide their project.
Q. Okay. So the project fell through?
A. Right. But it was nothing with solar.
Q. Okay.
A. So it wasn't anything to do with this project.
Q. The next sentence which says:
"The Fresnel Lenses are being manufactured in September and the plant will be in operation in November 2003."
Do you have any idea what that's about?
A. No, I don't know.
Q. So if we look at Ra3016224 through 16230, it's a purchase and installation contract and a promissory note.

Do you know who drafted those?
A. I do not know, but it wasn't anything to do with International Automated Systems, no.
Q. You can put that aside, sir.

Did -- did or does IAS have someone named Lisa Phillips working for it?

Page 118

3 Q. Is she still employed by IAS?
4 A. No, she is not.
5 Q. When did she stop being employed by IAS?
6 A. I don't know. Several years ago.
Q. And was she fired?
A. She was caught embezzling, is what
happened. But, yeah, about a quarter of a million dollars worth.
Q. What, if any, actions did you take against Ms. Phillips?
A. I didn't take any actions. It was --
Q. Even though she stole a quarter of a million dollars?
A. Well, any action I would have taken, I would never got the quarter of a million dollars back. She didn't have it. And it would have broke up a family, and it would have destroyed some kids, and a variety of things that we just didn't want to do and be responsible for.

I didn't want to break up a family, cause a divorce, young kids to be deprived of their mother and a bunch of things, and so I didn't do it. So I said, fine, I'll pay it back. So I did.

1 Q. So, Mr. Johnson, when did IAS begin 2 selling lenses?
3 A. It was in 2007, I believe. I don't think 4 it was before then.
5 Q. As part of selling the lenses, did IAS
6 advertise certain tax benefits to go along with the
7 lenses?
8 A. I think they -- I'm not positive, but I
-- what we wrote down was indicating that there was a
law passed about that time authorizing tax credits,
and I believe we were just focusing -- we were doing
the same thing as other companies selling the same --
similar type of product.
14 So, yeah, I think that we were
advertising that there are certain tax benefits buying solar energy.
Q. Buying solar energy or buying solar lenses?
A. Well, solar lenses, yeah.
Q. And when did you start advertising that depreciation was a tax benefit related to buying the solar lenses?
A. It could have been at the same time, I don't know. But you have the documents. You would have them.

Page 120
1 Q. Please don't look at your wife, sir. If you don't know, just say you don't know.
A. Well, I don't know. But I'm sure you have the documents there, so -- but I'm sure we -- we
would have -- we would indicate that there's certain
laws that they -- I think they changed the laws on depreciation at the same time.
Q. So your recollection is that the laws on depreciation changed around 2007?
A. I think they did. I think -- I think
they changed it from -- they were given a bonus
depreciation at the time, I think, and tax credits.
Q. How -- how did IAS come to learn that depreciation might be a tax benefit associated with buying one of the solar lenses?
A. Well, I studied the laws that were coming out and how they were written, and I -- and I bought several books that were tax -- tax books, and I read the tax books and the laws associated with those.

And then I -- I read -- there were several companies out there that were -- that were putting on the website -- I'm trying to think the name of the website -- these various tax benefits of using 24 renewable energy and tax credits and depreciation.
25 And I followed those items through.

1 I then bought the books that described 2 the laws on -- on all -- well, there's all kinds of laws on tax laws, of course. But specifically then we studied those laws that were written by congress on
tax credits, and then associated them with the depreciation and how those laws operated.

I then went to several CPAs and asked
them about the tax laws and if I had interpreted those
laws correctly. And they indicated that I had.
Then I went to the National Association of Taxpayers, and I -- and I visited with those people on the subject of -- of the tax code on depreciation, as well as the tax credits, and if the things that I had read were accurate.

And I think you have the e-mails, at least the government had the e-mails, from those conversations from the National Taxpayers Association.

And they agreed that the tax statutes
that had been written had agreed with my interpretation of what I had read.

After that then came the first
acquaintance with the Anderson Group, and they validated the same things. And then McConkie validated the same things.
25 So it took a long time to get all the way
1 through everything, but -- but my recollection is is 2 we evaluated them.
told us And the we called the IRs. The ins then
4 told us that they couldn't give us tax advice, that I
5 needed to contact a tax opinion or tax attorney.
6 We asked them what qualifications the tax
7 attorney would have to have in order for us to get an accurate depiction of what the law would indicate.

10 been trained and through an accredited program designated by the United States, and got a license to practice in the tax laws, that they would be permitted to give us an opinion that they would recognize.

## And that's what we followed.

Q. All right. Let's take that piece by
piece. And let me just ask to double check the timeframe.

So is this in or around 2007 that you
studied the tax laws?
A. Correct.
Q. And in and around 2007 that you bought tax books?
A. Correct.
Q. And in and around 2007 that you reviewed websites about tax benefits?

2 Q. Okay. What -- if you remember, what are the books that you read?
4 A. I don't know. They're just books on -on tax code.
Q. Do you know --
A. There were several of them.
Q. I'm sorry.
A. There were several of them printed by --

I know it was Thomas, the company that does the --
the -- that prints out the actual log being printed,
or some other company like that, but...
Q. So did you read a book of tax codes, or did you read a book interpreting the tax code?
A. No, I read the tax codes.
Q. Okay. And did --
A. And then I read books on tax codes.
Q. Okay. So you read both the tax code -sorry, let me finish the question.

You read both the tax code and then books interpreting the tax code?
A. And then we read a lot -- then we would also then read the message boards about the tax codes and their opinions.
Q. Okay. All I want to know is about the

Page 124
tax code and the books interpreting the tax code for right now.
3 A. Okay.
4 Q. Do you remember the titles of any
books --
6 A. Idon't.
7 Q. -- interp- -- let me finish the question, 8 sir, please.
9 Do you remember the titles of any of the
0 books that you read?
A. No, I don't.
Q. Do you still have those books?
A. I don't -- I don't know. I don't think so.
Q. Do you remember who the authors were of those books?
A. I don't know.

8 Q. Do you remember the code sections that you read of the tax code?
A. Well, they would be the -- I would
imagine Section 48, and other sections like that, that had to deal with -- with the solar energy tax credits, plus business tax credits. And then the codes on
depreciation, I don't -- I don't recollect those codes, but they're easy to look up so I don't need to
remember them.
Q. Okay. So then you said that you reviewed websites about tax benefits?
A. Well, then there were other people then
writing about their interpretation of what these codes
meant.
Q. Hang on a second.

Which websites did you review?
A. I don't remember, but they were -- they
were a lot of them out there at that time.
Q. Do you remember who wrote these websites?
A. I don't, no.
Q. Do you have any printouts from the
websites?
A. No, I don't.
Q. So you mentioned, Mr. Johnson, that you
went to several CPAs to ask whether your
interpretation of the tax laws was correct?
A. That's correct.
Q. When did you do that?
A. During the same timeframe. It would --
it probably took a year or two to get through all the information that we actually did. So...
Q. So around 2007-2008?
A. Between 2006 and 2008 would be a good
representation.
2 Q. Which CPAs did you go to?
3 A. Just a variety of CPAs that we -- that we
had talked to some that we knew, some that we didn't know.
6 Q. Do you remember any names?
A. I don't, no.
Q. Did the CPAs give you anything in writing?
A. No. I didn't ask for anything in writing.
Q. How many CPAs did you talk to?
A. I don't know. Four or five, maybe six, I don't know.
Q. Do you have any records of your conversations with these CPAs?
A. I do not.
Q. Was anybody else with you when you talked to these CPAs?
A. I don't know if there was or wasn't. There could have been, but I don't remember.
Q. Quick question back on the tax code and the books that you read. I think a couple times you've said "we" looked at it. Who's "we"?
A. I just -- it's just the way I express

1 myself. I have a -- I just -- it's a habit that l've
2 acquired. It was just myself.
3 And then I would -- then I would, after I
4 read them, then I would invite other people to read
5 them and see their opinion on them who were not CPAs.
6 Q. Who was that?
7 A. Probably my kids and other people that 8 were working with me at the time.
9 Q. Who were they?
10 A. I don't know, just people that had been
employed by me. And I don't know if I did or didn't,
but I think I would have ran it by my two kids and see
3 what they felt like, you know.
14 Q. Do your two kids have federal tax 15 experience or background?
16 A. No, and I didn't rely upon them for their 7 opinion either, but I want to make sure that I was at 8 least reading the words correctly.
19 Q. All right. Mr. Johnson, then you
20 mentioned that you talked to NATP; correct?
A. That's correct.
Q. And is that the National Association of Tax Preparers?
A. That is.
Q. All right. Who did you talk to at NATP?

1 A. I just talked to people that would answer 2 the phone.
3 Q. Do you have any names?
A. I don't have.
Q. Did you only have verbal conversations?
A. No. They would send me e-mails on the subject.
8 Q. So what did you ask them about?
9 A. Basically the tax code on the very --
10 various -- various lines of code and what the codes
11 meant line by line on depreciation and on -- on the
12 tax credits.
13 Q. And to your mind, NATP's answers
14 confirmed your beliefs about how depreciation and tax
5 credits might apply to the solar lenses?
16
17

| Page 129 | Page 131 |
| :---: | :---: |
| 1 THE WITNESS: It doesn't. But it's been | 1 Q. When you called the IRS, what did you |
| 2 a long time ago. | 2 ask? |
| 3 Q. BY MS. HEALY-GALLAGHER: Mr. Johnson, | 3 A. I asked them specifically the questions |
| 4 what are you looking at right now? | 4 that I put forth on the McConkie letter and asked them |
| 5 A. It's the membership for the NATP. | 5 if this is accurate. |
| 6 Q. Okay. | 6 They said we couldn't comment on those. |
| 7 A. So that's what that is. | $7 \quad$ Q. So you're blending the Kirton \& McConkie |
| 8 Q. So you don't remember when you first | 8 letter in your call to the IRS, and I'm not sure I |
| 9 contacted NATP to ask these questions? | 9 understand. |
| 10 A. No, I do not. | 10 A. No. The information -- you asked me what |
| 11 Q. After that, Mr. Johnson, you say you went | 11 I asked them. And basically it was the information |
| 12 to -- that's when you first had contact with the | 12 that is contained in the McConkie letter. But that |
| 13 Anderson Law Center? | 13 was before the McConkie letter was written. |
| 14 A. Well, I don't know exactly when I had the | 14 Q. So after you gave the IRS the information |
| 15 first contact -- | 15 that you believe is in the Kirton \& McConkie |
| 16 Q. With -- | 16 memorandum, what did the IRS say? |
| 17 A. -- with respect -- | 17 A. They said that you would have to talk to |
| 18 Q. First contact with respect to anything to | 18 a tax opinion -- tax attorney. |
| 19 do with the lenses? | 19 And I says, what kind of -- what kind of |
| 20 A. Right. I don't remember exactly whe | 20 a tax opinion or a tax -- what kind of attorney would |
| 21 that was. We were -- we were doing business with them | 21 I have to talk to? I said, would any attorney do. |
| 22 on other issues with the -- with Todd Anderson, but | 22 They said, no, in order to get an |
| 23 they weren't related to the company, nor were they | 23 accurate tax opinion, you'd have to go to a licensed |
| 24 related -- they were personal items. They had nothing | 24 tax attorney. |
| 25 to do with the company nor with the tax -- tax laws at | 25 And I said, so what are the requirements, |
| Page 130 | Page 132 |
| 1 that time. | 1 then, for a tax attorney to have so that when I go to |
| 2 Q. And, in your mind -- and, let's see. And | 2 them I know that they have -- are qualified then to |
| 3 you got the letter -- you got a letter from the | 3 give me a tax -- tax opinions on this information. |
| 4 Anderson Law Center in or around 2010? | 4 And then they told me that they had to |
| 5 A. Seems to me like about right then, yeah. | 5 have an accredited course in tax that was accredited |
| 6 Q. And, in your mind, the letter from the | 6 by the United States Government, and then receive some |
| 7 Anderson Law Center validated your beliefs as to the | 7 kind of a tax license or some kind of information that |
| 8 application of depreciation and tax credits for the -- | 8 indicated that they -- they had passed the course with |
| 9 A. Yes. | 9 -- with a high enough ratings in order to get a |
| 10 Q. -- solar lenses? | 10 license. |
| 11 A. Yes, it did. | 11 Q. And you -- |
| 12 Q. Then I just want to be clear on this. | 12 A. And so that's what we -- so that's -- we |
| 13 After you mentioned the Anderson Law | 13 had the information so that when we visited with an |
| 14 Center, you said that Kirton \& McConkie validated your | 14 attorney, we could ask them about their |
| 15 beliefs about depreciation and the solar tax credit? | 15 qualifications. |
| 16 A. That's correct. | 16 Q. And you think this call with the IRS was |
| 17 Q. As applied to the IAS lenses? | 17 in or around 2007? |
| 18 A. That's correct. | 18 A. Uh-huh. |
| 19 Q. Did you first come into contact with | 19 Q. Yes? |
| 20 Kirton \& McConkie before or after you called the IRS? | 20 A. Yes, it was. And I-- I'm not the only |
| 21 A. It was after. | 21 one that called, either. There was other people that |
| 22 Q. All right. Tell me a little bit more | 22 called. |
| 23 about when you called the IRS. | 23 Q. Who else called? |
| 24 A. I'm not sure. It was probably closer to | 24 A. I think -- I think my one son called and |
| 25 2007. Around that time. | 25 I think Greg Shepard called, and Bill Pack may have |

    called, I don't know.
        Q. Did --
    3 A. But anyway, there was other people that
4 called.
5 Q. To your knowledge --
6 A. They got the same information, yeah.
7 Q. Do you have the name of the person you
8 talked to at the IRS?
9 A. I do not, but I don't know if Greg has it
10 or not, the one he talked to, but I didn't take the
1 name, no.
12 Q. Do you recall calling any particular
component of the IRS?
A. No. I just called for information and I
asked if I could find some information about some tax,
the way to handle some -- the way they handled the tax
credits and depreciation. And I got referred to an
individual in -- in the IRS, and they said they were
not able to do that and give out that kind of
information.
(Exhibit 525 was marked for identification.)
Q. BY MS. HEALY-GALLAGHER: Mr. Johnson,
you've been handed what's been marked Plaintiff's
Exhibit 525, which for the record is Bates numbered
Ra3014005 through 008.

Page 134

Please let me know when you're ready to answer questions.
A. Okay.
Q. Do you recognize Plaintiff's Exhibit 525?
A. No, this is not something I wrote.
Q. I'll represent to you that this is

United States and said it was from your files.
A. Well, it could have been my files, but I didn't write it.
Q. Any idea why International Automated Systems might have had this in its files?
A. Well, it's probably information some of the salesperson gave to me of what they felt like they could -- they could put out as a sales tool to -- to sell the product. But it doesn't -- it isn't something I put together.
Q. If a salesperson gave you something that was not correct, what, if any, action would you take?
A. I would tell them not to use it, but I
don't -- I -- I don't -- from my -- from my perspective, I don't see anything in here that -- I would have to go through the -- through the math and see whether or not their math is accurate, but --
Q. Well, I'm not --

1
2 basic -- the basic -- the basic concepts are something
3 that the -- was developed by the United States
4 Congress and -- and published that information.
5 So l'm -- l'm not -- I'm not saying it's
inaccurate. I'm just saying it's just not something I did.
8 Q. I'm not super concerned with the math
itself, but it sounds like you're saying -- and
correct me if I'm wrong -- Plaintiff's Exhibit 525
appears to be generally an accurate representation of what IAS had to offer at some point?
A. Well, I didn't -- I didn't see anything different than what the law stated.
Q. That's not --
A. And so if I -- if I -- if you're asking
me would I -- would I have recognized a mistake in here and -- and say that this was not accurate, I wouldn't because I would have thought that this was what the -- the tax credit was for and -- and what the congress has indicated.

We also researched congress and the
people that voted on the law and we tried to -- and
then I think we got ahold of one of our
representatives and asked them what the intent of the
Page 136 law was.

2
3
4 e
5 to
6 willing to risk their money in developing new -- new
7 equipment for -- for the purpose of reducing the cost
8 of solar energy.
9 And so I -- I personally don't see
10 anything that the congressmen didn't -- didn't --
1 didn't tell me, and so I wouldn't -- I wouldn't have
12 known on my own that that was inaccurate. But I did
13 not write that.
14 Q. Okay. But you believe that the 15 statements in Plaintiff's Exhibit 525 are accurate?
A. I believe they are. I believe that's what the code indicated. I believe that was the intent of the law and the studies I made from the people I talked to, including the congressman.

And we met with -- with the Senator
21 Hatch, actually, office on the same subject, to tell 22 you the truth.
23 Q. This Plaintiff's Exhibit 525 identifies a 24 lease sales presentation.
25 A. Right.

| Page 137 | 9 |
| :---: | :---: |
| 1 Q. And it features an equipment lease | 1 please, to Paragraph 2A. |
| 2 agreement? | 2 A. On -- on the next page, on this next one |
| 3 A. Right. | 3 here |
| 4 Q. Then an equipment sublease agreement? | 4 Q. No. Take a look at the same exhibit you |
| 5 A. Right. | 5 had in your hand, which is 462 -- I mean -- yeah. |
| 6 Q. What was the -- tell me about a lease | 6 A. Okay. |
| 7 agreement being involved with IAS. | $7 \quad$ Q. Let's take a look at Paragraph 1. |
| 8 A. I don't know anything about the -- that's | 8 A. On what page again? |
| 9 what I'm saying, I don't know anything about the | 9 Q. 717. First page. |
| 10 numbers and the things that they were creating as far | 10 A. Oh, first page. Okay. |
| 11 as a sales program was going, but I-- but if you're | 11 Q. Paragraph 1. |
| 12 talking about the tax credits and depreciation, I see | 12 A. Okay. |
| 13 no problem. | 13 Q. Now, the lessor, which is IAS; correct? |
| 14 The lease agreement has always created a | 14 A. I think so. Right, okay. |
| 15 problem for me in -- in -- with respect to with | 15 Q. "Is the owner of certain proprietary |
| 16 depreciation, and so I wasn't -- I wasn't -- I wasn't | 16 alternative energy technology..." |
| 17 interested in that program, as far as I know. | 17 A. Okay. |
| 18 Q. Handing you what's been marked | 18 Q. "...hereinafter, IAS technology, |
| 19 Plaintiff's Exhibit 462. | 19 which technology relates to solar |
| 20 A. Right. | 20 energy collection, and which |
| 21 Q. For the record, Plaintiff's 462 is Bates | 21 technology is utilized for the design |
| 22 numbered Ra3717 through 723. | 22 and fabrication of certain components |
| 23 Mr. Johnson, Plaintiff's Exhibit 462 | 23 which are identified below, and which |
| 24 appears to be an equipment lease agreement between | 24 are hereinafter collectively referred |
| 25 Greg Shepard and International Automated Systems, Inc. | 25 to as 'the alternative energy |
| Page 138 | Page 140 |
| 1 Do you see that? | 1 system.'" |
| 2 A. Yeah, I do. | 2 Did I read that correctly? |
| 3 Q. And that's dated 28 December 2005; | 3 A. You're looking at A? |
| 4 correct? | 4 Q. Paragraph 1, sir. |
| 5 A. That's correct. | 5 A. Oh, Paragraph 1. |
| 6 Q. And you signed this equipment lease | 6 Q. Did I read that correctly? |
| 7 agreement on behalf of IAS; correct? | $7 \quad$ A. I think so, yes. |
| 8 A. Correct. | 8 Q. What was the alternative energy system? |
| 9 Q. And Plaintiff's Exhibit 462 generally has | 9 A. This one, I think, was -- I'm not |
| 10 the look and appearance of other equipment lease | 10 positive, but I think it was a geothermal energy |
| 11 agreements that IAS entered around December 28, 25 | 11 system. I'm not positive. |
| 12 2005; correct? | 12 Q. So in Paragraph 1 it talks about solar |
| 13 A. No. This -- I don't know exactly what | 13 energy collection? |
| 14 this is, and l'd have to -- | 14 A. Okay. |
| 15 Q. Nonetheless, sir, you signed it on behalf | 15 Q. Does that refresh your recollection at |
| 16 of IAS; correct? | 16 all? |
| 17 A. Oh, yes, I signed it, yes. | 17 A. Could be. It could have been -- it could |
| 18 Q. Okay. Showing you what has been marked | 18 have been that mirror system out there in Yermo that |
| 19 Plaintiff's Exhibit 464. | 19 had been shut down, and this fellow Greg was -- was |
| 20 Actually, I see you're still on | 20 trying to buy the Yermo property and install our -- |
| 21 Plaintiff's Exhibit 462. | 21 our turbine in the system, from what I remember. |
| 22 A. Well, there's an item in here that -- | 22 And I'm not positive about this, but I |
| 23 that is something that I'm reading that I'm not | 23 think that's -- this -- this is the -- the old Yermo |
| 24 familiar with is all. | 24 mirror system had a tower out there and everything was |
| 25 Q. Well, l'd like to direct your attention, | 25 in place, still in place. They had just set it up. |

| Page 141 | Page 143 |
| :---: | :---: |
| 1 And I think Greg indicated that he had a | 1 I don't know. But I know -- I know that nothing came |
| 2 way to get that, and then we could install our turbine | 2 of it. I don't think anything ever happened. Not on |
| 3 on it, and then it would probably operate. | 3 our side. |
| 4 But for some reason they sold it to -- | 4 So we didn't -- and I think it says in |
| 5 they sold that to a university and they used the | 5 here he had some kind of a -- a document in 29 on the |
| 6 mirrors to track stars with. | 6 last page, Page 6, in Paragraph 29: |
| 7 Q. Who is "they"? | 7 "Lessor and lessee acknowledge that |
| 8 A. Okay. The people that owned the Yermo | 8 they each understand and expect that |
| 9 thermal energy system was in contact with Greg Shepard | 9 the alternative energy system may |
| 10 on buying the Yermo mirror system, from what I | 10 qualify for certain tax incentives |
| 11 remember -- I may be wrong -- but I think this is what | 11 and may benefit under the 2005 Energy |
| 12 Greg Shepard was trying to get me into. | 12 Policy Act and other statutes. |
| 13 Q. Why would IAS be leasing alternative | 13 Lessee acknowledged that it has |
| 14 energy equipment? | 14 received a tax opinion letter |
| 15 A. This was before lenses were done. | 15 obtained by lessor from lessor's |
| 16 Q. Sir -- sir, why would IAS be leasing | 16 accountant. |
| 17 alternative energy equipment to Greg Shepard if that | 17 "However, lessee acknowledges and |
| 18 equipment was owned by someone else? | 18 agrees that the tax opinion letter of |
| 19 A. He wanted me to buy it. | 19 lessor's accountant was prepared for |
| 20 Q. Mr. Shepard wanted you to buy? | 20 the sole use of lessor and that |
| 21 A. Yeah, and then he signed a lease on it. | 21 lessee shall not rely on the content |
| 22 And I says, well, I'll see what I can do. | 22 of that opinion letter. |
| 23 So he gave me a good price on it because | 23 "Lessee agrees to obtain the |
| 24 they closed it down, but I got -- I'm not positive, | 24 evaluation and opinion of its own tax |
| 25 but this is -- there's -- this is one -- this is one | 25 attorney or accountant as to any tax |
| Page 142 | Page 144 |
| 1 of the things he did do -- did do and -- and so we had | 1 matter relating to this agreement." |
| 2 the turbine and we could have made it profitable with | 2 Q. And -- |
| 3 the turbine because the mirror system was discounted | 3 A. So I don't even -- but I don't even |
| 4 pennies on the dollar. | 4 remember I had a tax -- he's kind of created that |
| $5 \quad$ And it appeared to be a pretty good deal | 5 point. |
| 6 until I got down there and saw the cost of maintaining | 6 Q. So the lessor in this contract is IAS; |
| 7 the mirrors. And we -- | 7 correct? |
| 8 Q. So your testimony, sir, is that this | 8 A. I think it is, but I -- I don't remember |
| 9 equipment lease agreement does not have to do with any | 9 it, yes. |
| 10 solar lenses? | 10 Q. And what you just read says that lessor |
| 11 A. Well, it had to do with the sola | 11 had a tax opinion letter that the lessee reviewed; |
| 12 mirrors, I think. The Yermo plant is in -- is the | 12 correct? |
| 13 mirrors -- is the mirror system. And I think that is | 13 A. From an accountant, yeah. And it may |
| 14 the -- because we went -- did you go with us? You | 14 have been an accountant that gave me a tax opinion |
| 15 went with us down there, and we got the guy -- | 15 letter at that time, but I didn't give it to anybody |
| 16 Q. Sir -- | 16 to rely upon. |
| 17 A. -- the person that owned the system. | 17 Q. Take a look, please, at Plaintiff's |
| 18 Q. Nonetheless, sir, there never was any | 18 Exhibit 22 from yesterday. |
| 19 power produced by IAS or anyone else in Yermo, |  |
| 20 California; correct? | 20 Maxwell; correct? |
| 21 A. No, we didn't produce anything, and this | 21 A. Yes. |
| 22 was before. I think this was before the tax credits | 22 Q. And the date on that is August 2005; |
| 23 even came out in 2005. | 23 right? Right? |
| 24 I don't know the tax credits were even | 24 A. What's that? |
| 25 available in 2005, were they? They may have been, but | 25 Q. The date on that is August 2005; right? |

| Page 145 | Page 147 |
| :---: | :---: |
| 1 A. Yes, uh-huh. | 1 Q. It's dated -- |
| 2 Q. Okay. You can put that aside. | 2 MR. SNUFFER: This is -- this has a real |
| 3 A. So what is -- this is a tax opinion | 3 low Bates number. Was this produced by Sam Alba or. |
| 4 solely on -- | 4 MS. HEALY-GALLAGHER: Let's go off the |
| 5 Q. There's no question pending, sir. | 5 record for a second. |
| 6 A. Let's see. I'm going to -- I never used | 6 (There was a discussion held off the record.) |
| 7 it for anything. | $7 \quad$ Q. BY MS. HEALY-GALLAGHER: This letter was |
| 8 Q. All right. Sir, handing you what's been | 8 dated October 5, 2005. |
| 9 marked Plaintiff's Exhibit 463. Would you please take | 9 Mr. Johnson, do you recognize this |
| 10 a look at that. | 10 document? |
| 11 A. What was that again? | 11 A. No, I don't. |
| 12 Q. 463. Please -- take a look at that, | 12 Q. Do you have any reason to think it was |
| 13 please. | 13 not sent on or around October 5, 2005? |
| 14 A. Okay. | 14 A. No, but I just don't recognize it. |
| 15 Q. For the record, 463 is Bates No. Ra3551 | 15 Q. So just take a look, please, at the |
| 16 through 557. | 16 bottom of the first page -- |
| 17 A. Okay. | 17 A. Okay. |
| 18 Q. Do you recognize Plaintiff's Exhibit 463, | 18 Q. -- where it says: |
| 19 sir? | 19 "A simple schematic of a standalone |
| 20 A. I believe so, yes. | 20 project development process would be |
| 21 Q. This is an Independent Representative | 21 as follows:" |
| 22 Agreement between Greg Shepard and IAS; correct? | 22 Did I read that correctly? |
| 23 A. Correct. This was never signed. So... | 23 A. Correct, yes. |
| 24 Q. To your understanding, was Greg Shepard | 24 Q. "IAS (with my active assistance) |
| 25 actually an independent representative of IAS? | 25 develops a renewable project; |
| Page 146 | Page 148 |
| 1 A. I don't know if he was or wasn't. But I | 1 "A. Secures Site and Environmental |
| 2 imagine he was, but this one isn't signed. And I'm | 2 and Other Permits." |
| 3 not sure that this would be the same -- same one, but | 3 Did I read that correctly? |
| 4 I don't have a problem with it. I'm just saying I | 4 A. Yes. |
| 5 don't see it signed. | 5 Q. As of October 5, 2005, did IAS have any |
| 6 Q. So, in fact, your testimony is that Greg | 6 experience with securing environmental permits? |
| 7 Shepard was an independent representative of IAS; | $7 \quad$ A. Yes. We knew how to -- how to go about |
| 8 correct? | 8 getting the proper agencies to evaluate for -- for a |
| 9 A. I believe he was, yes. | 9 site for environmental impact statements. |
| 10 MS. HEALY-GALLAGHER: Next, please. | 10 Q. Had IAS ever done that before? |
| 11 (Exhibit 526 was marked for identification.) | 11 A. It wasn't necessary for what we were |
| 12 Q. BY MS. HEALY-GALLAGHER: Mr. Johnson, | 12 doing. |
| 13 please take a look at what's been marked Plaintiff's | 13 Q. So, no, it had never done that before? |
| 14 Exhibit 526, which is right here (indicating). | 14 A. It wasn't necessary, no. |
| 15 Plaintiff's 526 is Bates marked Ra3565 | 15 Q. And since October 5, 2005, has IAS |
| 16 through 566. | 16 actually secured environmental authorization to |
| 17 Again, I'll represent to you that your | 17 conduct any project involving solar energy technology? |
| 18 attorneys produced this document. It appears to be to | 18 A. From what I understand, the environmental |
| 19 Randy Johnson as the VP of business development for | 19 impact statement is only required if fell -- if |
| 20 International Automated Systems, Inc. | 20 federal loan -- loans are going to be involved, or |
| 21 Do you see that at the top? | 21 federal land. |
| 22 A. I do. | 22 Q. So the answer's no? |
| 23 Q. And it's from a company called ECI | 23 A. So we weren't required to, no. And that |
| 24 International, Inc.? | 24 has been evaluated by the IRS, by the way, or the |
| 25 A. Okay. | 25 IRS's attorney. |

| Page 149 | Page 151 |
| :---: | :---: |
| 1 Q. So the next sentence there is: | 1 generating plant that's mentioned in this letter? |
| 2 "Negotiates PPA with credit worthy | 2 A. I decided to back away from it because |
| 3 energy off-taker." | 3 the price wouldn't -- wouldn't work out with the |
| 4 On or before October 5, 2005, had IAS | 4 numbers that they were offering, and so -- |
| 5 engaged in -- entered into a Power Purchase Agreement? | 5 Q. So -- |
| 6 A. We had -- we had prepared one for a | 6 A. -- they were offering for -- the actual |
| 7 California project. | 7 contracts were not what -- what we could afford to do |
| 8 Q. That's not my question. | 8 for the price, so we -- we booked away from that. |
| 9 A. But -- but we haven't -- it isn't | $9 \quad$ Q. So that power plant never happened? |
| 10 necessary, no. | 10 A. No, it did not, no. |
| 11 Q. Had IAS entered into a Power Purchase | 11 Q. With that power plant -- does "power |
| 12 Agreement on or before October 5, 2005? | 12 plant" in that instance in Plaintiff's 527, does that |
| 13 A. No, because it wasn't necessary. | 13 mean a whole system or does that mean just turbines? |
| 14 Q. Has IAS entered into a Power Purchase | 14 A. No, that would be -- that would be the |
| 15 Agreement since October 5, 2005? | 15 whole system. But we couldn't have done it with the |
| 16 A. No. | 16 lens -- with -- the cost of the lenses at that time |
| 17 Q. Next line: "Negotiates | 17 were extremely expensive. |
| 18 Transmission/Interconnection Agreement." | 18 And so we hadn't -- we hadn't -- I don't |
| 19 A. No. | 19 think we had developed the -- the new lenses at that |
| 20 Q. Before October 5, 2005, had IAS ever | 20 point. I'm not positive, but I think that's my |
| 21 entered a transmission agreement? | 21 recollection. |
| 22 A. No. | 22 (Exhibit 528 was marked for identification.) |
| 23 Q. Had IAS ever entered an interconnection | 23 Q. BY MS. HEALY-GALLAGHER: Handing you |
| 24 agreement? | 24 what's been marked Plaintiff's Exhibit 528. |
| 25 A. No. | 25 For the record, Plaintiff's 528 is |
| Page 150 | Page 152 |
| 1 Q. Since October 5, 2005, has IAS entered | 1 Bates-labeled Ra3680 through 688. |
| 2 any transmission agreement? | 2 Mr. Johnson, do you recognize Plaintiff's |
| 3 A. No. | 3 Exhibit 528? |
| 4 Q. Has IAS entered an interconnection | 4 A. Not offhand, but I -- I imagine it was |
| 5 agreement? | 5 probably something to do with what l've -- what I've |
| 6 A. No. | 6 done. |
| 7 Q. Did IAS ever enter any agreements with | $7 \quad$ Q. So the letter in Plaintiff's Exhibit 527 |
| 8 ECI International, Inc.? | 8 is directed to the company Solar Renewable Energy 1, |
| 9 A. Not that I'm aware of. | 9 LLC; is that right? |
| 10 (Exhibit 527 was marked for identification.) | 10 A. Right. |
| 11 Q. BY MS. HEALY-GALLAGHER: Please take a | 11 Q. Okay. And the purchase and installation |
| 12 look, sir, at Plaintiff's Exhibit 527. | 12 contract in Plaintiff's Exhibit 528 is between Solar |
| 13 For the record, Plaintiff's 527 is Bates | 13 Renewable Energy 1, LLC and IAS; correct? |
| 14 marked Ra3608. | 14 A. Right. |
| 15 Mr. Johnson, do you recognize Plaintiff's | 15 Q. And you signed Plaintiff's Exhibit 528 on |
| 16 Exhibit 527? | 16 behalf of International Automated Systems; correct? |
| 17 A. I don't remember doing it, but I -- I -- | 17 A. Right. |
| 18 I assume that I must have. | 18 Q. So even though you had signed a purchase |
| 19 Q. You recognize IAS's letterhead at the | 19 and installation contract, Mr. Johnson, you say you |
| 20 top? | 20 decided to back out? |
| 21 A. I do. | 21 A. Well, yeah, because they -- we didn't |
| 22 Q. And your signature is at the bottom? | 22 have the -- the other lenses were not complete. We |
| 23 A. Yes, I do. | 23 had a -- we had a -- we hired an outside firm to -- to |
| 24 Q. What, if anything, ever happened with | 24 develop the Fresnel lens in a real plastic situation. |
| 25 regard to the hundred megawatt solar thermal power | 25 And from my understanding, the contact |

was supposed to have been done in the end of 2005 , but in fact it wasn't done. And so the lenses would have been -- that I would have had to buy to finish this project would have been prohibitive in my costs.
5 Q. So you backed out?
6 A. Well, yeah, I think we did. I think we
7 backed out on that basis. I'm not positive exactly what happened, but I think that's right.
(Exhibit 529 was marked for identification.)
10 Q. BY MS. HEALY-GALLAGHER: Handing you Plaintiff's Exhibit 529.
A. I'd forgotten all this stuff.
Q. For the record, Bates marked Ra3768
through 784.
Take a look at that, please, and let me
know when you've had a chance to review.
A. Yeah, go ahead.
Q. Do you recognize Plaintiff's Exhibit 529?
A. Yes -- yes, I think I do.
Q. What is it?
A. I think this is a project in Boulder

City.
Q. And why do you think that?
A. Well, because I think this is the name of the company in Boulder City.

Page 154
Q. So if you take a look at --
A. 10066769 .
Q. Okay. And if you take a look at Page

Ra3772.
A. 000772?
Q. Yes. And 73, the images on those pages
look an awful lot like images from IAS; right?
A. That's correct, yes.
Q. Did IAS create this document?
A. Yes, we did.
Q. Who wrote it?
A. I probably wrote it, and I probably drew
this as well.
Q. And what was the purpose of this
document?
A. Provide information for a -- Boulder City
was interested in doing some business with us. They had some property that was outside that was designated for solar energy projects, and they asked -- they had

1 come out to see our system in -- in Mesquite.
2 And they saw the system working there producing power, and they become very interested in 4 working with us in a -- on a development project in
5 Boulder City out there in about 300 acres. Yeah,
6 about 300 acres of land that they owned, Boulder City
7 owned.
8 Q. And did you ever -- did IAS ever
9 engage -- actually create any project outside of
0 Boulder City?
A. On, no. And the reason was is they 2 wanted more money from the land than they wanted to 3 pay, and so I didn't do it. That's what happened.
14 But they wanted me to go out there and do this.
15 But that's what -- I think that's how it 16 came about. They're actually good friends of mine
17 still. I mean, they -- they still like me, actually,
18 so I must not have yelled at them too hard.
19 But anyway, that -- this is what -- this
20 was the -- showing something that we would have done
21 out there in some kind of -- and they want us to do
22 it, but I wasn't -- I decided I wasn't going to pay
23 for the ground that much, pay for the ground they
24 wanted. I could get it cheaper somewhere else.
25 Q. So you never did a project with Boulder

1 City?
2 A. No, but we were invited to. We just didn't do it.
Q. Handing you, sir, what's been marked

Plaintiff's Exhibit 94. Take I look at that, please.
Do you recognize Plaintiff's Exhibit 94?
A. Yeah, it looks like something that was
done by -- by Greg Shepard.
Q. This is an Equipment Purchase

Agreement --
A. Right.
Q. -- between International Automated Systems and MJM Holding; correct?
A. Right.
Q. When you say this looks like something

Greg Shepard would have done --
A. No, it's something that Greg Shepard purchased. I'm just saying that --
Q. Okay. So who -- who wrote this Equipment Purchase Agreement?
A. One of -- probably an attorney of mine.
Q. Do you remember who?
A. It wasn't Denver. I don't -- I don't
know exactly who. I think it was -- could have been Dave, but I'm not sure.

| Page 157 | Page 159 |
| :---: | :---: |
| 1 Q. Nonetheless, you provided the form of the | 1 Exhibit 530? |
| 2 Equipment Purchase Agreement; right? | 2 A. No, I don't. I don't recognize it. |
| 3 A. I did. I did that, yes. | 3 Q. Okay. Well, let's take a look, please, |
| 4 Q. Okay. I'd like you to take a look, | 4 at Page 2098. And you mentioned that IAS.com has been |
| 5 please, at Paragraph 1 under "Agreement." | 5 hosted by Gmail for quite some time; right? |
| 6 A. Under "Agreement," okay. | $6 \quad$ A. I believe so, yes. |
| 7 Q. Yeah. It says, Number 1: | 7 Q. And we see at the top, Lisa@IAUS.com; |
| 8 "Seller" agree -- "hereby sells to | 8 correct? |
| 9 purchaser and purchaser hereby | 9 A. I'm sorry, what was the question? |
| 10 purchases from seller the alternative | 10 Q. You see at the top, Lisa@IAUS.com? |
| 11 energy system consisting of the | 11 A. That's correct, yes. |
| 12 system components identified on the | 12 Q. And below that the body of the e-mail is |
| 13 attached Exhibit A." | 13 from Bill Pack, e-mail address Pack@IAUS.com; right? |
| 14 Did I read that correctly? | 14 A. Bill Pack, right. |
| 15 A. Yes, you did. | 15 Q. So Bill Pack had an IAUS.com e-mail |
| 16 Q. Please turn to the last page of this | 16 address; correct? |
| 17 exhibit. All the way last. Here we see Exhibit A; | 17 A. It appears so. |
| 18 correct? | 18 Q. Okay. |
| 19 A. Okay. | 19 A. I wasn't aware of it, though, until this. |
| 20 Q. And Exhibit A is blank. | 20 Q. But it looks like Bill Pack e-mailed your |
| 21 A. Okay. | 21 son Randy; correct? |
| 22 Q. So what was the alternative energy system | 22 A. Looks like that. Right, okay. |
| 23 that MJM Holding purchased? | 23 Q. And before that he had e-mailed your son |
| 24 A. I don't know. I don't know that we ever | 24 LaGrand; right? LaGrand@IAUS.com? |
| 25 did purchase it, but I don't know -- I don't know -- | 25 A. Correct, uh-huh. |
| Page 158 | Page 160 |
| 1 I'm not -- I don't recollect how the transaction | 1 Q. And the e-mail says, if you flip the |
| 2 turned out. | 2 page, perfect: |
| 3 Q. Take a look at the second to last page, | 3 "Lessees have called this a.m. |
| 4 please, sir. | 4 needing the letter from IAS stating |
| 5 A. Second to last page, yes, okay. | 5 the solar lens was placed in service |
| 6 Q. That's your signature on behalf of IAS; | 6 and qualifies for the tax credit for |
| 7 correct? | 72006 so they can file their tax |
| 8 A. Yes, it is. | 8 return." |
| 9 Q. Okay. | 9 A. Okay. |
| 10 A. But I still don't remember how the -- the | 10 Q. Says: |
| 11 deal went. I'd have -- l'd have to ask Greg, because | 11 "Please address a letter to each |
| 12 I'm not really familiar with it. | 12 lessee." |
| 13 Q. Mr. Johnson, did Lisa Phillips have an | 13 A. Okay. |
| 14 e-mail address for IAUS.com? | 14 Q. What's your understanding, Mr. Johnson, |
| 15 A. Now that I don't know. | 15 of a "placed in service letter"? |
| 16 Q. Does Lisa at IAUS ring a bell? | 16 A. If I -- if I would have gotten that it |
| 17 A. Yeah, I know Lisa, but I don't know | 17 would have -- it would have qualified under the -- the |
| 18 the -- the e-mail address. I never -- l've never | 18 tax code that I used that provided for the in-service |
| 19 looked at it, as far as I know. | 19 letter to be done. |
| 20 MS. HEALY-GALLAGHER: Mark next, please. | 20 However, I don't recollect doing it. |
| 21 (Exhibit 530 was marked for identification.) | 21 Whether I did or didn't, I don't know. I may have |
| 22 Q. BY MS. HEALY-GALLAGHER: Please take a | 22 done, but I don't know. But it would have -- it would |
| 23 look at Plaintiff's Exhibit 530, which is Bates marked | 23 have had a statement telling what reference, I think, |
| 24 Ra32097 through 2098. | 24 to the tax code. I would hope I would do that. |
| 25 Mr. Johnson, do you recognize Plaintiff's | 25 Q. And I'm showing you what was marked |

sold for $\$ 30,000$ total with a $\$ 9,000$ down payment; right?
A. Correct.
Q. Sir, you just said -- you just said that you wrote Plaintiff's Exhibit 531 to assist in sales of IAUS items.
A. Right. But I didn't say that I showed it 6 to those people for the purpose of making sales. I showed it for the purpose to have their input on what they felt about the program.
Q. Why were you asking them?
A. I asked people how they feel about what I'm -- about the program and -- and see how I might change it later. I do that all the time. I do that to everything I do.

I don't just go with my feelings on my own. I go by my -- a variety of people. I always have. So you -- you misinterpreted what I said.
Q. I don't think I did, sir. The transcript will reflect what you said.
A. Well, you must have interpreted it wrong,
because I didn't say that. I said I showed it to --
you asked me how many people I showed it to, not how many people I sold it to.

There was two different issues, and
4 that's what I mean by putting a little dot in an eye
25 and saying this is an elephant. That's why I go

1 through and I make sure that I finish all of my
2 statements so you can't be putting dots around and 3 claiming it's an elephant.
4 So I will correct -- I will correct the
5 first statement I made and say I showed it to
6 individuals, not for the purpose of selling the
7 product, but for the purpose of evaluating how -- how
8 the -- how the sales material looks and how they would
9 -- how they would feel about that.

Ra313993 through 14004.
A. Okay. Okay.
Q. Do you recognize this document, Mr. Johnson?
A. Yes, I do.
Q. What is it?
A. This is the -- the same document prepared in just a Photoshop way to -- to make a sales -- sales

Page 172
presentation material for my solar energy project.
Q. And do you mean Plaintiff's Exhibit 532
has the same information as Plaintiff's Exhibit 531?
A. These were -- these were developed, I
think, at the same period of time, yes.
6 Q. And did you create Plaintiff's Exhibit 532?
A. I did.
Q. Did you create Plaintiff's Exhibit 532, you said around the same time as 531 . So that would have been in or around 2006; correct?
A. Yes. They were -- they actually were -went together. You would have -- you would have had these -- these together. This would have been just an overview. This would have had the disclaimers in it together and so they would have been together.
Q. Can I see those two?
A. Yes, ma'am, you can.
Q. Thank you.
A. But they were -- they were just preliminary -- preliminary --
Q. I see.
A. -- statements that we put together to see how people would -- would feel about purchasing them and what the response would be to the people that I

| Page 173 | Page 175 |
| :---: | :---: |
| 1 showed it to. | 1 crunched the numbers. I hadn't -- I hadn't fully |
| 2 Q. So, Mr. Johnson, if you take a look at | 2 developed the pricing structure. |
| 3 the last page of Plaintiff's Exhibit 531, which is | 3 It was just the way to do the numbers, |
| 4 Ra313992. | 4 and we may have sold one or two this way, but it |
| 5 A. Okay. | 5 wouldn't have been more than that, because I -- it |
| 6 Q. And the first page of Plaintiff's | 6 wouldn't have been something that I would have made |
| 7 Exhibit 532, the Bates number for the first page is | 7 money at. |
| 8 the next page number; correct? | 8 Q. But you set the price; correct? |
| 9 A. Yeah. | 9 A. I'm the one who set the price, but it was |
| 10 Q. Yeah. So I see what you're saying. So | 10 before we actually crunched the numbers using the |
| 11 these two would have been together? | 11 statistical models that we had developed to actually |
| 12 A. Right. | 12 create the price. |
| 13 Q. Okay. Who, if anyone, did you show | 13 Q. Take a look, please, at Ra314001. |
| 14 Plaintiff's Exhibit 532 to? | 14 A. Okay. |
| 15 A. The same group of people that would be | 15 Q. Which says "First year return $\$ 11,355$. |
| 16 around me, and I would have shown it to them | 16 A. Right. And those are based on the |
| 17 and -- and sought their input into what had been | 17 numbers of these -- of the value of what the system |
| 18 developed and what other changes we may do, and how | 18 would have done under these circumstances. |
| 19 the best way to present a marketing program to sell | 19 But it no way -- it no way is a -- is |
| 20 to sell the equipment and test the sales, basically. | 20 anything more than just an example of what would |
| 21 Q. Are the people you showed it to the | 21 happen under these circumstances. It doesn't mean |
| 22 people who were marketing for IAS? | 22 was going to stay in this model. In fact, I didn't. |
| 23 A. At the time, I think Greg Shepard was the | 23 Q. Well, I'm just curious where you got this |
| 24 only one that was -- was -- he claimed to want to | 24 number? |
| 25 market it. | 25 A. I just pulled it out of my head. It |
| Page 174 | Page 176 |
| 1 Q. Let's take a look, please, at Bates No. | 1 wasn't a number I had even crunched to see if it would |
| 2 Ra13998. | 2 make any money. I just put the things together. |
| 3 A. Okay. | 3 Q. So what -- what was going to generate the |
| 4 Q. And that's where you identify, in simple | 4 first year return? |
| 5 terms, how the system will work and how money will | 5 A. Well, it was -- under these |
| 6 flow from the power purchaser to the purchaser of the | 6 circumstances, if we would have done that and the |
| 7 solar unit; correct? | 7 electricity prices were at what we calculated to be, |
| 8 A. Right, right. But it doesn't indicate | 8 that this was the potential of a project being |
| 9 that this would be the only -- only way to create | 9 developed anyplace. |
| 10 income from the system. All it does is -- is put a -- | 10 It wasn't -- it wasn't even designated as |
| 11 put a way that -- that you could use it in order to | 11 even where I was going to put it. We may have put it |
| 12 convert it into money. | 12 in Texas. We may have put it in -- we owned property |
| 13 Q. Okay. | 13 in Delta within five -- 500 feet of the -- of all |
| 14 A. But it wasn't limited to just this. This | 14 major grids. We owned thousands of acres over there. |
| 15 didn't limit the -- the system to just that. | 15 So it could have been anyplace. It could |
| 16 Q. Understood. | 16 have been in Hawaii. Hawaii was wanting us to go over |
| 17 A. Okay. | 17 there at 25 cents a kilowatt. We could have went |
| 18 Q. On the next page -- | 18 to -- American Samoa wanted us over there. |
| 19 A. Oh, sorry. | 19 There was a lot of people, not just |
| 20 Q. -- you identify the value of one solar | 20 Boulder City, that were wanting us to -- to enter into |
| 21 unit at \$30,000? | 21 some contracts at that particular time. |
| 22 A. That's correct. | 22 Q. So at the time that you wrote Plaintiff's |
| 23 Q. How did you arrive at that? | 23 Exhibit 531 and 532, there -- there were no lenses |
| 24 A. It was just -- it was just a guess. Like | 24 installed on towers; correct? |
| 25 I said, we hadn't gone through the numbers. We hadn't | 25 A. Well, you saw the one lens. It was a |

single tower.
2 Q. Okay. So you're referring to the photos 3 in 532?
4 A. Right. It was a single unit back then.
5 That was what we did.
Q. So that was the only one that was up?
A. Right. But that's what we did. We put
several of them up that way. We decided that it -- it was -- it was a difficult way to handle the situation.

It put it too close to the ground. It
was -- it was a hazard as to people walking around it
because of the way the focal lengths were. We decided
that we didn't want that to -- to be that close to the
ground because of the danger, so we went to another system.

But it worked. It worked fine. It
heated water and it -- we had water, little
concentrated there, and it worked fine.
Q. I'm going to show you, sir, what was
marked previously in this case as Plaintiff's
Exhibit 181. And we talked about that yesterday.
Plaintiff's Exhibit 181, if we take a
look at the top, is dated 18 December 2008.
Do you see that?
A. Ido.

1
2 Agreement between IAS and iLios, LLC; right?
3 A. Okay.
4 Q. Now, this contract states that it is for
550 alternative energy systems. Do you see that? It's 6 on the first page under "Agreement," Paragraph 1.
7 Under "Agreement," Paragraph 1. Nope,
8 first page. About halfway down the page do you see
9 the word "Agreement" in bold caps?
A. Uh-huh.
Q. And you see Paragraph 1 underneath that?
A. Uh-huh.
Q. Yes?
A. Yeah, I see it. Right, okay.
Q. Okay. So go ahead and read Paragraph 1
to yourself, please.
A. Okay. I got it.
Q. This Equipment Purchase Agreement is for 50, five zero, alternative energy systems.

Do you see that?
A. Uh-huh.
Q. Yes?
A. Right.
Q. What are the alternative energy systems
subject to this contract?

1
2 3 a definition of that term in this contract.
4 A. Well, I'd have to -- I'd have to go back 5 to see if there's any documents with it to refresh my 6 memory, because I'm not positive what that is.
7 Q. Well, I'll ask you this: What, if 8 anything, was IAS selling in December 2008?
9 A. I thought I was selling the -- the other
10 -- the other lenses.
A. Right.

16 Q. Let's take a look, please, at the last 7 sentence of Paragraph 1.
18 A. Okay.
Q. What do you mean "the other lenses"?
A. Just the triangle lenses.
Q. Oh, the triangle lenses that we talked
Q. Which says:
"Seller" -- IAS -- "shall furnish, deliver, install and startup the Alternative Energy System at a site provided by Seller in Delta, Utah, hereinafter referred to as the 'Installation Site.'"

Page 178
1 Did I read that correctly?
A. Uh-huh.
Q. Yes?
A. Yes. Right.
Q. Then Paragraph 2A says:
"Seller shall furnish, deliver, install and startup each Alternative Energy System at the Installation Site by December 31, 2008."
A. Right.
Q. Did I read that correctly?
A. Right. What -- where are you looking at?
Q. You were just looking at it.

Paragraph 2A under "Agreement."
A. Okay. Yeah, okay.
Q. So did IAS in fact furnish, deliver, install, and start up 50 energy systems, alternative 8 energy systems on behalf of iLios, LLC by December 31. 2008?
A. Probably if the towers were up, there's no question about that. But I'm not sure -- I
don't -- I'm not sure that this -- this thing was ever consummated. I just -- I'll have to check that out.
Q. You see your signature on the last page of Plaintiff's Exhibit 181; right?

1 A. Yes, I see the signature, but I-- I
don't recall the names. I'm just looking at the name.
Q. And so take a look, please, at

Paragraph 3 on the first page of the exhibit.
A. What am I looking at again? I'm sorry.
Q. Paragraph 3, first page.
A. Okay.
Q. Just read that to yourself, please.

Mr. Johnson, Paragraph 3 states a total
price of $\$ 30,000$ for each alternative energy system;
correct?
A. Right.
Q. And Paragraph 3A identifies a down payment of \$9,000 for each alternative energy system --
A. Correct.
Q. -- correct?
A. Okay.
Q. So, again, any recollection of what IAS
was selling in December 2008 for $\$ 30,000$ total and a \$9,000 down payment?
A. Yeah. It would have been -- it would have been one of those -- the lenses, the full -- the full triangle would have been, instead of having two lenses, it would have been one. That's what that is.

6 Let me have a pen and I'll figure it out 7 now that I see it. Okay.
8 MS. HEALY-GALLAGHER: Let's go off the 9 record.
(There was a discussion held off the record.)
THE WITNESS: We had them all up at that
time. We had them all up by that time. That was
those -- the 20 hours out there, there would have been plenty of those out there.

MS. HEALY-GALLAGHER: Please mark next.
(Exhibit 533 was marked for identification.)
17 Q. BY MS. HEALY-GALLAGHER: All right. I've 8 handed you what's been marked Plaintiff's Exhibit 533, which is Bates numbered Ra33526 through 3532.

Do you recognize Plaintiff's Exhibit 533?
A. Yes.
Q. It's an Equipment Purchase Agreement
between IAS and Roger Freeborn; correct?
A. Correct, uh-huh.
Q. If we look at Page Ra33531.

## MRS. JOHNSON: At what?

Q. BY MS. HEALY-GALLAGHER: Sir, the first page of Exhibit 533.
A. Okay.
Q. Under "Agreement" in all caps.
A. Okay.
Q. Paragraph 1.
A. Okay.
Q. First sentence.
A. Okay.
Q. "Seller hereby sells to Purchaser and Purchaser hereby is" purchase -"purchases from Seller the Alternative Energy System consisting of the system components identified on the attached Exhibit A." Did I read that correctly?
A. Right.
Q. More or less.

Page 184

1 2 the exhibit.
3 A. Okay.
4 Q. This is Exhibit A; correct?
5 A. Correct, uh-huh.
$6 \quad$ Q. And the description of the component is:
"Solar lens concentrators to produce" 20 -- "250 million BTUs per year."
A. Correct, yeah.
Q. Okay. So what does that mean to you?
A. Two lenses. Two -- to triangles.
Q. I'm sorry. Let's make sure that's clear.

I see that the quantity two is next to
the description. Okay. So do you mean a solar
lens -- a single solar lens concentrator?
A. No. It been -- it actually had been what we sell for four right now, this would be two.
Q. So do you mean --
A. One -- one complete triangle. There's two of those.
Q. Okay. So the double layer as we identified yesterday?
A. Right.
Q. Okay. So this -- this on Exhibit A would have been a total of four triangles?
A. Right.
A. No, not like that.
Q. IAS has only sold --
A. Sold lenses. Sorry.
Q. Let me ask the question. IAS has only sold lenses; correct?
A. Correct.
Q. Which, by your definition, are two triangles put together?
A. In this situation, that's correct.
Q. Oh, for 2009?
A. Right.
Q. Did that change at any time?

Page 186

4 little bit after this when we started RaPower, we
5 changed it to lower the price and do this other --
this other way of selling it. And it actually lowered
the cost to have -- of the whole system down, and so
it was a little better deal later. So that's what that was.
Q. Okay. Give me one second to make sure I understand.
A. When we started RaPower, we lowered -- we changed the way we were selling the working product.
Q. And RaPower started in about 2010; correct?
A. Right around then. 2009, yeah, about 2010, yeah.
Q. Okay. Because this Equipment Purchase

Agreement in Plaintiff's Exhibit 533 is dated August 2009?
A. Right. So it was -- it would have been in probably 2010, yeah.
Q. Okay. So RaPower would have been -- come on the scene in about 2010?
A. Yes, I think so.

1 Q. Until RaPower came on the scene --
A. Right.
Q. -- did IAS sell any other solar energy product besides two triangles put together which made one lens?
A. No.
Q. What changed with RaPower?
A. Oh, just the way we decided to market. I just -- this wasn't working out the way I wanted it to and I felt like that it would be better to market it the other way, and it would reduce the price and everything. So it worked out better for everybody, I think.
Q. Real quick, when RaPower came on the 5 scene, what, if anything, changed about the actual 6 lens that was sold?
A. Nothing, really. I mean, we just -- we were just doing the same thing. We just -- we were 9 automating certain things and making things so that we 20 could put them up faster and be more efficient what we 1 were doing.
22 Q. Okay. So the lens itself did not change?
23 A. No, the lens itself didn't change, no.
24 Q. Has the lens itself ever changed since 25 2010?

Page 188
1 A. Just the thickness is all.
2 Q. But when we talk about a lens for the
3 life of lenses being sold, it means two triangles put 4 together?
5 A. Right.
6 Q. Great.
7 A. Yes.
8 Q. Okay. All right.
$9 \quad$ You just said, quote/unquote, "this was
0 not working out the way I wanted it to" and that was
one of the reasons you made a change with RaPower-3.
2 So --
13 A. That's correct.
14 Q. So what was not working out?
15 A. Oh, it was just more difficult to market
6 it this way. We changed some of the things when we did it, so that's why.
Q. Was the price too high? Was it hard to 9 reach people? What was -- what was hard about it?
A. Well, we had -- we had gone through the analysis by then. We looked at the -- the way we were selling it and the market size, and we felt like that 3 by changing some things we would -- we would make it 4 more -- a better marketing program than this one.

And this was a trial. This was all

Page 189
trial. We hadn't -- we didn't even know exactly what
2 we were doing during this period of time, and so it
3 wasn't something that we were going to continue.
4 It was just something we wanted to see
5 how it's going to work, what modifications we would
6 have to make in order to reach a bigger market is all.
7 Q. When you say "we," who do you mean?
8 A. Oh, myself, I'm sorry. I -- that's me.
9 Q. Okay. So what did you -- well, first
0 off, why create a separate company with RaPower-3?
11 A. I was always going to separate out the 12 marketing from International Automated Systems. We
13 just hadn't finished getting all of the documentation
14 completed in -- in the marketing companies and getting
15 it approved to sell it in the way that we wanted to
6 sell it. It just took a little bit longer than we
anticipated.
Q. Who is it that made the decision to
change the way the lenses were marketed?
A. I did.
Q. What did you decide to change?
A. I just -- -mostly the pricing and -- and how the lenses were divided up.
Q. When you say "how the lenses were divided up," what do you mean?

Page 190 THE WITNESS: Okay. MS. HEALY-GALLAGHER: I am confused. THE WITNESS: Okay. Well -MS. HEALY-GALLAGHER: You're not wrong.
Q. So on April 4th when we visited the site and saw lenses tacked up along the ground --
A. Correct.
Q. -- there were two pieces of plastic --
A. There was two lenses per triangle rathe
A. Since -- from the very beginning, even from 2007. That hasn't changed.
Q. Okay. Then I'm not understanding why there's one triangle versus two triangles at some point in time?
A. Well, I -- I -- I just changed the interpretation of -- of the -- of the triangle into two lenses rather than one from 2000 when we started RaPower-3, and we did it because we needed a lower price and that made it easier to market.

And so that's the why we did it. That's -- the analysis of the program, the statistical analysis of the program that I developed to evaluate the price structure to give me a return on the money that I had paid, and the research and development over a period of so many years, to recover -- recover my losses on that product.

Page 192
Q. Okay. So, nonetheless, since 2010 --
A. Right.
Q. -- when we talk about a lens --
A. It's two.
Q. -- we're talking about one triangular
frame with two pieces of plastic inside it?
A. That's -- that's two lenses in each
frame.
Q. Okay.
A. Right.
Q. Now I'm getting it.
A. Okay.
Q. Each piece of plastic is --
A. A lens.
Q. -- is a lens?
A. Uh-huh.
Q. Since 2010?
A. Since 2010, yes.
Q. Okay. Before 2010?
A. It was just one lens that was more money.

It was 9,000 instead of 7 . See, different price structure.
Q. Okay. Well, I think I'm tracking with
respect to 2010. We'll just keep it that way.
A. All right.

| Page 193 | Page 195 |
| :---: | :---: |
| 1 Q. So, in theory -- since 2010, in theory, | 1 Q. -- Bates marked Ra33988 through 3990. |
| 2 within one triangular frame, there could be lenses | 2 A. Correct. |
| 3 owned by two different people? | 3 Q. Do you recognize the letters that are in |
| 4 A. That's correct. | 4 Plaintiff's 534? |
| 5 Q. But before 2010? | 5 A. Yes, I do. |
| 6 A. They would have been owned by just one | 6 Q. These are all letters from IAS; correct? |
| 7 individual. | 7 A. Correc |
| 8 Q. Okay. So that's how you changed how the | 8 Q. And I realize there's not much of a |
| 9 lenses were divided up? Yes? | 9 signature, but your name's on the bottom there. Do |
| 10 A. That's correct, yes. | 10 you believe you signed these letters? |
| 11 Q. Okay. And | 11 A. I signed them, yes, I did. |
| 12 A. And lowered the price. | 12 Q. And did IAS, or you, send them out on or |
| 13 Q. What, if anything, changed about -- let | 13 about December 2009? |
| 14 me -- l'll withdraw that. Let me ask it this way: | 14 A. Yes, I did. |
| 15 Who is it that decided that RaPower-3 | 15 Q. And these are letters that were sent to |
| 16 should take over mark | 16 folks who had purchased alternative energy systems |
| 17 A. Me. Yeah, Neldon Johnson, yeah. Not -- | 17 from IAS? |
| 18 not the CEO of -- of the company. I decided that it | 18 A. Yes. |
| 19 would be better for the company and the sales to be | 19 Q. Mr. Johnson, I'm curious, actually, |
| 20 divided, but that was an individual decision based | 20 thinking back about 530 -- Plaintiff's Exhibit 531 and |
| 21 upon my -- the rights that I had, and so I did that. | 21532. |
| 22 Q. Did you decide to continue letting people | 22 Did you create any other marketing |
| 23 know about depreciation and the tax credit with the | 23 materials for IAS? |
| 24 transition to RaPower-3? | 24 A. No. I -- after that I didn't do any |
| 25 A. Yes, I think we used a lot of the similar | 25 more. I decided that I was too busy to -- to put any |
| Page 194 | Page 196 |
| 1 stuff I developed here. We took out the -- a lot of | 1 more -- I don't think that I did, anyway. I was |
| 2 the material in this and probably changed this | 2 really busy getting these towers up at that time, and |
| 3 material. We no longer gave this out with the package | 3 we were working 10-, 12-hour days and -- and getting |
| 4 and -- yeah, so we changed the marketing material to | 4 all those structures up in that length of time that we |
| 5 match the actual product being sold. | 5 did it, so that's basically where I was at. |
| 6 Q. And you're pointing to Plaintiff's | 6 Q. And -- |
| 7 Exhibit 531 and 532? | $7 \quad$ A. I really didn't have time to spend |
| 8 A. Correct. | 8 anyplace. |
| 9 Q. That's the material that you used to | 9 Q. And are -- are you the one who created |
| 10 start the marketing material for RaPower-3? | 10 marketing materials for RaPower-3 using the IAS |
| 11 A. Right. It was a very limited amount of | 11 promotional materials, or did somebody else do it? |
| 12 marketing. We just -- I just wanted to see if -- if | 12 A. Well, I did these. Obviously I had help |
| 13 it would be attractive, yeah. At what level it would | 13 doing -- doing them, but I laid out the basic |
| 14 be attractive. What would be the resistance to the | 14 structure. I did most the mathematics on it, and I |
| 15 sales and -- and -- and all the marketing information | 15 laid out most of the wording. |
| 16 that we could gather -- I could gather together to put | 16 The actual -- the actual drawings and the |
| 17 a statistical model together to show what price breaks | 17 things, I may have had somebody there do for me that |
| 18 would change and what market -- how that would affect | 18 was working on Word Perfect, I think, is what that -- |
| 19 my market penetration by the experience that we had | 19 not Word Perfect, but Word back then. |
| 20 just gone through. | 20 (Exhibit 535 was marked for identification.) |
| 21 MS. HEALY-GALLAGHER: Please mark next. | 21 Q. BY MS. HEALY-GALLAGHER: Handing you |
| 22 (Exhibit 534 was marked for identification.) | 22 what's been marked Plaintiff's Exhibit 535, Ra338005 |
| 23 Q. BY MS. HEALY-GALLAGHER: Mr. Johnson, I'm | 23 through 8008. |
| 24 handing you what's marked Plaintiff's Exhibit 534 -- | 24 Take a look at Plaintiff's 535, please, |
| 25 A. Okay. | 25 Mr . Johnson, and let me know when you're done. |

Page 198
1 A. Okay.
2 Q. Actually, it's on all the pages.
3 A. Okay.
4 Q. Do you -- take a look at the names.
5 A. Okay.
6 Q. Do you recognize these names as people
7 who had contracts with IAS?
8 A. I -- l looked at some of them.
9 Q. Do you recognize some of them?
10 A. Ido.
11 Q. On the top of the second page we see
12 Neldon Johnson, Randale Johnson, and LaGrand Johnson.
Do you see that?
A. Ido.
Q. Do you have any reason to believe that this is not a list of contracts that IAS had entered as of the end of the year 2009?
A. No, I don't have any reason to doubt it. I don't have any reason to doubt it at all.
Q. Okay. You can put that aside.

Mr. Johnson, we talked yesterday about a
bonus program that IAS offered over the course of time.
A. Un-huh.
Q. You recall that?

1
2 3 been marked Plaintiff's Exhibit 108. And feel free to take a look at this, but I'm interested in drawing your attention to Paragraph 1.
A. Okay. This is the RaPower.
Q. True.

Well, I'm going to ask you if you are
aware whether RaPower ever issued any bonus contracts?
A. The bonus contracts are Neldon Johnson's,
and they're not -- they don't come from RaPower.
They're different. So I'm -- l'm personally liable
for those. I receive, through my other -- through the
companies that go back to Blacknight and Starlight, a
10 percent royalty on gross sales.
I had figured that if I reached about six
percent of gross sales, I would have that much income
to pay those bonuses out. But they are -- they are my
personal responsibility and I'm personally liable for those.
1 Q. Okay. Then do you have any understanding
2 of why Greg Shepard might have been sending out a
3 bonus referral fee contract on behalf of RaPower-3?
A. Well, if you want to get inside of that boy's head, go ahead. I guarantee you're not going to

Page 200
1 come out sane. So I apologize for that.
2 But, no, I don't. It -- it -- I told --
3 I've told him and told him that the bonus program is
4 something that I-- I personally guarantee under my
5 own personal signatures. It's neither International
6 Automated Systems, nor RaPower's, nor XSun's, nor
7 Solstice's.
8 Q. Did you ever talk to Mr. Shepard about 9 the relative importance of the bonus contract as it 0 had to do with the tax benefits of buying the lens?
11 A. No. The reason why we introduced it was
12 to add value to the sales of the product. We felt
13 like that in order to -- in order to make -- make the
14 system valuable and salable for the person that 15 invested in the program, we wanted to make sure they 6 -- they had -- I --
17 The reason why I entered the program is 8 because I made the products so that you could resell
19 the product and not get hurt on buying these at this 20 particular time.
21 In case we had made some kind of a mistake or wasn't able to deliver the product properly or some other way, we could take your product and resell it to someone else, and then they could get their money back without having any losses.

10 But I also knew that I could resell that product as if -- if I got into problems, I could resell the product, because I was that much further along, in case l'd made some mistakes in -- in my R\&D where I needed to see something better and chose to -to take time to do this -- do a better project.

For example, we had a problem --
Q. Actually, sir, I'm going to stop you
there. Because what I need to know is what, if any, impact do you understand the bonus contract has on any taxpayer's ability to claim depreciation with respect to a lens?
A. That wasn't the primary purpose of this.
Q. Well, what impact may it have?
A. Well, you'd have to go to a tax person to do that and -- and we have done that, and we've given
out that information. But we've said this is
something that we have received from these people --
Q. And what --
A. -- as a bonus -- as an additional bonus.

But that wasn't the reason why I did it.
Q. What information have you given out to people about the effect of the bonus contract on their ability to claim depreciation with respect to the lens?
A. I'm not sure that I identified anything directly, other than what I've put in that -- in that -- in this material here.
Q. In Plaintiff's 531 and 532 ?
A. Yeah. It would have been -- it would have been related to this.
Q. Okay.
A. But that wasn't the primary reason for doing this.
Q. Okay.
A. And -- and so -- and l've told people
that. I've said the reason why I'm doing this is
because if you choose that you would prefer to get out
of it -- and this was even the early people -- that
this gives a value, because you -- you're not only
getting the sale of solar energy, but you're getting

1 the sale of any product lines that we -- that we 2 produce.
3 Q. Sure.
4 A. So that -- and that was the reason why we
5 did it. And that's the reason why we can't sustain
6 it.
7 Q. Okay. What, if anything, did -- have you
8 told people about the impact of the bonus contract on
9 their ability to claim a tax credit as a result of
purchasing a lens?
A. No more than what l've put out in this information here. I haven't -- I haven't pursued anything above that.
Q. Did you tell Greg Shepard this information about the impact of the bonus contract?
A. I did on both sides. I said there is --
there is the opportunity to receive depreciation, but
8 that's not -- is not the purpose of why the bonus
program is there, because it also goes to the
salesperson, this bonus program does, and they don't get any depreciation at all for that -- that bonus.

And so it was an incentive for the salesperson to sell the product, and it was an incentive for the people to buy the product based upon 5 a value that was it more likely to generate income,

1 and it would pay -- the bonus program itself would pay
2 the more value than they put into the lens back.
3 Q. And you -- you've been saying "we" 4 received --
5 A. I -- well, I said to myself. I apologize 6 again.
7 Q. Let me finish the question so that we're 8 clear for the record.
9 You keep saying that "we" received this,
10 "we" shared it back out. Who is "we"?
A. It's Neldon Johnson and myself, three,

2 four times together in all the different management 3 positions I hold, and that's how I come to we.
14 It's up to where I get -- I get --
5 and -- and the biggest reason is because I-- I do a
6 lot of -- I do most the inventing myself, and it seems
a little bit -- to say that I did it all myself, and
18 the "l" is a little bit irritating to me in that
19 respect, and so I got used to saying -- it was easier
20 to say "we." It didn't seem grotesque.
21 MS. HEALY-GALLAGHER: Okay. When you're 22 ready.
23 (Exhibit 536 was marked for identification.)
24 Q. BY MS. HEALY-GALLAGHER: All right.
25 Mr . Johnson, I'm handing you what's been marked

1 Plaintiff's Exhibit 536, Bates marked Ra31980 through 2102.
A. Okay.

4 Q. Mr. Johnson, do you recognize Plaintiff's
5 Exhibit 536?
A. 536 , yes.
Q. What is it?
A. Power Purchase Agreement.

9 Q. And this appears to be a draft; right?
17 that's what it was. I believe this was developed by
8 them to me. I don't think that I would have taken the
9 time to write this.
Q. So you think that this draft Power

Purchase Agreement came from folks in Green River City?
A. Yes. I -- I don't think it was -- it was
-- I don't believe it was myself. It could have been.
Q. Do you know --

Page 206

2 Q. Okay. Do you know whose comments appear 3 in the bubbles on the right-hand side of the page?
4
5 document, but it isn't something that I -- that I
6 would have -- I don't believe I would have used
7 bubbles. I've never done it before.
8 So that's why I -- I don't -- I don't
9 feel like that I had written this myself. It would
10 have been the -- the company that wanted me to put the
11 -- the deal together for the Green River, and I think
12 they wanted to have it so that the extra power they
produced, they would have an access to -- to market
the excess power.
But I do not believe that I personally was involved in -- in writing this.
Q. Did you see this draft, though, in or around 2008?
A. I think I've seen it. I recognize -- I think I recognize what initiated the -- this thing, yes.
Q. Okay. What, if anything, happened with -- with this Power Purchase Agreement?
A. I'm not sure how -- why it -- why it dissolved, but I believe that I -- I told them that I

1 was -- I had too many contracts at the time and I
2 wasn't going to be able to get to it in the -- in the
3 timeframe that they're asking me to get to the
4 project.
5 Q. Okay. So you never entered this Power 6 Purchase Agreement?
7 A. No, I didn't. No. And it's -- and I
8 think that was why, because I just said I don't think
9 I have the resources to meet the needs that you're
0 asking me to do.
11 (Exhibit 537 was marked for identification.)
12 Q. BY MS. HEALY-GALLAGHER: Handing you,
13 Mr. Johnson, what's been marked Plaintiff's
Exhibit 537, which is Ra38144 through 8159.
A. Okay.
Q. Do you recognize Plaintiff's Exhibit 537?
A. Operation and Maintenance Agreement. I believe so, yes.
Q. Do you know who drafted the original text for the Operation and Maintenance Agreement?
A. I think there was an attorney involved, but I'm not positive of that. Not something that I would have written myself.
Q. Did you ask an attorney to draft this?
A. I believe I did.

1 Q. Whose handwriting appears on Plaintiff's 2 Exhibit 537?
3 A. I don't know. It's not mine. Can't read 4 mine.
5 MRS. JOHNSON: I was going to say, you 6 can read this.
7 THE WITNESS: Huh?
8 MRS. JOHNSON: I was going to say, you can read this.

THE WITNESS: So I'm not sure exactly this handwriting.
Q. BY MS. HEALY-GALLAGHER: Do you remember -- oh, sorry.
A. But I would have been the one to eventually have -- you know, let -- you know, do the -- to make sure that everything was correct, and so I would have -- I would have looked at all of this and visited with the attorney that eventually wrote up the contract that was needed.

MS. HEALY-GALLAGHER: All right. I'm going to ask that this be marked Plaintiff's 16 -16A.
(Exhibit 16A was marked for identification.)
THE WITNESS: Would it be possible to take a break?

1 Q. There you go.
2 A. There we go. Copyright 2010. So it 3 would have been right in that neighborhood -- probably 42009 is when it was actually written in.
5 Q. Okay.
6 A. I would think so, but I'm not positive,
7 but I think that's what it was. I know it was a lot 8 of work, I can tell you that right now. There's things I don't like to do.
10 If you want me to tell you why we kept
11 this mostly within -- within our own internal use is
2 because we have such a small float in our stock on
the -- on the exchange, we really kept the company
very lightly diluted in comparison with most other public companies.

And so any kind of excited buying will double the price of shares. A million shares go through our market and they double the price.

And -- and the problem with getting this out earlier, it could appear that -- that we were closer to the other people than we actually were to accomplishing all the things we wished to accomplish with this draft, and in so doing it would have -- it could have -- my stock would start to bounce and create problems.

Page 214

1

5 have warranted a different outlook than that was
6 actually there, you see, and -- in getting all of
these items into a final production stage where we could actually start mass producing the system.

And people don't understand how difficult
it is to move from an R\&D company into a mass production facility, and all the costs and things that have to be done and all the connection that have to be made in order for this to take place.

And so people would get a different point of view of that, so we wanted to keep that internal.
Q. Mr. Johnson, in 2010 was International

Automated Systems' address 326 North SR-198?
A. Yes, that's a correct address.
Q. And that's in Salem, Utah 84653?
A. That's correct, yes.
Q. Mr. Johnson, I'm showing you a document we looked at yesterday --
A. Okay.
Q. -- which is marked Plaintiff's

Exhibit 185.

1 A. Okay.
2 Q. You sent Plaintiff's Exhibit 185 on behalf of International Automated Systems; correct?
A. Yes.

5 Q. I'm handing you what's previously been 6 marked Plaintiff's Exhibit 186. Would you take a 7 look, please, at Plaintiff's Exhibit 186, and let me 8 know when you're ready.
9 A. Okay. Yes.
10 Q. This is a letter from Roger Halverson; correct?
A. Correct.
Q. And he sent it to IAS?
A. Correct.
Q. And he cc's at the bottom there,

Ms. Patricia Lambrecht, member, iLios, LLC?
A. Right.
Q. And that letter's dated September 24, 2010; correct?
A. Right.
Q. Showing you, sir, what's previously been marked Plaintiff's Exhibit 188.

## Do you recognize Plaintiff's Exhibit 188?

A. Yes, Ido.
Q. What is it?

Page 216
sending a check?
A. Yes. All of these contracts were moved
to RaPower-3 with the audits and all the agreements, I
think, in 2010, or something like that.
Q. Are you --
A. And so that's why the -- they were -- the
money was coming out of RaPower-3 rather than
International Automated Systems.
Q. Are you testifying, sir, that Patricia

Lambrecht's contract, which we looked at earlier
today, was transferred from IAS to RaPower-3?
A. I believe -- I believe it was. I believe that the contracts were all changed. I'm not
positive, but I recollect something like that to take
place. I'd have to make sure, but I believe that that's the case.
Q. Do you have any -- any idea whether any

5 of the non-IAS parties to those contracts were ever

| Page 217 | Page 219 |
| :---: | :---: |
| 1 notified? | 1 bought some -- we had bought some -- we had bought |
| 2 A. Yes, I think they all were. They all had | 2 some, we thought from a company that promised that |
| 3 to been in order for it to take place. | 3 they -- the coating -- the coating on it would survive |
| 4 Q. Do you have copies of that notification? | 4 the heat. |
| 5 A. I would hope so. I assume I do, but I | 5 We put those on the towers, the drive -- |
| 6 don't know. | 6 we could put water directly through them. And -- and |
| 7 Q. If you do, will you produce them to the | 7 so we ran, I believe, the water through them. Could |
| 8 United States? | 8 have been oil. |
| 9 A. Yes, I will. But I th | 9 But anyway, it ran my turbine, and with |
| 10 not positive, but I think that's what happened. | 10 the combination of the turbine running and the -- the |
| 11 Q. So in Plaintiff's Exhibit 188 -- | 11 gas going through the system produced that much power |
| 12 A. Okay. | 12 over the -- the months that we had it operating and |
| 13 Q. -- there's a note from Mrs. Johnson at | 13 filling -- filling up the ponds that we -- that are |
| 14 the top. | 14 out there. They're like -- they're big ponds. They |
| 15 Do you see that? | 15 hold, like, some -- several -- several acre feet of |
| 16 A. Okay. Yes. | 16 water, and so we used it to water some of the property |
| 17 Q. It says: | 17 with. |
| 18 "Please find enclosed a check for | 18 Q. Okay. Mr. Johnson, so you believe that |
| 19 \$7,500 for the third quarter's power | 19 RaPower-3 was reimbursed for this payment to Patty |
| 20 purchase | 20 Lambrecht, yes? |
| 21 A. Right, right. | 21 A. I'm pretty sure they were. |
| 22 Q. Did I read that correct | 22 Q. Was it IAS who reimbursed them? |
| 23 A. Yes, uh-huh. | 23 A. No. It would have been myself. |
| 24 Q. What does tha | 24 Q. So you as Neldon Johnson personally? |
| 25 A. It means I did produce some power during | 25 A. Yes, Neldon Johnson personally would have |
| Page 218 | Page 220 |
| 1 that quarter, and that it was bought by -- it was -- | 1 reimbursed them, yes. But that's -- I think that's |
| 2 it was bought by the research -- my -- I guess it must | 2 where that came from. |
| 3 have been myself, or something like that, to run some | 3 Q. And you just said that you had the system |
| 4 pumps, I think, on the property. | 4 running for months? |
| 5 And we filled the ponds up out in the | 5 A. Yes, I did. It was producing power to |
| 6 property with the energy that we developed, and -- and | 6 drive a pump. |
| 7 so we paid -- paid for that amount of money for the | $7 \quad$ Q. And were those months in the third |
| 8 irrigation, and we wanted to demonstrate the -- that | 8 quarter of 2010? |
| 9 it would work for irrigation and developing water. | 9 A. Basically, yeah. |
| 10 And I -- and I think this is what the | 10 Q. Do you have any records whatsoever of the |
| 11 cost that we did with the power, and I had forgotten | 11 system running in the third quarter of 2010? |
| 12 all about that, actually. But that's -- I think | 12 A. No. And it wasn't third quarter. Would |
| 13 that's what it was. But I'm not even positive about | 13 have been -- would have been the middle -- it would |
| 14 that, but I think that's what it is. | 14 have been the end of the first quarter through the |
| 15 Q. Okay. So let me make sure I understand. | 15 third quarter. Would have been all the way through |
| 16 Your recollection is that what we see | 16 the whole time period. |
| 17 here is that RaPower-3 is paying Patty Lambrecht for | 17 Q. So, Mr. Johnson, you're telling me that |
| 18 the purchase of power; correct? | 18 your system operated for -- from the end of the first |
| 19 A. Correct, yes. | 19 quarter of 2010 through the third quarter of 2010? |
| 20 Q. Was it RaPower-3 that bought the power | 20 A. Well, I don't know -- |
| 21 that was generated somewhere? | 21 Q. Yes? |
| 22 A. I probably reimbursed RaPower, but -- but | 22 A. -- exactly how long it was, but it was -- |
| 23 that's -- I think that's what took place is -- is a -- | 23 it was enough to generate \$7,500 worth of energy. We |
| 24 is the -- we had the towers working to drive the | 24 paid for it, so that's what it was. |
| 25 turbine. The -- what happened, we had -- we had | 25 Q. Yeah, that's a lot of energy. |

1
2 A. Not when you're talking about a big pump.
we -- we -- and I irrigated some property with it,
but -- my horses.
Q. Is there any situation, other than this
one, where you or any entity under your control has
paid anyone for power?
A. No, I think that would be the only one.
I hope that's the only one. I can't think of any
more.
Q. Also, sir, you said you could not
remember what heat transfer fluid you used?
A. No. I could have used oil and -- and
that and --
Q. But to this day, right now, testifying
today, you can't identify specifically what heat
transfer fluid you were using?
A. No. It was probably oil, but I'm not
positive. But you could see the circles out there on
8 the ground where I had them. They were all black, and
the -- and their heat exchangers didn't last as they
claimed they would, and it was -- they created a
problem for me.
So rather than keep it running, we took
the -- took them out and had to replace them. So we
had to develop new -- new types of heat exchangers
that would meet the heat requirements that we needed
to do.
2 Q. Mr. Johnson, did you ever take any videos
of the system as it was working when it generated the power that you paid Patty Lambrecht for?
5 A. If I did, they were close-up videos and 6 you wouldn't -- all you'd have just seen is just the
7 turbine running. But I didn't -- I didn't want
8 anybody to know about it, so I didn't use it for that 9 purpose.
10 Q. Why didn't you want anybody to know about 1 it?
12 contracts that I didn't want activated, that I felt that were -- would have been detrimental to me and my company. You couldn't -- I don't think we could have reacted as fast as they would have demanded it to do that and would have put me into a situation that I
couldn't -- couldn't control. But that's what that 19 was.
20 Q. Mr. Johnson, if Greg Shepard has made
21 statements about the status of IAS technology, would
22 he have any source for those statements, other than
23 you?
24 A. No.
25
Q. Mr. Johnson, in the past has a mailing

Page 224
address for IAS been 326 North Highway 6 ?
A. Yes.
(Exhibit 538 was marked for identification.)
Q. BY MS. HEALY-GALLAGHER: For the record, Plaintiff's 538 is Ra36353.
6 A. Okay.
7 Q. Do you recognize this document, sir?
8 A. I -- I don't -- I don't recognize it, but
9 it's probably something that I read. I just don't
0 reading it.
11 Q. Did Richard Blake have a contract with 2 IAS?
A. Must have done. Like I said, I don't
know, but I would assume that he did. I don't know
how come a $\$ 10,000$ contract would have been there, but
-- but that's not normal.
Q. What, if anything, did you or IAS do in

18 response to Mr. Blake's letter?
19 A. I responded to someone and I said I would
20 be happy to pay your -- back and resell your equipment
21 to someone else, if that's -- if there's a problem
22 with -- with your investment.
23 Q. Mr. Johnson, has anyone ever taken you up 24 on your offer to buy back the lenses that they
25 purchased?

10 wanted to separate out the marketing to RaPower-3,
11 then you said something about "we were approved to sell it."

Who is it that approved something to be sold?
15 A. Oh, there -- in developing an MLM 16 company, you have to be registered in all the states that you're selling into through a company that takes
18 care of all of the stuff, all of the MLM paperwork, with the various states. And that's what we're waiting for is approval. So we're approved in 50 states as an MLM working.
Q. Mr. Johnson, did anyone, other than you, do work through IAS or on behalf of IAS to learn about and write about the tax benefits related to purchasing a lens?
Q. Do you remember their names?
A. I don't. I don't know the names, but I
believe there's been two or maybe three.
Q. Mr. Johnson, when you were testifying about the transition between IAS and RaPower-3, I believe you made a statement of something like you

19
20
A. Well, I -- I -- I'm not sure I understand what you're talking about. If you're talking about the information you showed me, then that information was definitely produced by my -- myself.

If there's other people that are writing information that I'm not aware of without my control, then, no, I don't know how that would -- how that would work.
Q. Mr. Johnson, asking you as the representative of IAS, what was IAS's first notice that the IRS was disallowing the deductions and credits that people had claimed related to the solar lenses?
A. I'm -- I'm not sure of the date. I don't know when exactly the IRS began to target the company
Q. Was it before -- did you learn about the audits and the disallowables before or after the summer 2012 raid?
A. It was after that. I don't -- it didn't start before that, I don't believe, that I recollect.
Q. What, if anything, did IAS do differently after the IRS raid in summer 2012?
A. We never did anything different. I think
they weren't successful at the criminal attempt, so I assume that they -- they decided that they were going to go after the customer base and try -- and they -the first incident didn't have a great impact on my company.

The -- and so they -- I suppose they
decided to pursue a different avenue and -- and create
upheaval amongst the customer base in hoping that they would get together and try to sue me.

But it wouldn't have mattered, because
the -- the product has a value to it, and that's what
-- and the company has a value. We have a lot of technology that we don't -- we have 30 patents. There
isn't many companies out there that have the equivalent technology that we have.
Q. Okay. So when you -- well, let me ask you this: So you testified yesterday that you hired Paul Jones to represent customers in tax court; correct?
A. We actually hired Paul Jones to -- to intervene with the audits and try to -- to work with the people being audited and trying to show that the laws to the people auditing the product were there, and the -- the audit agencies were calling me a scam and a scheme without having ever seen the product, nor
having any expert witness determine that the product was not what it was claimed to be.
Q. So my question, Mr. Johnson, is --
A. And so we sent out Paul Jones to
intervene with those and --
Q. Okay.
A. -- and to see how if they -- who wanted to sell, who wanted to get out, who felt like they needed to get away from the system.

And so that's -- or if they wanted -- if
they wanted Paul Jones' assistance in the audit and in
pursuing it into a tax court and into a court from there where we had a jury.
Q. So my question is: Are you personally paying Neldon Johnson, or is IAS paying Neldon Johnson?
A. It's me personally. It could be RaPower. RaPower may be paying for it.
Q. You don't know?
A. I don't know. I think RaPower's paying
for it and it's expensive, and it's discouraging to
see government that would bully someone like that and not do -- and not do it according to law.
Q. There's no question pending. Thank you.

What, if anything, did you talk about
with Greg Shepard with respect to the audits?
2 A. What -- what audit are you talking about?
3 Q. The IRS audits of your customers.
4 A. He was the one approached me, actually.
5 Q. He let you know?
6 A. Yeah, I didn't know. He was the one who got the information first.
Q. What --
A. That's when I said I'll hire an attorney and then we'll see what happens. And then if we have to -- to buy -- buy systems back, then we'll pursue that avenue if we have to, because we certainly don't want to put somebody in a position where they're going to be detrimental.

And I felt like I'd been offered -- I had been offered quite a bit of money for my company, and I think the offer would have been -- the offer that we had -- my wife was with me when I made the offer -- it was close to $\$ 5$ billion. So I think that we could probably meet whatever damages that would occur.
Q. Who made you that offer?
A. I'm not at liberty to say, but it was a valid offer and they gave the reasons why they -- why they wanted to do it and --
Q. Mr. Johnson, you're here to testify under

Page 232
oath. Who made the offer?
A. Well, it was a company, it was a group of people in -- in -- in -- in -- in some other countries that made the offer, made a phone call to us.
Q. What country?
A. I think it was the Philippines, at the time.
Q. You think it was the Philippines?
A. Uh-huh. They had -- they had gotten some gold and some kind of a deal, and they wanted to
invest it in this company and buy it. And they said
they offered -- if you -- they asked if I would take $\$ 5$ billion, and I said no.
Q. When was this offer made?
A. It was before the raid on us. It was back in 2010 or 2011.
Q. What's the name of the company?
A. I don't know the name of it. I don't remember anything about it.
Q. You can't remember the name of the company that made you a $\$ 5$ million offer for your company?
A. 5 billion. $\$ 5$ billion offer.
Q. With a B ?
A. Uh-huh.

1 Q. A company made you a $\$ 5$ billion offer for 2 your company and you can't remember their name?
3 A. Didn't pay attention to it.
4 Q. I'm sorry?
5 A. I didn't pay any attention to it. Wasn't 6 going to take it, so it didn't matter. But it was on
the phone. It was on the speakerphone and they offered it, and we just said no.
9 So I wasn't too worried. I'm not too
10 worried about that. I could sell my company for what
11 -- whatever -- whatever you think, you know.
12 Q. Did that company have any past experience 13 with solar energy technology?
14 A. Not that I'm aware of. I don't -- I
15 don't even remember what the company's name is, but it
16 was -- I think they said they were out of the
17 Philippines. They had some gold or something, and I
18 don't know exactly what it was. We didn't take it and
19 we're not -- we don't have to take it.
20 Q. Who else was on that call?
21 A. Just me and my wife and the -- and the
22 parties that were -- that they were engaged with.
23 Q. Do you remember the names of any of the people who offered you $\$ 5$ billion for IAS?
A. No, I don't.

Page 234
1 Q. Had you ever met them before?
2 A. No. But I did get -- we did get a visit
3 from a company in -- from Iran, oh, it's been about
4 three -- about three or four years ago.
5 Q. Hang on, sir.
6 Are the companies in Iran and the company 7 in the Philippines, are they connected in any way?
8 A. No, they're not connected.
9 Q. Thank you.
10 A. This was a representative from a company
11 that came from Iran -- Iran government, and they
12 wanted to get involved with the company. They said
13 that because of the -- the way the structure of the
way they tied up the funds of Iran was $\$ 150$ billion, and if I could produce water and power, that they had $100-$ - $\$ 100$ billion to go toward that project, and that I was authorized by this -- by -- they had got me authorized to travel to Iran.
19 So that was -- that was the deal. We
0 sent a representative to a company called -- in Saudi Arabia.
22 Q. Sir, I'm going to stop you there, because
23 I'm not interested in Saudi Arabia.
24 Would you please take a look at what's
25 been marked Plaintiff's Exhibit 483.

1 A. Right.
2 Q. For the record, Plaintiff's Exhibit 483 is Ra36356 through 6427.
4 A. Okay.
5 Q. Do you recognize this document?
6 A. Yes, I do.
7 Q. What is it?
8
9 actually. This is something I've never done and I
10 haven't -- I haven't -- I wasn't involved in any of it
11 -- of any of this here.
12 Q. I'll represent to you that your prior 13 attorneys produced it to the United States.
14 A. Well, they could have done, but they 15 didn't produce it to me, so I haven't seen it.
16 Q. At the bottom of the first page there's a name that appears, Dr. Sterling Rigby.

Do you recognize that name?
A. Ido.
Q. Who is that?
A. He's just a friend of mine that I -- I've known for 20 years.
Q. Did he ever sell anything on behalf of IAS?
A. If he did, he didn't -- didn't sell very

Page 236
much.
Q. Do you recognize the photos that are on

Pages Ra36359 and 6360?
A. What's that again?
Q. Would you take a look, please, at the photo that's on Page 6359 to 6350 -- no, wait. No, I said that wrong.

6359 to 6360.
A. Okay.
Q. Mr. Johnson, do you have an idea of when -- when these -- this picture -- these pictures would have been taken?
A. No, I don't have any idea, no.
Q. Does this appear to be a true and accurate depiction of the R\&D site at some point in time?
A. Yes, uh-huh.
Q. And how about the photos on the following
page -- pages?
A. Okay.
Q. Can you give me an idea of what we're looking at here?
A. Yes. That's when I put the towers up, yeah.
Q. On the R\&D site?
then makes pure iron. And the oxygen then reacts with
the zinc oxide as you -- as the temperature drops to
below 1600, the oxygen then reacts with the zinc --
no, let's see. Okay.
8 Q. Actually, Mr. Johnson, I'm going to stop
9 you there.
11 a heat exchanger?
12 A. No. We -- we -- I did what I wanted it
13 to do and so I -- I -- I went -- I wasn't producing
4 power. I was producing zinc from zinc oxide.
Q. Okay. And do you recall when you were
using this magic eight ball?
A. Two or three years ago, at least.
Q. And you're not still using it?
A. No. It worked and we were -- and we
found that -- the problem with this are the temperatures were so hot that it would melt stainless steel and create a problem with us.

And so we decided to -- that we had no
4 way of controlling that temperature or using it, other
25 than for the -- for the iron zinc process. So we
Page 238

1 Q. Okay. Okay.
A. Yeah, it's RaPower.

MR. SNUFFER: The question, again, was
what had been done to change marketing since the case began?

THE WITNESS: Nothing that we would have.
MR. SNUFFER: As far as IAS, your answer
is nothing?
THE WITNESS: Nothing. IAS doesn't
market the product anymore at all.
MR. SNUFFER: Okay.
THE WITNESS: Not involved in any sort of marketing. But that was done a long time before even
the raid, I believe, you know. It was --
International Automated Systems was no longer in the
marketing of any products.
MS. HEALY-GALLAGHER: Understood.
Q. We talked a little bit about the
interviews that you've been giving on KNRS. We talked about that yesterday.

Do you remember that?
A. Ido.
Q. Are you appearing on behalf of IAS in those --
A. No, l'm not.

Page 242
1 Q. Sorry. Let me finish the question.
A. Sorry.
Q. Are you appearing on behalf of IAS in those interviews?
A. No. Neither RaPower. I'm totally doing that as Neldon Johnson. I put a disclaimer, most the time -- I try to remember to put the disclaimer ahead of time saying that this is Neldon Johnson and not speaking in behalf of any of the companies.
(Exhibit 539 was marked for identification.)
Q. BY MS. HEALY-GALLAGHER: Showing you,

Mr. Johnson, what's been marked as Plaintiff's
Exhibit 539 .
A. Right.
Q. Do you know what this is?
A. Yes. It's a seminar I put on.
Q. Right. It's a screen shot of a video from YouTube; correct?
A. Yeah, but I didn't do that. I don't know how that got on there.
Q. But that's you at the whiteboard;
correct?
A. Yes. That's a pretty good looking guy.

I didn't realize I was that good looking.
Q. And you're talking -- there's text that

1 appears on the left-hand side --
A. Yes.

3
4 lenses; correct?
5 A. That's correct.
6 Q. So in what capacity are you conducting this seminar?
8 A. As the inventor of the product.
9 Q. As you personally?
10 A. Personally. I'm personally representing my abilities to invent. I could be looking for work
because -- I don't know, I'm trying to make the best portfolio I can.
Q. And the word behind you, I believe it's "ClearLink." Do you have an understanding of what "ClearLink" is or does?

MRS. JOHNSON: That's just part of
their --
THE WITNESS: Yeah, I didn't put that up
there. Somebody else did that. I --
MRS. JOHNSON: That's the radio station.
THE WITNESS: I didn't.
MRS. JOHNSON: That's the radio station.
THE WITNESS: That's the radio. But I
didn't -- I didn't do it. But I didn't even know it
Page 244
was there until you told me.
Q. BY MS. HEALY-GALLAGHER: Okay. So the
radio station is part of the "ClearLink" network or
why -- what is --
5 A. Well, you can advertise -- you could
advertise Coca-Cola behind there, and that doesn't
mean I'm representing Coca-Cola.
Q. Okay.
A. So that's just -- that's just an
advertising space there.
But myself, what I'm doing is I'm -- and
12 it's not -- it's not because of RaPower or IAS. If I
13 would represent anybody it would have been RaPower, in
14 marketing a product, because IAS doesn't market a
15 product.
16 But the reason why I would not have --
17 would not have represented IAS in particular as this
18 is because International Automated Systems, being a
19 public company, you have to be extremely careful of
20 what you say and you have to clarify everything ten
21 times and make sure you say these are disclaimers and
22 we're not interested in you buying stock.
23 Now, I -- at the beginning of this I
24 think, or -- and -- beginning of the show, I try to
25 get in there and I say, even though the show is

## Page 245

introduced as a CEO of International Automated Systems, I clarify.
3 I try to clarify and remember to clarify
4 that this is not to be used to buy stock. That I'm
5 representing myself as the inventor of the project and
6 I'd like to explain to people how the project works,
that it's real, that we -- what we've accomplished
and -- and so that they can understand what the advantages that we have in various aspects.
10 We're -- we -- we talk about motor homes, we talk about the voltage control board, we talk about
the advantage of having an operation that you can become totally isolated from the grid.
Q. So --
A. So it's -- it's just something that I --
that I would -- I wanted to get out as far as the various projects that we have available.
Q. And IAUS logo appears over your head; correct?
A. That's correct. But like I said,

Coca-Cola could have been there just as well. It's just an advertising space. It has nothing to do with what I was presenting.
Q. When did you do this seminar that you're presenting in Plaintiff's Exhibit 539?

1 A. I do it twice a month on KNRS at 2:00, I
2 believe.
3 MR. SNUFFER: She's asking about this
4 seminar. This --
5 THE WITNESS: Oh, I just did this one
time. I don't -- this is a one-time thing.
Q. BY MS. HEALY-GALLAGHER: And when did you do that?
A. I believe it was in March. I'm not
positive, but I think it was March.
Q. 2017?
A. 2017. March 2017.
Q. And when did you start the KNRS interviews?
A. At the same time, I think, yeah. I --
well, no, no. I started -- I did this first, then a
few weeks later -- or a month later I then began doing
the -- the KNR -- KNRS radio program.
I'm finding I'm quite good at it, too,
actually. I got -- we were -- we're the second
highest rated show now on their -- on their radio
station, actually.
(Exhibit 540 was marked for identification.)
Q. BY MS. HEALY-GALLAGHER: All right.

5 Showing you, Mr. Johnson, what's been marked as

Plaintiff's Exhibit 540. Bates numbers Bank of 2 American Fork-1 through 3.
3 Mr. Johnson, Plaintiff's Exhibit 540
4 appears to be a corporate banking resolution.
$5 \quad$ Do you see that at the top?
6 A. Right.
7 Q. For IAS; correct?
8 A. Correct.
9 Q. And is your signature over your name
0 where it says Neldon Johnson?
11 A. Yes, uh-huh, that is my name.
12 Q. And on Page 2 -- Page 2, not Page 3.
13 A. Oh, sorry, Page 2. On the back of this,
14 okay.
15 Q. We see again your signature as an
16 authorized individual to sign checks on behalf of IAS;
correct?
18 A. That's correct.
19 Q. Are you a signatory on all bank accounts
20 for IAS?
21 A. Yes, I am.
22 Q. Who are other people authorized to sign 23 checks for IAS?

8 Q. And that's your ex-wife?
A. That is my ex-wife.

MS. HEALY-GALLAGHER: All right. I believe those are all the questions I have for right

13 We'd like the witness to read and sign, 14 please.
A. LaGrand Johnson and Glenda Johnson.
Q. Is that it?

Page 248
A. That's it, I think.
Q. Have there ever been any other people authorized to sign checks on behalf of IAS?
A. That I don't remember. I can't tell you

MR. SNUFFER: Yes.
THE REPORTER: Do you need a copy of this transcript?

MR. SNUFFER: I do, yeah.
MS. HEALY-GALLAGHER: Pass the witness.
MR. SNUFFER: Yeah, let's go off the
(The deposition was concluded at 4:34 p.m.)
