- 2 **EXAMINATION**
- 3 Q. (BY MS. GALLAGHER) All right, Mr. Johnson.
- 4 A. Yes. I would like to --
- 5 Q. Wait a second, please.
- 6 A. Oh. Sorry.
- Q. This deposition today is the deposition of 7
- 8 Defendant RaPower3; is that your understanding, sir?
- 9 A. I thought it was LTB.
- 10 MR. SNUFFER: No. LTB is tomorrow.
- 11 THE WITNESS: Okay.
- 12 MR. SNUFFER: RaPower is today.
- Q. (BY MS. GALLAGHER) So I'm handing you what's been 13 there, including the subsolar panels and some heat 13
- 14 marked Plaintiff's Exhibit 487 which is the United States
- 15 Notice of Deposition of Defendant RaPower3, LLC.
- 16 Mr. Johnson, you're here today to represent RaPower3;
- 17 correct?
- 18 A. That's correct.
- 19 Q. Pursuant to this Notice; yes?
- 20
- Q. As we go through the day today, if at any time you 21
- 22 answer questions from any source other than your own
- personal knowledge, will you let me know?
- 24 A. Yes.
- 25 Q. Okay. All right. We've covered the ground rules

Page 5 1 International Automated Systems. So could I proceed then?

- 2 Q. Please.
- A. Okay. During this time frame we had installed a
- 4 portion of the power solar panels at a grocery store in
- 5 Salem, Utah, and I think the address is 326 North Highway 6,

Page 7

- 6 or something like that, in Salem, Utah, and the grocery
- 7 store average power usage for a month was between 3 and
- 8 \$7,000 per month depending upon the month and how hot it was
- 9 because of the air conditioning and the frozen food
- 10 departments. And so part of this -- part of this generation
- 11 of power was done at the grocery store.
- 12 There were two -- two power plants that were built
- 14 exchangers and generators that operated the store for a
- 15 certain amount of time, and so in conjunction with it
- 16 being -- the power being generated by the -- all of the
- 17 solar panels in the Delta area were being used to generate
- 18 power for a well, a pump at a well, and in conjunction with
- 19 that, there was additional power being produced at the
- 20 grocery store, and that is where probably the majority of
- 21 the electricity that was being used during this period of
- 22 time that was being accredited to the Patti Lambrecht
- 23 facilities. I think that's all I have on that.
- 24 Q. Okay. We're gonna step through that a little bit.
- 25 So, Mr. Johnson, what is it that refreshed your recollection

- 1 about what you just testified?
 - A. On the way home we were talking about a lawsuit
 - 3 that Denver had represented me. The City of Salem wanted to
 - 4 sue me for violation of zoning in the production of power
 - 5 being produced on the -- the property there in Salem and
 - 6 some of the construction there that was going on. We won
 - 7 that case. We were talking about that and I thought oh, my
 - 8 gosh, that was right. We produced power there, and we had
 - 9 the solar panels there as well.
 - 10 And I think we have some photographs of that, I'm
 - 11 not positive, but I think in -- in -- that yellow thing that
 - 12 triggered it, I think it was in one of these -- some of
 - 13 these pictures you shown the -- the equipment being built
 - 14 there on the site. And, also, the portable unit was built
 - 15 there that went to Mesquite and came back and also was in
 - 16 use there at the store on -- on two -- on two power plants.
 - 17 So that's how that recollection came about.
 - 18 Q. So you say you were talking with your attorney?
 - 19 I was talking with my wife.
 - 20 Q. You were talking with Mrs. Johnson --
 - 21 A. Mrs. Johnson on the way home yesterday.
 - 22 Q. Let me finish the question, please.
 - 23 A. Sorry.
 - 24 Q. And Mrs. Johnson reminded you about the power
 - 25 production at the grocery store?

- 1 for depositions a couple times this week so far. Just, once
- again, I'd like to remind you to speak loudly enough for the
- 3 court reporter to hear you and to answer my questions
- 4 verbally. Will you do that?
- 5 A. Yes.
- 6 Q. And I'll remind you too that your task for today
- 7 is to give full and complete answers to my questions. Do
- you understand that obligation?
- 9 A. Yes.
- 10 Q. And will you continue to let me know if you don't
- 11 understand one of my questions so that I can fix it and ask
- 12 a better one?
- 13 A. Yes.
- Q. Similarly, will you continue to let me know if you 14
- 15 need to correct or supplement a previous answer for any
- 16 reason?
- 17 A. Yes.
- Q. Along those lines, Mr. Johnson, you said that you 18
- 19 had some additional information or different information to
- correct testimony from earlier this week?
- 21 A. Yes. It's concerning Exhibit 188.
- 22 Q. And what's that -- what's that information?
- A. This is in the Patti Lambrecht check that was
- 24 issued for Power Production on her -- on their equipment --
- 25 on her equipment that she purchased from RaPower or

A. Correct. And she reminded me of this situation

- 2 going home.
- 3 Q. Would you please take a moment, Mr. Johnson, and
- 4 take a look through the exhibits we've marked so far and
- 5 show me, just quietly to yourself when you find them, the
- 6 pictures of this grocery store and this equipment. Please
- 7 let me know when you've found them.
- 8 A. (Witness complies.)
- 9 Okay. This was the --
- 10 Q. Hang on, hang on, hang on.
- 11 A. (Indicating.)
- 12 Q. So, Mr. Johnson, you're holding up Plaintiff's
- 13 Exhibit 8A; correct?
- 14 A. Correct.
- 15 Q. And you're pointing me to a picture on page
- 16 GREG_P&R-547; correct?
- 17 A. Correct.
- 18 Q. All right. What would you like to tell me about
- 19 this page?
- 20 A. This is the panels that were installed at the --
- 21 after they were installed in Mesquite, they were then
- 22 installed at the grocery store in Salem. That's part of the
- 23 panels.
- 24 Q. Okay. So you're pointing, sir, to a picture of
- 25 what appear to be rectangular lenses of some kind. It is --

Page 9

1 road -- is the address on the road. Highway 6. Highway 6.

Page 11

Page 12

- 2 326 Highway 6, Salem, Utah 84626, I believe.
- 3 Q. Who owned the grocery store?
- 4 A. Me and my wife.
- 5 Q. You and the original Mrs. Johnson?
- 6 A. Yes, uh-huh. It was . . .
- 7 Q. Who owned the land around the grocery store that
- 8 you claim the power plant was placed on?
- 9 A. It was the same.
- 10 Q. Okay. Go ahead and start looking through the
- 11 exhibits again and see if you can find the photos that
- 12 you're talking about.
- 13 A. (Witness complies.)
- 14 Q. While you do that, Mr. Johnson, Denver, can I
- 15 touch base with you real quick in the hallway?
- 16 MR. SNUFFER: Yeah, yeah.
- 17 (Nine-minute recess taken.)
- 18 Q. (BY MS. GALLAGHER) All right, Mr. Johnson. So
- 19 you've taken a look at the exhibits that we've already
- 20 marked in the last couple of days and you've identified
- 21 that, and we talked about this a moment ago, that Exhibit 8A
- 22 contains a photograph of rectangular lenses at GREG_P&R-574.
- 23 What is it about these rectangular lenses that you recall
- 24 having been involved with this grocery store?
- 25 A. Yes. We -- we installed those lenses at the

Page 10

- 1 grocery store at that address of 326 North -- or South. 326
- 2 South Highway 6 in Salem, Utah, and we used those in
- 3 conjunction with circular lenses and some rectangular lenses
- 4 that were for home use to power the grocery store there in
- 5 Salem for a period of time. And so, yeah, that's where they
- 6 were being used.
- 7 So we had the circular -- triangular and circular
- 8 power there at the grocery store, we had the square modules
- 9 at the store. We had the smaller units to -- for the home
- 10 use which the home use was referenced by . . .
- 11 Q. Plaintiff's Exhibit 524?
- 12 A. 524.
- 13 Q. At page Ra3-16208; correct?
- 14 A. That's correct.
- 15 Q. And there are a couple of pictures on this page.
- 16 The lenses that you're referring to are the pictures on the
- 17 left; correct?
- 18 A. That is correct, yes.
- 19 Q. Mr. Johnson, when was Bill Pack a sales rep for
- 20 IAS?
- 21 A. I'm not really positive. I think we had some kind
- 22 of a contract, but it was around -- around 2005.
- 23 Q. Is he still a sales rep for IAS?
- 24 A. He is.
- Q. Okay. And do you recall, sir, when -- well, first

- 1 the picture is underneath the heading 2004 and above a2 caption that says Proof of Concept; is that right?
- 3 A. Correct. Also, that is where we built -- the
- 4 first circular lenses were built at the grocery store --
- 5 Q. Hang on.
- 6 A. -- and were tested there on the first ones.
- 7 Q. Hang on, sir.
- 8 A. Okay.
- 9 Q. You were looking through exhibits when you said
- 10 that?
- 11 A. Well, I was just looking at the -- these aren't
- 12 the -- these aren't the ones that were there, but this is
- 13 what -- the circular solar lens construction where it was
- 14 first built at the grocery store site.
- 15 Q. Okay. Slow down for me, please, and pause on
- 16 looking through the documents; okay?
- 17 A. Okay.
- 18 Q. Hang on. Stop. So your testimony is that the
- 19 first circular setup for the lenses was built at the Salem
- 20 grocery store?21 A. Exactly.
- 22 Q. What's the name of the grocery store?
- 23 A. U-Check.
- Q. And what is the address of that grocery store?
- 25 A. 326 South Road -- Utah Road 6 I think is the

- 1 I'll ask this: Who or what entity installed this power
- 2 plant next to the grocery store?
- 3 A. Well, that would have been International Automated
- 4 Systems.
- 5 Q. Who directed the installation?
- 6 A. I did. Mr. Johnson.
- 7 Q. Who was it that did the construction?
- 8 A. I was the -- I was the one that was over the
- 9 construction and the production of the technology.
- 10 Q. Yes, but who actually did it?
- 11 A. I had workers working for me that worked under my
- 12 direction to develop and install the equipment.
- 13 Q. Okay. So it wasn't a separate contractor?
- 14 A. No, it was not.
- Q. And what was the background of these workers? 15
- 16 A. One was a design engineer.
- Q. Who was that? 17
- 18 A. That would be Curtis Snow. One was a medical
- 19 doctor. That was --
- 20 Q. Who was that?
- A. That was LeGrand Todd Johnson. Todd, T-o-d-d. 21
- 22 I'm sorry. And another one was a programmer, Randell Hall
- 24 Q. Did anyone else work on the power plant, say, next
- 25 to the grocery store?

Page 14

- A. There were some welders that we hired and just 1 2 common laborer positions.
- Q. What experience, if any, did Curtis Snow have with 3
- designing and/or building a solar power plant?
- 5 A. He had worked for me for several years before 6 that.
- 7 Q. Did he have any experience other than working with
- 8 you?
- 9 A. No.
- 10 Q. What, if any, experience did LeGrand Johnson have
- 11 with constructing and building a solar power plant?
- 12 A. Just --
- Q. Sorry. Before this next to the grocery store. 13
- A. Just working for me. 14
- 15 Q. And how long had he worked for you?
- 16 A. I don't know. Fifteen years.
- Q. So other than working for you, LeGrand Johnson has 17
- 18 no other experience with solar energy technology?
- A. No. 19
- 20 Q. Sorry. Let me ask that question again. Other
- 21 than working for you, LeGrand Johnson has no other
- 22 experience in solar energy technology. Is that statement
- 23 correct?
- 24 A. Correct.
- 25 Q. For Randell Johnson, did he have any other

1 experience working in solar energy technology before this

- 2 grocery store power plant?
- A. No. Just working for me.
- 4 Q. And about how long had he worked for you?
- 5 A. About 15 years at that time. Probably a little
- 6 bit longer maybe, but it's about 15 years.
- 7 Q. You mentioned welders and common laborers who also
- 8 worked on the site.
- 9 A. Correct.
- 10 Q. To your knowledge, what, if any, experience did
- 11 they have in constructing a solar energy power plant?
- A. None. None before this period of time. 12
- 13 MS. GALLAGHER: Off the record, please.
- 14 (Brief interruption.)
- 15 (Discussion held off the record.)
- Q. (BY MS. GALLAGHER) Mr. Johnson, on the break you 16
- 17 said you had a correction?
- 18 A. Yes. On LeGrand, he is also -- he's also a
- 19 chemical engineer, graduated from BYU before going to
- 20 medical school.
- Q. Does your recollection about LeGrand Johnson 21
- 22 having been a chemical engineering major change anything
- 23 about your testimony about his experience with constructing
- 24 a solar energy power plant?
- 25 A. No. I don't believe so.

Page 16

- Q. Mr. Johnson, when did the installation at the 2 grocery store start?
- A. I'm not exactly positive, but it was during the --
- 4 during the years, I think, 2005 and 2010. Something like 5 that.
- 6 Q. I'm just asking about installation in the first
- 7 instance.
- 8 A. That's correct.
- 9 Q. So you can't remember whether it was installed at
- 10 any one more particular point than a five-year range?
- 11 A. Well, there was a -- there was an ongoing --
- 12 ongoing research and development on the project, so there
- 13 would have been some completed at different time frames.
- Q. When did you start the grocery store power plant 14
- 15 project?
- 16 A. In 2005.
- 17 Q. Is that project still ongoing?
- 18 A. No, it is not. No.
- 19 Q. When did it stop?
- A. Right around 2012, I believe. 2010 or 2012. 20
- 21 Q. Sometime between 2010 and 2012?
- 22 A. Yes.
- 23 Q. Why did you stop development of that project?
- 24 A. The -- we had -- there was a divorce going on at
- 25 the time, and in order to -- to clear out all of the

- 1 financial obligations, I had paid off all of the grocery
- 2 store and the property, and then I deeded it to my -- to my
- 3 ex-wife.
- 4 Q. I'm just trying to get a clear understanding of
- 5 timing here, so I need to ask you: I believe you testified
- 6 that you have been married to Mrs. Glenda Johnson for 16 or
- 7 17 years?
- 8 A. Correct.
- 9 Q. And 2010 was seven years ago.
- 10 MR. SNUFFER: In Utah you can bifurcate the divorce
- 11 from the property settlement and you can be divorced at the
- 12 start of the proceeding, but then fight over property for a 13 decade.
- 14 MS. GALLAGHER: Okay.
- 15 MR. SNUFFER: Yeah.
- 16 Q. (BY MS. GALLAGHER) So, Mr. Johnson, your
- 17 recollection is although you were divorced from the original
- 18 Mrs. Johnson, there was still property settlements
- 19 happening?
- 20 A. Correct. But -- but that -- to get the clear
- 21 picture, we had gotten married in -- when I -- when we were
- 22 in high school, and we eloped, and -- but we really never
- 23 got married. A year later there was a religious ceremony of
- 24 the marriage in a temple, but it wasn't a civil -- we didn't
- 25 realize it was not a civil marriage, and it turned out --
- Page 18
- 1 turned out during the -- during the divorce proceedings, it
- 2 was about seven years into the proceedings, that it turned
- 3 out that we were never married. And so it changed the --
- 4 some of the -- it was -- it was changing some of the
- 5 dynamics of the ongoing fight over property, I suppose. And
- 6 so because of that, it went on another seven years. I don't
- 7 remember. Five or six years past that over different
- 8 issues.
- 9 Q. Okay. So your recollection, nonetheless, is that
- 10 sometime between 2010 and 2012 is when the power plant
- 11 project at the grocery store ended?
- 12 A. Correct.
- 13 Q. Do you have, Mr. Johnson, any records regarding
- 14 the power plant project at the grocery store?
- 15 A. Not that I recollect. I didn't -- I did not keep
- 16 any records of that operation.
- 17 Q. Do you have any data from the power plant at the
- 18 grocery store?
- 19 A. Other than -- other than this -- this check and
- 20 its accommodation of more than the grocery store, but I $\,$
- 21 don't have any more information than that.
- 22 Q. So you don't have any data of the power that --
- 23 A. No, I do not.
- 24 Q. Let me finish asking the question.
- 25 You don't have any data reflecting any power that

- 1 was generated by this plant next to the grocery store;
- 2 correct?
- 3 A. As far as I know, I didn't -- I don't have any.
- 4 Q. If you did have some data, where would it be?
- 5 A. In your files.
- 6 Q. So you believe that if you had data related to
- 7 this power plant at the grocery store, you provided it to
- 8 your attorneys to produce to the United States?
- 9 A. It would have been -- it would have been captured
- 10 at the time of the first operations by the DOJ in collecting
- 11 the data under warrants.
- 12 MR. SNUFFER: Let's go off the record for just a
- 13 moment.
- 14 (Discussion held off the record.)
- 15 Q. (BY MS. GALLAGHER) Okay. So, Mr. Johnson, your
- 16 testimony in response to the last question was that if you
- 17 had data, it would have been collected by the Department of
- 18 Justice during the 2012 raids on your property. Is that
- 19 right?
- 20 A. That's correct.
- 21 Q. Was it kept electronically or in paper?
- 22 A. It would have been kept in paper.
- 23 Q. And then we also had a discussion off the record
- 24 on the break about a zoning lawsuit that Salem, Utah,
- 25 brought against you because of the power plant next to the

Page 20

Page 19

- 1 grocery store. Is that right?
 - 2 A. That's correct.
 - 3 Q. And there may be some photographs connected with
 - 4 that lawsuit that may also show this power plant. Is that
 - 5 your understanding?
 - A. That's my understanding, yes.
 - 7 Q. Mr. Johnson, you said that Plaintiff's Exhibit 188
 - 8 reflects a payment to Patti Lambrecht that you believe is in
 - 9 part due to power generated by this plant next to the
 - 10 grocery store; correct?
 - 11 A. That's correct.
 - 12 Q. What portion of the \$75,000 in Plaintiff's Exhibit
 - 13 188 is due to power being generated from the grocery store?
 - 14 A. Probably about 80 to 90 percent.
 - 15 Q. And I believe you testified yesterday that the
 - 16 check to Mrs. Lambrecht is from power generated from the
 - 17 first quarter through the third quarter of --
 - 18 A. 2010.
 - 19 Q. -- 2010?
 - 20 A. 2010, right.
 - 21 Q. Was there any other time that the power plant next
 - 22 to the grocery store generated power?
 - 23 A. Yes. It produced power on and on and on. On a --
 - 24 on an on and off basis at various times. Sometimes the
 - 25 power would go off and we would turn this power unit on.

- 1 Sometimes the Salem -- Salem Power is the one that provided
- 2 the power, and sometimes it would go off and on and we would
- 3 generate power then from it. And then sometimes we would
- 4 generate partial power because the load -- the load was --
- 5 they have a demand -- demand load. And if -- if the -- so
- 6 we try to keep the demand constant at a low -- the lowest
- 7 possible level so we get the lowest possible demand charges
- 8 on the power that's being used.
- 9 Q. When did the power plant start producing power for
- 10 use in the grocery store?
- 11 A. I'm not really positive, but it -- but it seems
- 12 like it was right around 2007. Something like that.
- 13 Q. You mentioned a couple of situations in which the
- 14 power plant next to the grocery store would have provided
- 15 actual power to the grocery store, and I just want to walk
- through those with you. First, you testified that sometimes
- 17 the power provided by Salem Power to the grocery store would
- 18 cut off?
- 19 A. That's correct.
- 20 Q. And you also said that sometimes you would just
- 21 decide to use power from the plant next door rather than the
- 22 Salem Power: correct?
- A. That's correct. The reason -- want me to tell you 23
- 24 the reason why?
- 25 Q. Sure.

Page 22

- A. The reason why is the power plant was not enclosed 1
- 2 at that time and so it was quite noisy, and we would not
- 3 have allowed the power plant to be operated without someone
- 4 there all the time to watch it. We finally -- we were then
- 5 in the process of building, I believe, a brick -- brick wall
- 6 to enclose the operation, but the divorce then stopped most 7 of that.
- 8 A portion of the brick wall was up, but not all of
- it. Not -- not -- not completely enclosing and protecting
- 10 it from outside, you know, possible people could get hurt
- 11 from it. so.
- 12 Q. Who, if anyone, paid for the power that the
- 13 grocery store used from the plant next door?
- A. It would have been me personally. 14
- 15 Q. Whom did you pay?
- A. Evidently must have paid RaPower at some point in 16
- 17 time.
- Q. Would those payments be reflected in the records 18
- 19 of RaPower anywhere?
- 20 A. I'm not positive.
- Q. How much, total, do you think you paid RaPower? 21
- 22 A. Probably this \$7500 is what I would have paid.
 - Q. Do you think you would have paid RaPower for any
- 24 other power generated at that plant next to the grocery
- 25 store?

- I don't believe I did.
- 2 Q. So then, Mr. Johnson, correct me if I'm wrong, but
- 3 then Patti Lambrecht would have been the only customer who
- 4 was paid for use of lenses at the grocery store power plant;
- 5 right?
- 6 A. I believe so, yes.
- 7 Q. So, Mr. Johnson, this check to Patti Lambrecht is
- 8 dated December 2010, but you just testified that the plant
- 9 started producing electricity for use in the grocery store
- 10 in 2007.
- 11 A. Correct.
- 12 Q. So why didn't any other customer get paid for use
- 13 of their lenses in producing that electricity?
- A. I'm not sure of the rationale behind what 14
- 15 decisions were made at that time, and I'm not perfectly
- 16 clear on exactly what triggered this event. In fact -- in
- 17 fact, I was not even clearly aware of it until you brought
- 18 it to my attention, and then it triggered a recollection
- 19 that this had happened.
- 20 Q. Were lenses purchased by customers other than
- 21 Patti Lambrecht installed at that grocery store?
- 22 I don't believe so.
- 23 Q. Did Patti Lambrecht own all of the lenses that
- 24 were installed at the grocery store?
- 25 A. I don't -- I don't believe she did, no.

- Q. Who owned the rest of the lenses? 1
- 2 A. Well, they were probably owned by myself or
- 3 International Automated Systems.
- 4 Q. Why didn't you put in lenses that had been
- 5 purchased by other customers at the grocery store?
- A. I'm not sure of the rationale why we did what we
- 7 did, but I know that I felt like that a power plant in
- 8 Delta -- the first -- first -- the first thing that we did,
- actually, was we went to a place in Minersville.
- 10 Q. I'm gonna object to the responsiveness after "I
- 11 don't know."
- 12 So if, Mr. Johnson, the power plant next to the
- 13 grocery store produced power that was used in the grocery
- 14 store, why didn't you continue using that same system
- 15 somewhere else?
- 16 A. We did. We moved it to -- in with the -- down
- 17 into the Delta projects and then we dismantled it down --
- 18 down there to improve the designs.
- 19 Q. When -- sorry. Let me ask real quick. Let's
- 20 revisit the three different places that the United States
- 21 saw on April 4th. We saw the manufacturing facility; right?
- 22
- 23 Q. And the second place we went to was the
- 24 construction site; right?
- 25 A. Right.

Page 24

Page 23

- 1 Q. Then the last place we visited was the R&D site?
- 2 A. Correct.
- 3 Q. Did you move the grocery store power plant to one
- 4 of those three places?
- 5 A. We did.
- 6 Q. Which one?
- 7 A. Would be the -- be at the R&D site.
- 8 Q. When did you do that?
- 9 A. When we dismantled it from there, we brought all
- 10 of the -- all the items that were in the grocery store to
- 11 the Delta site. Some of the -- some of the equipment we
- stored in the manufacturing facilities in the buildings and
- still -- still -- some of the pieces are still in there. 13
- We then put the -- the other power plants out on 14
- 15 the -- the Delta project and hooked them into the -- the
- power plant or the -- the lenses in Delta. I hooked those
- into -- into those power plants and operated them there for
- a short period of time.
- 19 We then found that the oil in the one unit was
- 20 causing a tremendous amount of heat buildup in the system
- 21 and it started a fire in the one -- in the one in -- that
- 22 one container. And we had -- we had a huge fire in the
- 23 container that burned out all that wood, and that was where
- 24 the power plant was, and it -- and it burned up a lot of the
- 25 things that were there and so we took it out and dismantled

- Q. So, Mr. Johnson, was any of the grocery store
 - 2 power plant visible in a constructed format on April 4 when
 - 3 we visited?
 - A. No. Just -- just pieces of it. You would have 4
 - 5 seen pieces of it. We had changed the design and the -- the
 - 6 heat exchangers when you got down -- when you went through
 - 7 it. The heat exchangers were a lot bigger than the ones
 - 8 that you saw and they're -- they're out probably somewhere
 - 9 in the fields or dismantled or they were sold off or
 - 10 scrapped.
 - 11 Q. Okay.
 - 12 MR. SNUFFER: Can we go off the record for one second?
 - 13 MS. GALLAGHER: (Nods head.)
 - 14 (Discussion held off the record.)
 - 15 Q. (BY MS. GALLAGHER) All right. Just to make sure I
 - 16 understand, Mr. Johnson, you relocated the power plant
 - 17 infrastructure from the grocery store to the R&D side in
 - 18 Millard County, Utah; correct?
 - 19 A. That is correct.
 - 20 Q. And you reconstructed it on the R&D site; right?
 - 21 A. That is correct.
 - 22 Q. And you hooked it up to what?
 - 23 A. We hooked the power plant up to the solar fields.
 - 24 Q. And when you say you hooked it up to the solar
 - 25 fields, what do you mean by that?

Page 26

- 1 it.
- 2 And the piping was -- was -- was clogged up, and
- 3 because the piping was clogged, it created the temperatures
- 4 to go very high in the field creating fires in some of the
- 5 towers as well. And so because the pressure on the oil,
- 6 when you -- when you heat the oil to a certain temperature,
- 7 it will expand and break the pipe, the copper pipes that we 8 were using.
- 9 Q. Okay. So I'm gonna ask you from 2007 until the --
- 10 you dismantled the grocery store power plant, what heat
- 11 transfer fluid were you using?
- A. We was using oil. 12
- 13 Q. What kind of oil?
- 14 A. High temperature oil.
- 15 Q. Do you remember any brand name?
- A. I don't remember, no. 16
- Q. Do you remember the chemical composition? 17
- 18 A. I don't. It was -- it was a special oil that's
- 19 used for high temperature is all I know.
- 20 Q. Do you remember where you bought it?
- A. No. I think we bought it from Christensen Oil, 21
- 22 but I'm not positive. I know we bought some oil there. Q. Did you ever use any other heat transfer fluid at
- 24 the grocery store?
- A. No, we did not. 25

Page 28 A. The piping that went to the solar fields were then

- 1 2 connected into the heat exchangers on the power plant.
- Q. So infrastructure from the grocery store power
- 4 plant was then hooked up to a heat exchanger on the R&D
- 5 site?
- 6 A. The heat exchanger is what transfers the heat from
- 7 the oil into the -- into the water.
- 8 Q. And so did you bring the heat exchanger from the
- 9 grocery store site to the R&D site?
- 10 A. That's correct.
- 11 Q. Okay. So then what did the heat exchanger then
- 12 connect to?
- 13 A. Connected to the -- to the water lines. And then
- 14 the water lines would go through the heat changers and pick
- 15 up and transfer the heat from the heat exchangers into the
- 16 working fluid, the water, that would drive the turbine and
- 17 produce electrical energy.
- 18 Q. Okay. So of the grocery store infrastructure that
- 19 was erected on the R&D site, did it ever generate
- 20 electricity on the R&D site?
- 21 A. Yes, it did.
- 22 Q. When did that happen?
- 23 A. It was probably after 2010, but I don't know
- 24 exactly the dates that we did it on.
- 25 Q. Do you have any record of that electricity having

Page 27

23

1 been produced?

- 2 A. I don't have, no.
- 3 Q. Did that electricity go anywhere?
- 4 A. Yes. It may have produced power for the -- the
- 5 pump and it might have produced power for the little house
- 6 on the R&D property.
- 7 Q. You just said it may have produced electricity?
- 8 A. Right. I'm not positive. There were several --
- 9 there were several other power plants there at the same 10 time.
- 11 Q. So you don't know?
- 12 A. So I don't know for sure. No, I don't.
- 13 Q. Was anyone ever paid for any electricity that the
- 14 grocery store infrastructure may have generated on the R&D 15 site?
- 16 1
- 16 A. No. No. There was no other payments made at that 17 time.
- 18 Q. And you said that ultimately the grocery store
- 19 infrastructure on the R&D site caught on fire?
- 20 A. It did. The piping. Because of the high
- 21 temperature that was being produced in the solar field, it
- 22 wasn't probably regulated and the temperature got high
- 23 enough to cause the oil to coagulate and get stuck in the
- 24 pipes. At that point in time, once the flow was impeded or
- 25 stopped, the temperatures in the oil was -- couldn't be
 - Page 30
 - 1 cooled by the heat exchange of the heat transfer into the2 water.
 - 3 At that point the temperature became
 - 4 exceedingly -- exceeded the temperature that the oil was --
 - 5 was designed to handle, and at that point in time the
 - 6 pressure on the oil became a temperature high enough to
 - 7 damage some of the joints. And as soon as the oil hit a
 - 8 flashpoint with air and hit a -- the flashpoint temperature
 - 9 of the oil was 750 degrees, and so it was above the
- 10 flashpoint of the oil.
- And as soon as the oil broke through the joints
- 12 there at the -- where the power plant was connected to the
- 13 oilfields -- or for the -- I mean the solar fields, the air
- 14 caught the oil on fire and created a fire which consumed the
- 15 power plant, basically. It ruined the generator and the
- 16 piping and bent and damaged the heat exchangers.
- 17 Q. When did that happen?
- 18 A. I don't know exactly, but it was sometime in --
- 19 after 2010. You could still see the remains of the damage
- 20 caused by the fire in the container where the power plant 21 was housed.
- 21 was nouseu.
- 22 Q. Sounds like a pretty traumatic fire.
- A. I was in the back part of that, actually, and I
- 24 couldn't get out and so they cut a hole -- they had to get
- 25 my plasma cutter and cut a door on the backside of that to

- 1 get me out.
 - 2 Q. Did it happen --
 - 3 A. Yeah.
 - 4 Q. Was the fire before or after the raids in 2012?

Page 31

- 5 A. That I don't know.
- 6 Q. If you don't know, that's fine.
- 7 A. I don't remember. We ended up using -- we had
- 8 about ten fire extinguishers down there, and it didn't even
- 9 touch it. It was incredible. I had several where I was at
- 10 trying to get -- get out.
- 11 Q. Mr. Johnson, looking back at Plaintiff's Exhibit
- 12 524 page, Ra3-16208 --
- 13 A. Okay.
- 14 Q. -- when, if ever, has any entity sold the lenses
- 15 that are pictured here?
- 16 A. There's been no entity that's sold those. They've
- 17 never been sold.
- 18 Q. And looking back at Plaintiff's Exhibit 8A, page
- 19 Greg_P&R-574, looking at the lens pictured on this page,
- 20 when, if ever, has any entity sold a lens pictured on this 21 page?
- 22 A. I don't -- I don't recall whether they sold those
- 23 or not. They may have sold those as part of a deal and then
- 24 later transferred into new lenses when those were damaged.
- 25 Those got damaged.
 - Page
 Q. Any idea when the sales of such lenses may have
- 1 Q. Any idea when the sales of such lenses may have 2 occurred?
- 3 A. It would have been in 2007. Some -- someplace
- 4 like that.
- 5 Q. And then you said anyone who may have purchased
- 6 these rectangular lenses were transferred to the triangular
- 7 lenses?
- 8 A. Yes. They were exchanged for the newer lenses.
- 9 Those have -- those that got damaged.
- 10 Q. Is there any documentation for that exchange?
- 11 A. I'm not positive whether there is or isn't. If
- 12 there is, it would have been in the records of IAS, but I'm $\,$
- 13 not positive.
- 14 Q. Let's talk about RaPower3.
- 15 A. Okay.
- 16 Q. Mr. Johnson, you are the manager of RaPower3;
- 17 correct?
- 18 A. That's correct.
- 19 Q. Does anyone else make decisions for RaPower3 other
- 20 than you?
- 21 A. No.
- 22 Q. What does RaPower3 do?
- 23 A. It's a marketing company that markets solar energy
- 24 projects, and it can -- it can sell other products as well.
- 25 Q. Currently what product is RaPower3 selling?

- 1 A. Just the solar lenses.
- 2 Q. Has RaPower3 ever sold any other product?
- 3
- 4 Q. And these were the solar lenses that are on the
- 5 towers that we've been discussing throughout the depositions
- 6 this week; yes?
- A. That's correct. 7
- 8 Q. How does RaPower3 sell these lenses?
- 9 A. It's a multi-level marketing company.
- 10 Q. Can you explain what your understanding of that 11 is.
- 12 A. Well, we have distributors that join and become
- 13 members of the RaPower multi-level marketing, and then
- 14 they're able then to sell the products.
- Q. What does someone have to do to become a 15
- 16 distributor?
- A. They just have to sign up. There was no 17
- 18 requirements.
- 19 Q. They just have to sign up to sell the lenses?
- 20 A. That's correct.
- Q. Do they have to buy one or more lenses before --21
- 22 A. No.
- 23 Q. Let me finish the question, please.
- 24 A. I'm sorry.
- 25 Q. Do they have to buy any lenses to become a member?

- Page 33 Page 35 Q. What, if anything, does RaPower3 pay those people
 - 2 for?
 - 3 For a commission on a sale.
 - 4 Q. What is the commission structure for RaPower3
 - 5 distributors?
 - A. For -- for the first product, and the way they 6
 - 7 market it is a 10 percent commission on the sale, and then
 - 8 there's a down line of 1 percent, a five-level down line of
 - 9 1 percent each. The next -- the next way that they market
 - 10 it is there's two down lines with a 7 percent commission on
 - 11 each down line.
 - 12 Q. What do you mean by that? How is that different?
 - A. There's two different -- there's two different 13
 - 14 ways that we sell the product. We used to sell it with --
 - 15 with -- in the way that's been done up until last year.
 - 16 We've changed the marketing, and in changing the marketing,
 - 17 we also changed the way that the down lines get their
 - 18 commissions paid from a two -- from a five down line to a
 - 19 two down line.
 - 20 Q. Okay. So let me -- let's piece that out a little
 - 21 bit. First off, really quick, who's responsible for issuing
 - 22 the 1099s from RaPower3?
 - 23 A. I am the one who is responsible to make sure that
 - 24 that gets complete.
 - 25 Q. And who actually does it?

- A. I don't believe so. 1
- 2 Q. Do they or don't they?
- 3 A. I don't -- I have people that haven't done that
- 4 that are members, so I -- I think that, yes, the answer is
- 5 they can become members without purchasing any product.
- 6 Q. Okay. So a person who wanted to sell a lens could
- 7 sign up to be a distributor without buying any lenses, him or herself?
- 9 A. That's correct.
- 10 Q. Does RaPower3 issue any W-2s to employees?
- 11 A. 1099 forms.
- Q. So does RaPower3 issue any W-2 forms to employees? 12 commission is paid? 12
- 13 A. I don't know what a W-2 form is.
- Q. To your knowledge, does RaPower3 have employees? 14
- 15 A. No, they don't. No.
- Q. RaPower3 does not have employees? 16
- A. No, other than myself. And I'm not -- and I don't 17
- 18 get paid, so I don't get any -- any forms.
- Q. All right. And you said that RaPower3 issues 19
- 20 Forms 1099?
- A. That's correct. If I do a sale or someone else 21
- 22 does a sale, then they'd be issued a 1099.
- 23 Q. So am I correct, sir, that RaPower3 issues 1099s
- 24 to people who sell RaPower3 lenses?
- A. That's correct.

- Page 36 A. Glenda Johnson does it for me most of the time. 1
- 2 Q. Okay. So RaPower3 was formed in 2010; correct?
- 3 A. I believe so. I'm not positive, I guess.
- 4 Q. Starting in 2010 -- well, I'll ask you this: You
- 5 mentioned something about the system changed last year for
- paying commission.
- 7 A. The way that we market the product, yes, it has 8 changed.
- 9 Q. Okay. Is the way that you pay -- withdrawn.
- 10 At the same time that you changed the way you
- 11 market the product, is that also the way you changed the way
- 13 A. That's correct.
- 14 Q. So from 2010 until that point last year, which
- 15 commission structure was in operation?
- 16 A. The one with the five, I think five levels.
- 17 Q. Okay. Let's take the structure that had been in
- 18 place from 2010 until last year. Let's start with that.
- 19 A. Okay.
- 20 Q. You just used a word down line.
- 21 A. That's correct.
- 22 Q. What does down line mean?
- 23 A. It means how many people that are -- that you
- 24 basically have sold, and then they -- they produce another
- 25 line, and then they produce the other line, and you get a

- 1 piece of each line that they -- they sell it on. So that's,
- 2 from my understanding, that's the down lines of an MLM
- 3 company.
- 4 Q. Greg Shepard, Mr. Johnson, is a sales
- 5 representative for RaPower3; correct?
- 6 A. That's correct.
- 7 Q. Okay. So let's say Greg Shepard is the first
- 8 level on his down line --
- 9 A. That's correct.
- 10 Q. -- is that right? Okay. And then he makes a
- 11 sale.
- 12 A. And he would get 10 percent.
- Q. Okay. So let's say, for example, he made a sale 13
- 14 to Robert Rowbotham.
- A. Correct. 15
- Q. Greg Shepard would get 10 percent of the sale to 16
- 17 Robert Rowbotham?
- 18 A. That's correct.
- 19 Q. And when you say 10 percent of the sale, or when
- 20 you say 10 percent of the sale, 10 percent of what?
- A. 10 percent of the gross of the -- of the money
- 22 that is paid they will receive 10 percent as -- as
- 23 production to pay off the loan continues, they will then
- 24 continue to become -- to get 10 percent of the production.
- 25 Q. Okay. So let's say a lens costs \$3,500.

Page 38

- A. Okay. 1
- 2 Q. And Robert Rowbotham buys one lens.
- 3 A. That's correct.
- 4 Q. But Robert Rowbotham pays a down payment of
- 5 \$1,050.
- 6 A. Correct.
- Q. And the remainder of the 1,000 -- I'm sorry. The 7
- 8 remainder of the \$3500 is financed?
- 9 A. Correct.
- 10 Q. Would Greg Shepard receive 10 percent of \$1,500?
- 11 A. Correct.
- 12 Q. Then, as I think you just described, as payments
- 13 on that lens are made over time to add up to \$3,500,
- 14 Mr. Shepard would get 10 percent of each of those payments?
- 15 A. That's correct.
- Q. Okay. So then let's say Robert Rowbotham makes a 16
- 17 sale to Roger Freeborn.
- 18 A. Okay.
- Q. Robert Rowbotham gets 10 percent of that sale; 19
- 20 correct?
- A. That's correct. 21
- 22 Q. And then Greg Shepard gets 1 percent of that sale?
- 23 A. That's correct.
- 24 Q. Then if Roger Freeborn makes a sale to Brian
- 25 Zeleznik, for example, now it's Roger Freeborn who gets the

1 10 percent, Robert Rowbotham gets 1 percent, and Greg

Page 39

- 2 Shepard gets 1 percent?
- 3 A. That's correct.
- 4 Q. And the 1 percent is also calculated on money
- 5 actually paid by the purchaser?
- A. That's correct.
- 7 Q. Who established this commission structure?
- 8 A. I did.
- 9 Q. Since 2010 who has kept track of which people are
- 10 owed which commission?
- 11 A. My -- my wife, Glenda Johnson, does it for free.
- 12 Q. Has she done so since 2010?
- 13 A. She's done a good job, yes. Yeah. There's a --
- 14 there's a real procedure that we don't get -- we don't have
- 15 anybody touching that money like we did before and stealing
- 16 it. So, yeah, she does a good job.
- Q. How does Mrs. Johnson keep track of the 17
- 18 commissions?
- 19 A. There's a computer program that does all of that.
- 20 The -- when a sale comes in, it goes into the computer
- 21 system, it gets transferred into our bookkeeping system,
- 22 then she takes a photograph physically of all of the money
- 23 that comes in and keeps a paper copy of all the transactions
- 24 as well as electronic transactions.
- 25 Q. When you say a sale -- when a sale comes in it

Page 40 1 goes into the computer program, how do sales come in?

- 2 A. Usually through a computer program that's on the 3 website.
- 4 Q. Which website?
- A. I think it's Rapower.net or RaPower3.com. I
- 6 don't -- I'm not sure which one.
- Q. Who is it that programmed Rapower.net to bring in 7
- 8 sales?
- 9 A. It was done at my direction and -- and most of
- 10 the -- most of the layout of the program was done by me.
- 11 Then I have people that will code -- code the program as I
- 12 have directed them to do.
- 13 Q. Who are those coders?
- 14 A. The first one was Chris Taylor and the next one is
- 15 Aaron Jones.
- 16 Q. Anyone else?
- 17 A. Not besides myself.
- Q. The equipment purchase agreement that RaPower3 18
- 19 provides to customers is available online; correct?
- 20 A. That's correct.
- 21 Q. And you directed that that contract be made
- 22 available online?
- 23 A. That's correct.
- 24 Q. Plaintiff's Exhibit 511, Mr. Johnson, which we
- 25 looked at earlier, is an example of that equipment purchase

1 agreement; right?

- 2 A. That's correct, yes.
- 3 Q. Did you get this -- we can go off the record.
- 4 (Discussion held off the record.)
- 5 Q. (BY MS. GALLAGHER) Mr. Johnson, where does
- RaPower3 store the contracts it has with any customer? 6
- 7 A. In filing cabinets at our premise in, I believe in
- 8 Delta, Utah.
- 9 Q. Does RaPower3 have in those filing cabinets all of
- 10 the contracts it has entered with customers since 2010?
- 11 A. I believe it does.
- 12 Q. Mr. Johnson, I'll represent to you that we
- 13 received from your attorneys some equipment purchase
- 14 agreements from RaPower3, but we have not received any that 14 2016 is I think when I started to make that transition, but
- 15 were signed in 2015 or 2016. Did RaPower3 contract with
- customers during 2015 and 2016?
- A. I'm sure they did. 17
- 18 Q. How about in 2017?
- 19 A. I'm sure they did, yes.
- 20 Q. So we will likely follow up with your attorney
- 21 after this deposition to see if we can figure out a way to
- 22 get those.
- 23 A. Okay.
- 24 Q. Okay. So we talked about the first structure for
- 25 commission through RaPower3, and you said that last year the

- 1 commission structure?
 - 2 A. It was close to the first of the year that we
 - 3 decided to make those changes. It wasn't -- it was an add

Page 43

Page 44

- on rather than a complete change at that time.
- 5 Q. Couple things there. You said we. Do you mean 6 you?
- 7 A. I mean myself. I apologize again.
- 8 Q. So when you said we, you meant you?
 - A. I meant myself, yes.
- 10 Q. Okay. And you said it was the start of the last
- 11 year when you started to make the change. So was that,
- 12 like, January-February?
- 13 A. I believe I made the change in the first part of
- 15 I'm not positive, but I think that's about when it was.
- 16 Q. And who, if anyone, did you tell about this
- 17 decision?

9

- 18 A. I told Greg Shepard and -- and a few other people.
- 19 Q. Who else other than Greg Shepard?
- 20 A. It may have been Roger Hamblin and a few other
- 21 sales reps. I may have discussed it with them to get their
- 22 opinions on how they like the structure before I implemented
- 23 it.
- 24 Q. You also said that the second structure was more 25 of an add on than a complete change at first. What do you

Page 42

- 1 structure changed?
- 2 A. That's correct.
- 3 Q. Who made the decision to change the structure?
- 4 A. I did.
- 5 Q. And why did you make that decision?
- 6 A. I just felt like that it would be easier to keep
- 7 track of for the distributors and it wouldn't be -- it would
- end up for -- the ones that produced would get a better, you
- know, a better compensation than those that did not produce.
- 10 Whether it works out that way I don't know. It's just
- 11 something we concluded.
- 12 Q. But you thought the changed commission structure
- 13 would make distributors more money?
- A. Yes. The ones that -- the ones that were actually 14
- 15 producing, it would have made them more money than -- I
- 16 think that would be correct.
- Q. Okay. So it would make more money for the more 17
- 18 productive sales folks?
- 19 A. I believe so, yes. But whether it does or
- 20 doesn't, I don't have any way of knowing.
- Q. But that was your goal? 21
- 22 A. Uh-huh.
- 23 Q. "Yes?"
- 24 A. Yes.
- 25 Q. Okay. About when last year did you change the

- 1 mean by that?
 - 2 A. Well, people could still purchase the equipment
- 3 under the old program while the new program was being
- 4 implemented.
- Q. So could a salesperson choose which commission
- structure they wanted?
- 7 A. That is correct, yes.
- 8 Q. Can a salesperson still choose which commission
- 9 structure they want?
- 10 A. They can still at this time, yes.
- 11 Q. And does that salesperson have to make that choice
- 12 at the time of a new sale?
- 13 A. No. The program that I implemented now -- excuse
- 14 me just a minute. I -- we just got finished writing it.
- 15 It's taken a little bit longer than I wanted. I wanted to
- 16 implement this program earlier than this, but it took a
- 17 little while to develop the programs that I wanted in a --
- 18 in a new way of selling and marketing products that have
- 19 never been done before.
- 20 So what I did was I made the MLM dependent upon
- 21 the product rather than individual contracts with the
- 22 distributorships. So the contract, when you join my MLM
- 23 company, you can choose what products you want to sell and
- 24 then the commission is based upon the product that you're
- 25 selling. Like, if we sold a ranch, it would have a

- 1 different set -- commission structure and down line than you2 would selling, say, a solar project.
- 3 And so now we're able -- now we're able to -- to
- 4 expand our product line to millions of products just like a
- 5 grocery store. It's a -- it's a plan of my grocery store
- 6 program and an MLM company now, and so it keeps track of
- 7 everything automatically. It keeps track of the commissions
- 8 in the bookkeeping systems so that if you sell this product
- 9 and this is your contracts, signatures are all kept in the
- 10 same electronic files.
- 11 They also generate paper trails in case something
- 12 happens to the electronic side. And so we feel like we just
- 13 started implementing that, and now we will expand out our
- 14 product lines of the MLM company to encompass a variety of
- 15 products rather than just on a -- on a one product level.
- 16 Q. Nonetheless, Mr. Johnson, to date RaPower3 has
- 17 only ever sold solar lenses?
- 18 A. That's correct, yes.
- 19 Q. When is it that you anticipate selling other
- 20 products than solar lenses?
- 21 A. As soon as we fully get the marketing product in
- 22 the way that we want the program to operate.
- 23 Q. So do you think 2017?
- 24 A. We're hoping that -- we're testing it now.
- 25 Q. Do you anticipate keeping -- I'll withdraw that.

Page 46

- 1 All right. So in or around early 2016 you started
- 2 introducing a new commission structure?
- 3 A. That is correct.
- 4 Q. And that new commission structure involves just
- 5 two down lines; yes?
- 6 A. That's correct.
- 7 Q. But any sale on either down line will generate a 7
- 8 percent commission?
- 9 A. No.
- 10 Q. "No." Okay.
- 11 A. Oh, yes. On the new structure, yes. Right. I
- 12 apologize.
- 13 Q. So let's take the example down line that we used
- 14 earlier. Let's say Greg Shepard sells a lens under the new
- 15 commission structure and he sells that lens to Robert
- 16 Rowbotham. Mr. Shepard will receive 7 percent of that sale;
- 17 correct?
- 18 A. That is correct.
- 19 Q. And, still, Mr. Shepard will receive 7 percent of
- 20 the actual money paid by Robert Rowbotham?
- 21 A. That's correct.
- 22 Q. Then let's say Robert Rowbotham sells a lens to
- 23 Roger Freeborn. Will Greg Shepard get 7 percent of the sale
- 24 to Roger Freeborn?
- 25 A. That's correct.

1 Q. And Robert Rowbotham will also get 7 percent?

Page 47

- 2 A. That's correct.
- 3 Q. Then if Roger Freeborn sells to Brian Zeleznik in
- 4 this, case does Mr. Shepard get a commission?
- A. No.
- 6 Q. It would just be Mr. Robotham and Mr. Freeborn?
- 7 A. That's correct.
- 8 Q. Is that the commission structure you plan to use
- 9 for solar lenses even after RaPower3's product line
- 10 diversifies?
- 11 A. We don't know yet what changes we may make later
- 12 on, you know, but right now that's -- that's our plan. But
- 13 we can change that at any time because it's a product, not
- 14 something tied to the distributors.
- 15 Q. Okay. So if Greg Shepard were to sell a lens to
- 16 Robert Rowbotham today, could he choose either commission
- 17 structure?
- 18 A. That's correct.
- 19 MS. GALLAGHER: Let's go off the record, please.
- 20 (Fifteen-minute recess taken.)
- 21 Q. (BY MS. GALLAGHER) Mr. Johnson, did you speak with
- 22 anyone about the facts of this case on the break?
- 23 A. No, I did not.
- 24 Q. Are there any answers to my questions from this
- 25 morning that you would like to change or supplement?

Page 48

- 1 A. Not right now.
 - 2 Q. With respect to the first commission structure --
 - 3 MR. SNUFFER: (Indicating to the witness.)
 - 4 MS. GALLAGHER: What was that?
 - 5 MR. SNUFFER: The Icon 5 airplane.
 - 6 MS. GALLAGHER: Okay. Thank you.
 - 7 THE WITNESS: That was my -- that's my party.
 - 8 Q. (BY MS. GALLAGHER) With respect to the first
 - 9 commission structure, who, if anyone, did you tell about the
 - 10 commission structure for RaPower3?
 - 11 A. Well, basically the salespeople, you know,
 - 12 introduced them to the new -- I mean the old structure I
 - 13 taught them, you know, basically, and then expanded from
 - 14 there, you know, from -- as the other people started
 - 15 selling.
 - 16 Q. So you told the RaPower3 salespeople about the
 - 17 original commission structure; right?
 - 18 A. Correct.
 - 19 Q. And then they were authorized to tell other people
 - 20 about the commission structure; correct?
 - 21 A. That's correct, yes.
 - 22 Q. Included in those original salespeople were Greg
 - 23 Shepard?
 - 24 A. That's correct.
 - 25 Q. And Roger Freeborn?

Rapower3 30(b)(6) Pages 45 - 48

1 A. Corre	ct

- 2 Q. Who else were among the original salespeople for
- 3 RaPower3?
- 4 A. I think Roger Hamblin and just a few other people.
- 5 I don't know.
- 6 Q. Who were the other people?
- 7 A. I don't -- I can't remember. Just a few friends.
- 8 But I don't know if I told them or Roger told them or Greg
- 9 told them. I -- I'm not positive.
- 10 Q. About how many salespeople did RaPower3 start off
- 11 with?
- 12 A. Probably about ten or so.
- 13 Q. About how many salespeople does RaPower3 have now?
- A. I don't really know. A thousand. Maybe 2,000. I
- 15 don't know.
- MS. GALLAGHER: Off the record, please. 16
- 17 (Sixteen-minute recess taken.)
- Q. (BY MS. GALLAGHER) Mr. Johnson, we just took 18
- 19 another break. I understand that during the break a moment
- ago you may have looked at a piece of yellow paper in front
- 21 of your wife; is that right?
- A. She's just showing me someplace to go eat 22
- 23 something.
- 24 Q. Did you look --
- 25 MS. JOHNSON: Oh, he's not seen this. He doesn't -- he

- Q. Let me finish the question. 1
 - 2 A. I'm sorry.
 - Is this the piece of paper that your wife showed

Page 51

Page 52

- 4 you on the break?
- A. Yes. Yeah.
 - Q. Thank you. You can put that down.
- 7 A. Okay (laughing.) That's why I asked you where you
- 8 want to go eat, burgers (laughing). I said you want -- I
- 9 didn't know what you wanted (laughing). I'm sorry. Okay.
- 10 All right.

6

- 11 Q. Mr. Johnson, what, if any, authority does Greg
- 12 Shepard have to make decisions on behalf of RaPower3?
- 13 A. He doesn't have any decision making power.
- 14 Q. But he does have authority to share information
- 15 about RaPower3 with other people; correct?
- 16 A. Every -- every member of the MLM company has a
- 17 right to do a website.
- Q. That wasn't my question.
- 19 A. Oh. I'm sorry. Yes, okay.
- 20 MS. GALLAGHER: Would you read back my question, please
- 21 (to the reporter).
- 22 (The question was read as follows:
- 23 "Q But he does have authority to share
- 24 information about RaPower3 with other people;
- 25 correct?")

- THE WITNESS: That is correct, yes. 1
- 2 Q. (BY MS. GALLAGHER) To your knowledge, does
- 3 Mr. Shepard get his information about RaPower3 from any
- 4 source other than you?
- A. You'd have to ask Greg. I'm not -- I don't know.
- 6 I'm not aware of everything that he -- where he gets it
- 7 from. Or he just walks around and looks at things. You
- 8 know, I'm not -- I'm not positive. I can't speak for him on
- 9 that area.
- 10 Q. Okay. But you've told him about the RaPower3
- 11 system for sales?
- 12 A. Yes, I have.
- 13 Q. And you've -- well, I'll withdraw that.
- 14 We've seen some examples of a website that's
- 15 RaPower3.com. Do you remember talking about that?
- 16 A. Yes, uh-huh.
- 17 Q. Who is responsible for the content on
- 18 RaPower3.com?
- 19 A. I'm not sure of whether that's the -- cause I
- 20 don't know if that's Greg Shepard's website or whether
- 21 that's the sales website. On the sales, if it's a sales
- 22 website, there really isn't any information other than just
- 23 buying the product. If it's Greg's website, then it would
- 24 have a variety of information that Greg has put together to
- 25 market -- to market his, you know, do his marketing program.

Page 50

- 1 hasn't seen this.
- MS. GALLAGHER: One person at a time, please. 2
- 3 THE WITNESS: I'm sorry.
- 4 Q. (BY MS. GALLAGHER) Mr. Johnson, did you look at
- 5 the piece of yellow paper in front of your wife on a break?
- 6 A. She showed me the paper, but I didn't pay any
- 7 attention to it. I don't know what it is.
- 8 MS. GALLAGHER: Okay. I'd like to see the paper,
- 9 please.
- 10 THE WITNESS: You're welcome to see the paper.
- 11 (Document handed to Mr. Snuffer.)
- MR. SNUFFER: Oh. 12
- THE WITNESS: Without my glasses, I wouldn't have read 13
- 15 MS. GALLAGHER: Okay. I'm marking this Plaintiff's
- 16 Exhibit 541.
- 17 (Exhibit 541 marked.)
- 18 Q. (BY MS. GALLAGHER) Showing you what's been marked
- 19 as Plaintiff's Exhibit 541, is that the paper your wife
- 20 showed you on a break?
- 21 A. It said burger and cheese (laughing). What is
- 22 that? What is that? Buyer chooses?
- Q. Mr. Johnson, is this a piece of paper that your 23
- 24 wife --
- A. Yeah, it looks like --

- 1 Q. Okay. We'll take a look at some examples --
- 2 A. Okay.
- 3 Q. -- in a minute.
- 4 But to your understanding, Mr. Johnson, there's a
- 5 difference between a website that Greg Shepard may have and
- 6 the website that administers sales for RaPower3?
- 7 A. That is correct, yes.
- 8 Q. And the website that administers sales, correct me
- 9 if I'm wrong, is only for administering those sales?
- 10 A. That is correct, yes.
- 11 Q. So there is not marketing material and information
- 12 on the website dedicated to sales?
- 13 A. Only just the information that would be required
- 14 to make the sale, I believe.
- 15 Q. Okay. So things like contracts?
- 16 A. Contracts. And there may be some pictures, but
- 17 just -- just to look at things. It's not -- it's not --
- 18 it's not designed to create the sale; just consummate the
- 19 sale.
- Q. Okay. Does RaPower3 have a business relationship
- 21 with Cobblestone Center, LLC?
- 22 A. Not other than just a -- where RaPower buys the
- 23 finished product or provide -- Cobblestone is the
- 24 manufacturing and construction, but they're not owned by the
- 25 business relationship. There's no business relationship as

- 1 Q. What do you mean by that?
 - 2 A. Cobblestone is -- is the manufacturing arm of the
 - 3 operation as well as the construction of the various
 - 4 components to create a solar energy project.
 - 5 Q. Do you have an idea of how much RaPower3 pays
 - 6 Cobblestone?
 - 7 A. No, I don't. I don't have any knowledge of that
 - 8 without looking at the books.
 - 9 Q. Other than payment to Cobblestone and commission
 - 10 to salespeople, what, if any, other expenses does RaPower3
 - 11 have?
 - 12 A. Well, they may have some traveling expenses, they
 - 13 may have some rent expenses, they may have legal expenses.
 - 14 You know, they may have some administration expenses. You
 - 15 know, just normal business expenses that you'd incur in a
 - 16 business.

23

- 17 Q. To whom does RaPower3 pay rent?
- 18 A. Probably to Glenda Johnson.
- 19 Q. Why does it pay rent to Glenda?
- 20 A. Glenda owns all the buildings.
- 21 Q. Where does RaPower3 operate out of?
- 22 A. Be out of one of the buildings that she owns.
 - Q. Which building?
- 24 A. Just depends on what you're asking to be done.
- 25 Some of the bookkeeping would be done in one -- one

Page 54

- 1 far as ownership between the two.
- 2 Q. Are there any contracts between RaPower3, LLC, and
- 3 Cobblestone Center, LLC?
- 4 A. That I don't know. I think there is, but I'm not
- 5 positive on that.
- 6 Q. All right. If there is a contract between them,
- 7 what do you think it involves?
- 8 A. It would involve giving Cobblestone the right to
- 9 construct the equipment that's been purchased. Build and
- 10 buy and manufacture and construct.
- 11 Q. If there is a contract between RaPower3 and
- 12 Cobblestone, who would have signed on behalf of RaPower3?
- 13 A. Neldon Johnson, Manager.
- 14 Q. And who would have signed on behalf of
- 15 Cobblestone?
- 16 A. Cobblestone? It'd be Neldon Johnson, Manager of
- 17 Cobblestone.
- 18 Q. Does Cobblestone make any payments to RaPower3?
- 19 A. No, they do not.
- 20 Q. Does RaPower3 make any payments to Cobblestone?
- 21 A. Yes. I believe they do.
- 22 Q. What, if any, payments -- what does RaPower3 pay
- 23 Cobblestone for?
- 24 A. For the construction and, you know, the building
- 25 and construction of the solar -- of the solar project.

- Page 56
 1 building, some of the sales and tours and sales and dealing
- 2 with salespeople would be done at another building.
- 3 Q. How much is RaPower3's rent per month?
- 4 A. That I don't know. I would have to look and see.
- 5 But I should know that. I don't know that it's that much,
- 6 but off the top of my head, I wouldn't know.
- 7 Q. What legal fees does RaPower3 incur?
- 8 A. Mostly the ones that you people generate and cause
- 9 to be expended, you know, on behalf of the members of
- 10 RaPower as well as their customer base as well as protecting
- 11 their assets and protecting themselves from lawsuits.
- 12 Q. So those legal fees arising out of this injunction
- 13 lawsuit?
- 14 A. Yes. Of course, yes.
- 15 Q. Are RaPower3's legal fees incurred in assisting
- 16 customers with representation in tax court?
- 17 A. Yes.
- 18 Q. And you said there were other legal fees involved
- 19 in protecting its assets. What assets does RaPower3 have?
- 20 A. The intellectual property rights of marketing the
- 21 product and selling and their relationships with their
- 22 customer base and their distributors.
- 23 Q. Does RaPower3 pay for lenses?
- 24 A. Well, I don't -- I think they -- they are in
- 25 control I think would be more of the money to make sure that

Page 55

- 1 they -- that the contractual agreement with the
- 2 manufacturing facilities are probably providing -- providing
- 3 their side of the equipment, you know, to purchase and --
- 4 and satisfy the contractual agreements that RaPower has with
- 5 their clients.

7

- 6 Q. So does RaPower3 pay Cobblestone for the lenses?
 - A. I don't know how -- I don't know that. You can
- 8 call it that way. I mean, the customer pays RaPower and I
- 9 suppose then you would say that RaPower then pays
- 10 Cobblestone. If you look at it from that standpoint, I
- 11 think that would be accurate.
- 12 Q. Okay. I'm just trying to understand how it works.
- 13 A. Well, I'm just making sure that we don't say
- 14 anything that would not be accurate that later on would bite
- 15 me, so I'm just trying to think of the process it goes. Of
- 16 course, the customer buys and then gives money to RaPower
- 17 and RaPower would then distribute that -- that money to --
- 18 to supply what the contractual agreements that RaPower has
- 19 with the customers. So I assume that would be accurate.
- 20 Q. Is there any other aspect of the RaPower3
- 21 Cobblestone business relationship than what you've already
- 22 described?
- 23 A. I don't believe so, no.
- 24 Q. What, if any, business relationship does RaPower3
- 25 have with LTB-LLC?

Page 58

- A. They don't have any relationships with LTB, or any
- 2 of those operating and maintenance companies, other than
- 3 providing the customer an opportunity to sign an agreement
- 4 whether or not they want to participate with the programs
- $\,\,$ 5 $\,$ offered to the customers through LTB or any other management
- 6 corporation.

1

- 7 Q. So, Mr. Johnson, LTB-LLC, has no business
- 8 relationship with RaPower3, LLC?
- 9 A. Not -- not anything other than what I just
- 10 described, yes.
- 11 Q. Is there a contract between LTB-LLC, and RaPower3?
- 12 A. There is not.
- 13 Q. And I believe, Mr. Johnson, what you just said was
- 14 that RaPower3 makes available to customers purchasing lenses
- 15 an operations and maintenance agreement with LTB-LLC; is
- 16 that right?
- 17 A. Let me make sure I understand exactly what you're
- 18 saying and then maybe I can clarify anything that you may
- 19 not quite understand. RaPower sells a product. The
- 20 customer has the right to do with that product anything they
- 21 choose to do. If they choose to participate in the
- 22 contracts in a certain way, then they would sign up with the
- 23 operator of the maintenance company designated by the
- 24 contract in which they sign with RaPower.
- 25 But that contract they sign up with, then they

1 have to -- the customer then has to sign a separate

- i nave to -- the customer them has to sign a separate
- 2 contractual agreement with the operating maintenance
- 3 company, but they are not -- they are not part of the same
- 4 entity and they choose to either become part of that entity
- 5 and participate in the program outline or they choose not
- 6 to. In such a case, then they can do whatever they choose
- 7 with their lenses.
- 8 Q. Mr. Johnson, I'm gonna show you what's previously
- 9 been marked Plaintiff's Exhibit 512.
- 10 A. Okay.
- 11 Q. Plaintiff's Exhibit 512 is an example of an
- 12 operation maintenance agreement; is that right?
- 13 A. Yes. It appears to be so.
- 14 Q. And this is on RaPower3 letterhead; correct?
- 15 A. That's correct.
- 16 Q. Is Plaintiff's Exhibit 512 an example of the
- 17 operation and maintenance agreement that RaPower3 makes
- 18 available to customers?
- 19 A. Yes, it is.
- 20 Q. And do I understand, Mr. Johnson, that your
- 21 testimony is a customer need not sign the operation and
- 22 maintenance agreement that RaPower3 offers?
- 23 A. That's correct.
- 24 Q. I can take that back. Or put it aside.
- 25 A. (Peruses document.)

1 Q. And correct me if I'm wrong, but LTB -- I'm sorry.

- 2 Withdrawn.
- 3 RaPower3 is not obligated to provide the operation
- 4 and maintenance agreement to customers; correct?
- 5 A. That is correct.
- 6 Q. What, if any, business relationship does RaPower3
- 7 have with LTB1-LLC?
- 8 A. They would be the same as -- as with any other
- 9 operating and maintenance agreement. RaPower could actually
- 10 choose another company besides the ones being offered by any
- 11 of the LTB companies. They don't even have to go with
- 12 those. They can choose a different operation company.
- 13 They're in no way obligated through a contractual agreement
- 14 if you wanted to go down and offer your services to RaPower
- 15 to operate it and it was more -- it was better than LTB's.
- 16 They could accept your offer to operate and maintain a power
- 17 project.
- 18 Q. And RaPower3 knows, of course, that LTB-LLC, has
- 19 never operated and maintained a power plant; correct?
- 20 A. Everything is fully disclosed, yes, and so they're
- 21 fully aware of any of the problems with any kind of a
- 22 relationship that might happen. But it's fully disclosed.
- 23 To everybody it's fully disclosed.
- 24 Q. Object as nonresponsive.
- 25 Would you please read back my question (to the

Page 60

- 1 reporter).
- 2 THE WITNESS: I'm sorry.
- 3 (The record was read as follows:
- 4 "Q And RaPower3 knows, of course, that
- 5 LTB-LLC, has never operated and maintained a power
- 6 plant; correct?")
- 7 THE WITNESS: Yes. Like I said, the information from
- 8 LTB, their expertise has been fully disclosed to not only
- 9 RaPower, but also to all of the customers.
- 10 Q. (BY MS. GALLAGHER) And the fact, Mr. Johnson, that
- 11 LTB has never operated or maintained a power plant; correct?
- 12 A. Well, that's not -- LTB has not done that, but the
- 13 manager of the company may have.
- 14 Q. And the manager of LTB-LLC, is who?
- 15 A. Neldon Johnson.
- 16 Q. So you may have operated and maintained a power
- 17 plant?
- 18 A. Uh-huh, yes.
- 19 Q. When was that?
- 20 A. In -- when I was in Alaska with a -- with the
- 21 company up in Alaska, we maintained -- part of the
- 22 responsibility that I had in developing and working with the
- 23 company that was doing the early distant warning system in
- 24 Alaska had power plants at the site which I operated and
- 25 maintained as part of my duties while I was in Alaska.
 - Page 62

- 1 Q. What year was that?
- 2 A. '67, I believe. 1968. Something like that.
- 3 Q. And did that power plant involve converting light
- 4 and heat from the sun into any kind of energy?
- 5 A. No, but it was basically the power plant and so it
- 6 was the same -- same thing.
- 7 Q. And is that the full extent of your experience
- 8 operating and maintaining a power plant?
- 9 A. Other than the ones I developed myself and built
- 10 and have patents on and demonstrated by the Patent Office
- 11 that I understand and -- understand the technology and
- 12 understand how to operate and obviously then maintain that
- 13 particular power plant. In fact, I would be the only one
- 14 that would be capable of doing that with the knowledge base
- 15 that I have.
- 16 Q. And, Mr. Johnson, LTB1-LLC, has never operated and
- 17 maintained a power plant; correct?
- 18 A. The company itself has not, but the manager has.
- 19 Q. And that manager is you?
- 20 A. That's correct.
- 21 Q. Okay. To your knowledge, Mr. Johnson, has anyone
- 22 bought lenses through RaPower3 and then not signed an
- 23 operation and maintenance agreement with LTB?
- 24 A. I'm not aware of anyone that's done that.
- 25 However, we have offered an alternative to using our system

- Page 63

 1 where you can provide your own lens holders and focus it on
- 2 a vacuum tube with a liquid in it to be used to heat your
- 3 home or heat your hot water or heat a greenhouse. We've
- 4 offered that -- that -- that has that capability.
- 5 Q. When you say we, who do you mean?
- 6 A. I mean myself has offered that.
- 7 Q. To whom?
- 8 A. To any -- anybody that wanted to know if there was
- 9 a way to use it in an alternative manner. There have been
- 10 some people that have asked that question, and I don't know
- 11 who. I mean, I don't remember. But that discussion has
- 12 come up.
- 13 Q. Has anyone taken you up on that offer?
- 14 A. As far as I know, no, but I have offered that and
- 15 told people that's available if that's what they choose to
- 16 use it for.
- 17 Q. And is your testimony that the solar lenses that
- 18 RaPower3 sells would be used in the system that you just
- 19 described?

23

- 20 A. Yes. It has the capacity to do exactly what I
- 21 just was trying to describe.
- 22 Q. But it never has done, has it?
 - A. No. We've demonstrated that it would.
- 24 Q. Has anyone ever paid for any energy produced by
- 25 such a system?

Page 64

- 1 A. No, but we have offered the system in that manner
- 2 and shown that it can operate in that fashion, yes.
- 3 Q. And no one has ever taken you up on that offer?
- 4 A. Nobody's been that stupid, actually, no. But,
- 5 yeah, it's available.
- 6 MS. GALLAGHER: Go off the record, please.
- 7 (Recess taken from 11:30 a.m. to 12:13 p.m.)
- 8 Q. (BY MS. GALLAGHER) Mr. Johnson, did you talk to
- 9 anyone about the facts of this case while we were on our
- 10 lunch break?
- 11 A. No, I haven't.
- 12 Q. Are there any answers to my questions earlier
- 13 today that you would like to supplement or change?
- 14 A. I can't think of any right now.
- 15 Q. Okay. Real quick, I'd like to show you what's
- 16 previously been marked Plaintiff's Exhibit 121. We did show
- 17 that in the earlier testimony, and my question for you,
- 18 Mr. Johnson, is the RaPower3 logo that's at the top of the
- 19 first page of Plaintiff's 121 --
- 20 A. Uh-huh.
- 21 Q. -- that's the RaPower3 logo?
- 22 A. Uh-huh.
- 23 Q. "Yes?"
- 24 A. Yes.
- 25 Q. That's one of the logo's RaPower3 has used over

1 the course of time?

- 2 A. Yes.
- 3 Q. That's all for that.
- 4 Mr. Johnson, what, if any, relationship does
- RaPower3 have with Solco1?
- 6 A. None.
- Q. What, if any, business relationship does RaPower3 7
- have with Exxon Energy? 8
- 9 A. None.
- 10 Q. Mr. Johnson, does RaPower3 have a federal tax
- 11 return filing requirement?
- A. No, it doesn't. 12
- Q. Why not? 13
- 14 A. It's a pass-through -- it's a pass-through entity.
- Q. What entity does have responsibility for reporting 15
- 16 the income from RaPower3?
- 17 A. Eventually there'll be individuals that would be
- 18 responsible, but there hasn't been any profits generated by
- 19 the company to show any pass-through or royalties.
- 20 Royalties would be paid to International Automated Systems.
- which is a tax organization, but -- or -- and the
- 22 individuals after the administrations of the next
- 23 corporation, the people that work for RaPower and get 1099
- 24 forms or, you know, at Cobblestone a W-4 form, whatever, W-2 24 personal taxes. I think I've asked about that as well.
- 25 forms.

1

Page 66

- Q. So is there -- I'm simply asking about the
- reporting requirements. So what entity owns RaPower3?
- A. I'm not positive, but I think it's DCL16. I think 3
- 4 that's the way it goes.
- 5 Q. Does DCL16 have a federal tax return reporting
- 6 requirement?
- A. No. They're a pass-through company as well. 7
- 8 Q. Who owns DCL16?
- 9 A. I think that I own 10 percent and I think that my
- two sons own part of that, but it may -- it may go back to
- 11 the newest company. It may be Starlight or Blacknight, one
- word, and then they are owned by myself and my two children.
- 13 Q. And that's Randy and LeGrand Johnson?
- A. Randy and LeGrand Johnson. I believe they own 14
- 15 those.
- Q. So just to be clear, I'm not asking about profits, 16
- 17 I'm not asking you about royalties. I'm asking about
- 18 income. So where is the income from RaPower3 reported to
- 19 the IRS, if at all?
- 20 A. Well, the bookkeeper, I mean, the -- the people
- that do the bookkeeping, they will determine what taxes and
- 22 where the money has to go and how the pass-through situation
- 23 works. I'm not -- I'm not an accountant.
- 24 Q. So is the answer you don't know?
- 25 A. I would -- my accountants know, but I don't know.

Page 65 Q. You don't know where the income from RaPower3 is

- 2 reported to the IRS; correct?
- A. Well, you're talking about income and, as far as I

Page 67

- 4 know, there hasn't been any income made by RaPower.
 - Q. RaPower3 has sold solar lenses; correct?
- A. Yes, but that's not considered income on your tax
- 7 forms. Income on a tax form, if you're talking about income
- 8 in relation to a tax form, it's a -- it's a -- it's a --
- 9 it's something that's identified by statute, and that
- statute has to incur before you can call it income.
- 11 Q. So is it your belief, sir, that RaPower3 has not
- 12 generated any income?
- 13 A. As far as the -- as far as I understand and from
- 14 the -- what the accountants have told me, that the statute
- 15 that would indicate that there's been income generated, that
- 16 threshold has not been met yet.
- Q. Who told you that? 17
- 18 A. Just one of my accountants that I hired to look at
- 19 other things, and I mentioned it to him. I think it was
- Gary Peterson.
- 21 Q. Have you heard that from anyone other than Gary
- 22 Peterson?
- 23 A. Probably, yes. My personal accountants that do my
- 25 Q. Who?

Page 68 A. I don't know his name. My wife does it and takes

- 2 care of it and I always visit with him one day over that
- 3 issue. He says there's a -- you have to file a form showing
- 4 where the money went, but you don't do an actual tax -- tax
- 5 form for tax reporting.
- Q. What firm does your personal accountant work for?
- 7 A. I don't know.
- Q. What firm does Gary Peterson work for?
- 9 A. I don't know either. I think it's Gary's Peterson
- 10 firm. I don't know. It may be some other name that he
- 11 works for, but I know him by Gary Peterson.
- 12 Q. Has anyone else told you that RaPower3 has no
- 13 income to be reported to the IRS?
- 14 A. No. No one else has, no.
- 15 Q. Mr. Johnson, are there any records of RaPower3's
- 16 cost of doing business?
- 17 A. Yeah. I believe it goes into the bookkeeping
- 18 system and then there's a -- there's how much expenses that
- 19 are incurred on the checks that are written that go to the
- 20 different departments and all of those kind of things. Yes,
- 21 I think there is.
- 22 Q. Where are those records kept?
- 23 A. They're kept at our house, our home.
- 24 Q. Are they kept anywhere else?
- 25 No. I don't believe so.

Pages 65 - 68

- 1	(J.	Are	tnev	Kent	online?

- 2 A. I don't know whether they're kept in a cloud or
- 3 not, but we keep them pretty tight. We don't let it get out
- 4 too far.
- 5 Q. Mr. Johnson, my understanding is that you and/or
- 6 entities for which you are responsible have had bank
- 7 accounts, or currently have bank accounts at Wells Fargo,
- 8 Bank of American Fork, Zions Bank, and Millard County Credit
- 9 Union. Have you personally had any accounts at any other
- 10 banks than those?
- 11 A. Not that I know of.
- 12 Q. Has RaPower3 had bank accounts at any banks other
- 13 than those?
- 14 A. Not that I know of.
- 15 Q. Has IAS had bank accounts at any bank other than
- 16 those?
- 17 A. Not that I know of.
- 18 Q. Mr. Johnson, when you heard from a couple of
- 19 accountants their opinions about whether RaPower3 had income
- 20 that should be reported to the IRS, what information about
- 21 RaPower3 did you give them?
- 22 A. I don't know. We supposedly just visited on the
- 23 subject.
- 24 Q. And when you say visited, do you mean talked
- 25 verbally?

Page 70

- 1 A. Talked verbally.
- 2 Q. Did you provide anything in writing to these
- 3 accountants?
- 4 A. No, I did not.
- 5 Q. How many times did you talk with these accountants
- 6 about whether RaPower3 had income that should be reported to 7 the IRS?
- 8 A. Oh, two or three times.
- 9 Q. Each or total?
- 10 A. Total.
- 11 Q. When did you have these conversations?
- 12 A. Just over the course of the last few months.
- 13 Q. So just recently?
- 14 A. Recently, yes. They're in the process of doing
- 15 all the accounting now and getting everything ready to go
- 16 because of the relationship of IAS with -- with RaPower, and
- 17 so they should finish up on that shortly.
- 18 Q. Is that to report IAS financials to the SEC?
- 19 A. Mostly to see if there's profits that need to
- 20 be -- need to be accounted for at this particular time. So
- 21 far we have -- we haven't seen that was the case, but
- 22 they're in the process now of looking at that to get
- 23 royalties over to IAS.
- Q. Does RaPower3 -- well, first let me ask you this:
- 25 How many customers has RaPower3 had in the course of its

- 1 lifetime?
- 2 A. I wouldn't know that answer.
- 3 Q. Is it more or less than a thousand?
- 4 A. Probably I'd say it's more than a thousand, but

Page 71

Page 72

- 5 I'm not -- I couldn't -- I couldn't tell you that.
- 6 Q. More or less than 2,000?
- 7 A. Probably less than 2,000. It may be more. I
- 8 don't know. I really don't know.
- 9 Q. So it's possible it could be more than 2,000?
- 10 A. Could be 10,000. I don't know.
- 11 Q. So does RaPower3 keep track of the number of its
- 12 customers?
- 13 A. Yes, it does.
- 14 Q. How does it do that?
- 15 A. It has a computer program that keeps track of
- 16 everybody that is a member of the RaPower organization.
- 17 Q. When you say a member of the RaPower organization,
- to the state of th
- 18 do you mean does somebody have to buy a lens to become a 19 member?
- 20 A. No.
- 21 Q. And if somebody buys a lens, are they
- 22 automatically a member?
- 23 A. Yes.
- Q. So anyone who has bought a lens is a member of
- 25 RaPower3; yes?

1 A. That's correct.

- 2 Q. And even people who have not bought lenses may be
- 3 members of RaPower3 if they want to sell lenses?
- 4 A. That's correct.
- Q. And you mentioned this computer program that
- 6 RaPower3 has. Where is that computer program stored?
- 7 A. In a -- in our house.
- 8 Q. How do you access that computer program?
- 9 A. A password.
- 10 Q. Can you extract data from that computer program?
- 11 A. Yes, we can.
- 12 Q. So if I asked you for a list of all of RaPower3's
- 13 customers, you could provide that fairly easily; correct?
- 14 A. Probably could.
- 15 Q. Is that the computer program that RaPower3 uses to
- 16 keep track of customers' lenses?
- 17 A. Yes, it is.
- 18 (Telephonic interruption.)
- 19 MS. GALLAGHER: Go off the record for a second.
- 20 (Three-minute recess taken.)
- 21 Q. (BY MS. GALLAGHER) Mr. Johnson, you just took a
- 22 phone call on a quick break. Did that phone call have
- 23 anything to do with the facts of this case?
- 24 A. No. It had to do with my airplane. They're --
- 25 the flaps weren't working and I needed to get the airplane

- 1 fixed, and so he just came back with a quote to see if I
- 2 wanted to do it or not.
- 3 Q. Okay.
- 4 A. I just dropped \$700 there.
- 5 Q. So, Mr. Johnson, before the break we were talking
- 6 about the computer program that RaPower3 uses to keep track
- 7 of customer lenses, and I want to understand. Has
- 8 RaPower3 -- well, I'll ask you this: Okay. The computer
- 9 program you say keeps track of customers' lens, how does it
- 10 do that?
- 11 A. On a database. The database records all the
- 12 transactions.
- 13 Q. So how does the computer program know which lens
- 14 belongs to which customer?
- 15 A. That's what databases do. They record what goes
- 16 on and the database stores that information in a way that
- 17 can be retrieved by various indexes.
- 18 Q. Did you design this database?
- 19 A. I believe I did.
- 20 Q. Okay. How did you design this database to keep
- 21 track of which customers' lens is where?
- 22 A. How many hours do you have?
- 23 Q. I just want to know what you tell the program to
- 24 do. So let's say Greg Shepard buys one lens today.
- 25 A. How many hours have you got?

- age 73
 - 2 can't help you. All databases do that, and if you
 - 3 understand a database, I don't need to answer that. I told

Page 75

Page 76

4 you exactly the process of what the database does. It

1 explain it to you. If you don't understand databases, I

- 5 remembers it.
- 6 Q. Let me --
- 7 A. If you want detailed information, I'm happy to
- 8 give it, but --

9

- Q. Let me try to walk you --
- 10 A. If you wanna be --
- 11 Q. -- through it.
- 12 A. -- about two or three hours.
- 13 Q. Let me try to walk you through it.
- 14 A. Okay. Walk it through.
- 15 Q. You tell me if I'm incorrect.
- 16 A. Okay.
- 17 Q. An equipment purchase agreement comes in for,
- 18 let's say, ten lenses today.
- 19 A. Okay.
- Q. I would imagine there's part of the database that
- 21 takes the customer name, extracts the number of lenses, and
- 22 then matches those lenses up with specific identifying
- 23 numbers. Is that correct?
- 24 A. It generates those numbers so that they can
- 25 imprint those numbers on a specific lens.

Page 74

- 1 Q. Mr. Johnson, what happens when someone submits a
- 2 purchase --
- 3 A. When you ask me a question --
- 4 Q. Mr. Johnson --
- 5 A. Okay. Go ahead.
- 6 Q. -- let me finish the question.
- 7 When Greg Shepard buys a lens today and the
- 8 equipment purchase agreement is electronically signed --
- 9 A. I'm not being rude. All I'm asking you is from
- 10 your level of understanding. And if you don't understand
- 11 what I just told you about database and you're asking me now
- 12 how the process goes into it, I happen -- I happen --
- 13 Q. Mr. Johnson --
- 14 A. I have to --
- 15 Q. -- I perfectly well understand --
- 16 A. I have to then build --
- 17 Q. -- how a database works.
- 18 A. Well, then --
- 19 Q. What I want to know is --
- 20 A. -- there wasn't any question --
- 21 Q. Excuse me. Let me -- Let me finish my thought.
- 22 What I want to understand is how does your database take one
- 23 lens purchased from an equipment purchase agreement and end
- 24 up in your system? What does that database do?
- 5 A. Like I said, if you got several hours, I'll

- 1 Q. Okay.
 - 2 A. Is what it does.
 - 3 Q. So each one of those ten lenses gets a specific
 - 4 identifying number; correct?
 - 5 A. That's correct.
 - 6 Q. And that specific identifying number is recorded
 - 7 in your database; right?
 - 8 A. That's correct.
 - 9 Q. So then the numbers for each specific lens, I
 - 10 would imagine, need to be affixed to a specific plastic
 - 11 lens. Am I correct?
 - 12 A. When -- yes. Yeah, you're correct. Yeah.
 - 13 Q. Okay. How does RaPower3 affix the specific
 - 14 lenses -- withdrawn.
 - 15 How does RaPower3 affix the specific numbers to
 - 16 its matching lens?
 - 17 A. They provide those tags to Cobblestone and when
 - 18 Cobblestone puts a lens in the final position, someone would

A. Like this (indicating) except -- yeah. They're

- 19 go around and affix a number to each lens.
- 20 Q. What kind of tags does RaPower3 use?
- A. Just a plastic tab that you can print on.
- Q. Do you buy these plastic tags from the store?
- 24 just online. You can buy all kinds of tags.
- 25 Q. So you just pointed to Plaintiff's Exhibit 509 --

Rapower3 30(b)(6) Pages 73 - 76

23

- A. Similar to this, yeah. 1
- 2 Q. -- which is a disk that has an exhibit label on it
- 3 that says 509?
- 4 A. Correct.
- 5 Q. And your testimony, sir, is that the tags that
- 6 RaPower3 affixes -- I'm sorry. The tags that RaPower3
- prints out and gives to Cobblestone are like the exhibit
- sticker on Exhibit 509?
- 9 A. Can be. It can be a decorated color or you can
- 10 make it into a different triangle or star or --
- 11 Q. I'm not asking about what you can do, sir. I'm
- 12 asking what RaPower3 does do.
- 13 A. It does whatever it chooses, but they choose to
- 14 put it out on a square because it's better, it's more
- 15 economic to do it that way.
- Q. So RaPower3 uses stickers like the exhibit sticker 16
- 17 on Exhibit 509?
- 18 A. That's correct. It's about like what you put on
- 19 your automobile parts, the same stickers you put on
- automobile parts for your automobile to identify the
- 21 different serial numbers on your automobile parts.
- Q. So is it like an exhibit sticker or is it like a
- 23 sticker on automobile parts?
- A. I think they're pretty much the same. But if you 24
- 25 want to have, you know, some have a bar code, some don't.

Page 77 Page 79 1 towers, we haven't had any other -- any other time that we

- 2 actually put lenses on that we've identified.
- Q. Okay. So it's only lenses in the towers that get 4 stickers?
- 5 A. That's correct.
- Q. And I believe you said, sir, that IAS erected
- those towers; correct?
- A. I believe they did. Yes, they did. 8
- 9 Q. So Cobblestone has not had occasion to put
- 10 stickers on any lens so far. Isn't that right?
- 11 A. Right, but you're asking as in the present form.
- 12 The question was in the presence, not in the past. And as
- 13 far as I understand the use of the verbs that you're using,
- 14 at a current time, what do you do. This is the current
- 15 procedure. If you're looking in the past procedure, the
- 16 database that now is in existence was not in existence. The
- 17 database has changed.
- 18 You asked me about the database, how the new
- 19 database and what it operated under and what it was capable
- 20 of doing, and I told you that. And if you want a more
- detailed explanation, we can do it in --
- 22 Q. No --
- 23 A. -- 10 hours, 14 hours.
- 24 Q. No, thank you.
- 25 A. Okay.

Q. So I think part of my confusion was that I forgot

Page 80

- 2 that lenses only get stickers when they're up in the tower.
- 3 So let me --
- 4 A. Not only that, you forgot what -- what verb you
- were using for present and past tense.
- 6 Q. Well, no, because I was assuming that stickers go
- 7 on lenses currently, but they don't, do they?
- A. They get put on when they get -- yes. What I told
- 9 you when they -- when they get put on the towers, then a
- 10 sticker is affixed to those. When they get ready to erect
- 11 the towers, then we assign someone to go around and put
- 12 stickers on it.
- 13 Q. And the only tower --
- 14 A. We've done that in the past and we'll do it again
- 15 in the future.
- 16 Q. The only towers that have been erected are at the
- 17 R&D site; correct?
- 18 That's correct, yes.
- 19 Q. Mr. Johnson, would the computer program we've been
- 20 talking about tell me how many lenses RaPower3 has sold?
- 21 A. Yes, it has. I believe you've asked that question
- 22 now four or five times.
- 23 Q. Do you have an idea of how many lenses RaPower3
- 24 has sold?
- 25 A. I told you I do not.

Page 78

1 So some you can read with a bar code, some you can't. 2 Q. Do RaPower3 stickers have bar codes?

- 3 A. No, we don't. We don't use bar codes.
- Q. So RaPower3 gives stickers with lens numbers to 4
- Cobblestone; correct?
- 6 A. That's correct.
- Q. Who at RaPower3 is responsible for generating the 7
- 8 stickers?
- 9 A. I'm -- I'm the only responsible party to see that
- 10 those things are taken care of on both sides.
- 11 Q. Who actually does it?
- 12 A. Well, I would assign an individual. It'd be a
- 13 different individual. I would give an assignment out to an
- 14 individual for a particular day to do a particular job.
- 15 Q. Who has done it --
- A. One of those --16
- Q. -- in the past? 17
- A. One of those people are the person that I assign 18
- 19 to go out and do this job.
- 20 Q. What's the name of someone you have assigned to do
- 21 that in the past?
- 22 A. Oh, probably Chris Taylor or somebody else like
- 23 that.
- 24 Q. Who else?
- 25 A. So far we haven't -- since we did those other

Rapower3 30(b)(6) Pages 77 - 80

- 1 Q. Well, I believe I asked you how many customers
- 2 RaPower3 has had and how many salespeople RaPower3's had,
- 3 but I have not asked you how many lenses RaPower3 has sold.
- A. If you go back on the first day here, you asked
- 5 that question.
- 6 Q. Well, please answer my question.
- 7 A. I told you. I told you then and I've told you
- 8 now. Nothing has changed. I haven't been down to my house
- 9 since we've had this, this depositions, and so nothing has
- 10 changed for me looking at the program or looking at it and
- 11 seeing how many customers bought lenses and how many didn't.
- But is there a database that holds those lenses?
- 13 Yes, there is. Are there a database that holds that number
- 14 of customers? Yes, there is. Does the database hold how
- 15 much they bought, how much they purchased, how much they
- 16 owe, how many -- how much money they received, how much
- 17 commission they have had? All of these things have been
- 18 taken care of.
- 19 Where is the location? It has it a -- it has a
- 20 place for location. It has a place to determine what kind
- 21 of commissions are determined for that particular sale and
- 22 that particular contract. It is also affixed to that same
- 23 database location. Now, that should take care of the
- 24 database.
- 25 Q. Has RaPower3 ever paid rent to any customer for

Page 82

- 1 use of a lens?
- 2 A. Yes. I guess they have because that one lady got
- 3 some money
- 4 Q. Okay. So we saw that check to Patricia Lambrecht;
- 5 right?

20

- 6 A. Yeah.
- 7 Q. Has any other customer other than Patricia
- 8 Lambrecht been paid for rent for use of a lens?
- 9 A. No, they haven't.
- 10 Q. Has any customer ever been paid by RaPower3 for
- 11 using the customer's lens for advertising purposes?
- 12 A. Now, see. This is a number. This is like the
- 13 tenth time you've asked this question from the first day,
- 14 yesterday, and today. The answer is still the same. No.
- 15 Are we just wasting my time? Are we just looking
- 16 for ways of dragging this thing out because you're -- you're
- 17 looking at how much money I can spend? Is this -- is this
- 18 what we're looking at here?
- 19 Q. Object to responsiveness after "no."
 - Mr. Johnson, has RaPower3 ever paid any customer
- 21 for use of its lens in research and development?
- A. No, for about the fifteenth time. I'm asking you
- 23 again: Are you just doing this to waste my time being here?
- 24 If you have legitimate questions that you have not asked, I
- 25 would appreciate that you consider my time. My time is

- 1 valuable as well as yours, and I'd like you to have it
 - 2 considered that way. Thank you.
 - 3 Q. Object to the responsiveness of the answer after
 - 4 "no."

- 5 (Exhibit 542 marked.)
- 6 Q. (BY MS. GALLAGHER) Would you please take a look at

Page 83

- 7 Plaintiff's Exhibit 542 and let me know when you're done.
- 8 A. Sure.
 - Q. For the record --
- 10 A. Okav.
- 11 Q. -- Plaintiff's Exhibit 542 is Bates marked
- 12 Ra3-14137.
- 13 A. Okay.
- 14 (Peruses document.)
- 15 Q. Do you recognize Plaintiff's Exhibit 542?
- 16 A. I don't.
- 17 Q. I will represent that your former counsel produced
- 18 this to us. It appears to be a RaPower3 document. Do you
- 19 see that at the top?
- 20 A. I do.
- 21 Q. It says Money Transferred And Expenses For
- 22 International Automated Systems. Did I read that correctly?
- 23 A. It is
- Q. And here we see that RaPower3 has made savings
- 25 transfers to IAS. Do you see that?

Page 84

- 1 A. Okay. Yes.
 - 2 Q. "Yes?"
 - 3 A. Yes, I do.
 - 4 Q. Do you have any idea why RaPower3 was paying IAS
 - 5 this money in 2011?
 - 6 A. Yes. I think at this time they were -- there were
 - 7 some holdovers from who was actually doing work and who
 - 8 wasn't on the -- on the lenses from the transfer of the
 - 9 Cobblestone Center between the two companies. And if you
 - 10 look at -- if you'll look at my International Automated
 - 11 Systems accounts, they would have an accounting of all those
 - 12 transactions. I do not have them and I don't know what they 13 are.
 - 14 Q. So it's your testimony that RaPower3 was paying
 - 15 IAS for the activity that now RaPower paid Cobblestone for?
 - 16 A. That is correct. It looks to me there was a
 - 17 transition period where there were some expenses that had
 - 18 not been paid and needed to be paid, but I am not positive
 - 19 of that. You would have to look at the actual accounting
 - 20 documents of International Automated Systems and to locate
 - 21 those particular transactions on that document to see how
 - 22 that document would have handled that transaction and how it
 - 23 disbursed that money into the various accounts that it was
 - 20 disbursed that moriey into the various accounts that it was
 - 24 to go to.
 - 25 (Exhibit 543 marked.)

Rapower3 30(b)(6) Pages 81 - 84

- Q. (BY MS. GALLAGHER) Showing you, sir, what's been
- 2 marked Plaintiff's Exhibit's 543 Bates marked Ra3-12657. Do
- 3 you recognize Plaintiff's 543?
- A. I do not.
- Q. So this appears to be another RaPower3 document
- 6 showing Money Transferred And Expenses For International
- Automated Systems. Did I read that correctly? 7
- 8 A. Yes, you did.
- 9 Q. If we take a look down the last third of the line
- 10 items, or so, there's a line item that says IAS for May 18,
- 11 2012. Do you see that?
- 12 A. Okay.
- 13 Q. It says "Order Lenses." Do you see that?
- 14 A. Yes.
- Q. And that's for \$107,000. Do you see that? 15
- 16 A. Okay. I do.
- Q. So at least as of 2012, RaPower3 was ordering 17
- 18 solar lenses through IAS; correct?
- 19 A. Yes. There's a reason for that.
- 20 Q. And why is that?
- 21 A. It's because the relationship with the company
- 22 that produces the lens was still with IAS at that particular
- 23 time and hadn't been -- the relationship hasn't been
- 24 developed through Cobblestone and with that company. And in 24
- 25 order to get the prices, there -- there's a contract that no

- 2 A. No, they do not.
- 3 Q. Then why would RaPower3 be paying Cobblestone to
- A. That's part of the total cost of the lenses. The
- 6 lenses that go to RaPower is not -- they're not -- they're
- 7 not wholesale to RaPower. RaPower pays for those lenses at
- 8 a retail price. They don't get a discount for buying those
- 9 lenses. They purchase those lenses from another entity.
- 10 That entity, other entity, sets the price that
- 11 RaPower pays and then out of that RaPower then takes out
- 12 their cost involved in the transaction, but they do not own
- 13 the lenses. They do not -- they cannot distribute those
- 14 lenses without someone else's permission, and they cannot
- 15 determine what price they will pay for those lenses.
- 16 Q. Who is going to own the towers that Cobblestone
- 17 erects?
- 18 A. I don't own them. I don't know. I haven't
- 19 decided it.
- 20 Q. You don't know who owns the towers?
- A. I don't know. I haven't decided how that's going 21
- 22 to work.
- 23 Q. Then why should RaPower3 pay to put them up?
- A. I just told you that they -- that RaPower pays for
- 25 the lenses -- out of the -- out of the money that pays for

Page 86

- 1 one else can buy those lenses because IAS holds the
- 2 intellectual property rights to that. And the plastic
- 3 company has -- has -- can only release that product to the
- 4 person that IAS designates through a contractual agreement.
- 5 That contractual agreement has not been completed in the
- 6 transactions.
- 7 Q. Where is a copy of that contract between IAS and
- 8 Plastoid?
- A. I don't know if there's a contract, but I know
- 10 there's a verbal at least that that's the reason why it's
- 11 done. You can't -- no one else can go in and buy those
- 12 lenses.
- 13 Q. Do you have any idea who created Plaintiff's
- 14 Exhibit 542 and 543?
- 15 A. I have no idea.
- Q. Where are the accounting records that would show 16
- 17 money flowing between RaPower3 and IAS?
- A. Well, I imagine -- I imagine it will be on their 18
- 19 accounting records. On both International Automated Systems
- 20 accounting records as well RaPower accounting records.
- 21 We're very -- we're very particular about how the money is
- 22 spent and where it's spent to.
- 23 Q. And my question is where are those records stored?
- 24 A. I think both sets are in my house now.
- 25 Q. Mr. Johnson, is RaPower3 going to own the towers

- 1 the lenses, then the company that owns the lenses has a
- 2 right, the entity with the money, how they choose.
- Q. But don't customers own the lenses?
- 4 A. They purchase the lens. They don't own the money
- 5 that they put into the money. You're asking about the
- 6 money. You're not asking about the lenses. If you're
- 7 asking about the lenses, yes, the customer owns that, but
- 8 they do not own the money after they purchased it.
- 9 Q. I don't understand what you just said.
- 10 A. You don't understand business? Is that what
- 11 you're telling me?
- Q. Sir, you've testified that customers own lenses --12
- 13 A. Yes.
- 14 Q. -- yes?
- 15 A. And the money doesn't -- the money that they pay
- 16 is not owned by the customer. They purchase -- they
- 17 purchase the lenses from someone. The person that -- that
- 18 eventually that that purchase goes to owns the lenses and
- 19 the lenses then are bought by RaPower. They do not -- are
- 20 not owned by RaPower through -- directly from any company.
- 21 They have to pay a certain price. There's a market on
- 22 anything that's being sold.
- 23 Q. So let's --
- 24 A. That markup goes -- doesn't go to RaPower.
- 25 RaPower does not make any money.

Page 89 Page 91 Q. Okay. Help me understand, because we have someone Q. I'm going to cut you off --2 who buys a lens today --2 A. -- bought there and --

- 3 A. Okay.
- 4 Q. -- that pays RaPower3 \$3500; correct?
- A. That's right. And then RaPower pays \$3,000 or
- \$3200 to someone else for that lens. 6
- 7 Q. And who does RaPower3 pay 3,000 or \$3200 to?
- 8 A. It may be Numis, it may -- it may be --
- 9 Q. Sir --
- 10 A. -- DL16, it may --
- 11 Q. I'm not saying who --
- 12 A. -- be a variety of --
- Q. I'm not asking who --13
- A. The transaction --14
- Q. -- might it be. 15
- 16 A. -- has not been completed yet.
- Q. Sir, I object to the responsiveness of the answer. 17
- 18 I'm not asking who RaPower3 might pay. I'm asking who
- 19 RaPower does pay.
- 20 A. And I haven't made up my mind yet and that's what
- 21 I'm telling you. And that's my right as the operator and
- 22 manager of all the companies. I have the right to choose
- 23 who I purchase and who I designate as the purchaser and who
- 24 owns those plants. It can be from any company I choose. I
- 25 can designate Numis, I can -- I can designate Blacknight, I
 - Page 90
- 1 can designate Solco1. That's my choice. That isn't a
- regulation or a statute determined by the United States
- 3 government, and if you try to do that, you're going to be in
- 4 very much trouble.
- 5 I have a right to operate my business the way I
- 6 choose. That is not your right, nor the government's right,
- 7 and I -- I -- I'm insulted by the insinuation that you have
- 8 that right.
- 9 Q. Sir, I'm just trying to understand where the money 10 goes.
- A. No, you're not. You're trying to tell me how I 11
- 12 should operate my business. If you want to know what I did,
- 13 I just told you. If you're going to insult me and tell me I
- 14 don't know what I'm doing, I don't care. That is not part
- 15 of the regulations that I have to be the most brilliant
- 16 businessman in the world to operate a business. There are a
- 17 lot of stupid people out there that operate businesses.
- 18 That's not a rule or a regulation, nor is it against the
- 19 law. If you choose to think that stupid, that's up to you.
- 20 Q. Mr. Johnson --
- A. But I'm telling you how I do it, and I do not like 21
- 22 being badgered with a question. If you want the answer, ask
- 23 me and then stop badgering me about -- about the answer.
- 24 Q. Mr. Johnson --
- 25 A. I told you that the system is --

- 3 Q. -- sir.
- 4 A. -- bought there and bought there.
- 5 Q. We're not gonna do this today. We're not gonna do 6 this today.
- 7 A. All right. Then don't be -- don't be going there.
- 8 Q. Sir, you need to answer my questions.
- 9 A. Don't be calling me stupid and don't insult me.
- 10 Q. Sir, I have done neither of those things.
- 11 A. Yes, you have.
- MS. GALLAGHER: Do we need to take a break, 12
- 13 Mr. Snuffer?
- 14 THE WITNESS: No. You need to ask a question in a
- 15 civil manner and I'll give you a civil answer.
- MR. SNUFFER: Okay. Well, let's -- let's start over 16
- 17 with listen to the question and answer only the question
- 18 that gets asked, and let's -- let's see --
- 19 THE WITNESS: And don't argue about how I should run my
- 20 business. I'll tell you how to run it --
- MS. GALLAGHER: Should --21
- 22 THE WITNESS: -- and you can put it down.
- 23 MS. GALLAGHER: -- we take a break?
- 24 MR. SNUFFER: Yeah. Maybe we should.
- 25 MS. GALLAGHER: Five minute, please.
- 2 Q. (BY MS. GALLAGHER) All right. We just took a

(Ten-minute recess taken.)

- 3 short break, Mr. Johnson. Did you talk to anybody about the
- 4 facts of the case on the break?
- 5 A. No. I just got chewed out is all. He's being --
- 6 so.

1

- Q. And do you need to change or supplement any of the 7
- 8 answers to my questions that you've given so far today?
- 9 A. No.
- 10 Q. So before the break we were talking about
- 11 RaPower3's payments, and I'd like to revisit that because I
- 12 want to understand if today a customer makes a payment to
- 13 RaPower3, because customers do write checks to RaPower3;
- 14 correct?
- 15 A. Correct.
- 16 Q. Okay. When a customer writes a check to
- 17 RaPower3 --
- 18 A. Okay.
- 19 Q. -- what does RaPower3 do with that money, if
- 20 anything?
- 21 A. Okay. Let's put it in a different context. Okay.
- 22 I've owned several businesses, one being a grocery store
- 23 business.
- 24 Q. Sir, no.
- 25 A. And --

Rapower3 30(b)(6) Pages 89 - 92

2

Q. No. That's not -- I'm gonna object to the

2 responsiveness. What does RaPower3 do with the money it

- 3 receives from customers?
- A. When I owned a grocery store business I bought
- 5 a --
- 6 Q. Sir, I'm gonna object to the responsiveness. I
- 7 want to know what RaPower3 does with money from customers.
- 8 That's the only thing I want to know in response to that
- 10 A. That's not what you asked. Read what she asked.
- 11 Would you do that first question? Can you please (to the 12 reporter).
- 13 MS. GALLAGHER: Please read the question (to the
- 14 reporter).
- 15 (The question was read as follows:
- 16 "Q Okay. When a customer writes a check to
- 17 RaPower3, what does RaPower3 do with that money,
- if anything?") 18
- THE WITNESS: Okay. 19
- Q. (BY MS. GALLAGHER) And I'll ask this: Does 20
- 21 RaPower3 deposit that check into a bank account?
- 22 A It does
- 23 Q. Okay. Then RaPower3 uses the money in RaPower3's
- 24 bank account to pay expenses; correct?
- 25 A. Then -- the word then tells me how I'm running my

- Page 94 1 business. Now, if you're gonna ask the question, ask the
- question, but don't use the word then as telling me what I'm
- 3 doing.
- 4 Q. Well, if I'm wrong, please correct me.
- 5 A. No. I'm just asking you if you're gonna ask a
- 6 question, what does -- "then" implies that you are -- that
- you are telling me how to run -- run the bank account.
- 8 Q. Sir, I'm simply trying to understand --
- 9 A. And I'm not answering to the word then.
- 10 Q. -- how things work.
- 11 A. And I'm trying to tell you and you won't listen.
- 12 Q. I'm not interested in a grocery store.
- 13 A. You won't understand the other because if you
- 14 don't understand the basic concept of a business, how am I
- going to be relevant with the answer in RaPower to where you
- 16 would understand it or you wouldn't make a confusion to
- 17 someone else that you were talking to.
- 18 Q. I'm gonna object to the responsiveness of the
- 19 answer.
- 20 A. I'm not gonna allow you to -- to me to answer a
- 21 question that you can make --
- 22 Q. Sir, there's no question --
- 23 A. -- in a way that you don't understand it.
- 24 Q. There's no question pending.
- 25 A. I know, but I'm still not going to let you do

Page 93

1 that. Q. You testified earlier that Ra3 -- RaPower3 makes

- payments to Cobblestone Center; correct?
- A. They do, yes.
- 5 Q. And those payments are for Cobblestone Center to

Page 95

- 6 manufacture and construct what?
- A. They're to the construction process so that they
- 8 have a place to put the lenses.
- 9 Q. So Cobblestone --
- 10 A. And, also, they put the lenses into frames and
- 11 they then put the lenses onto the construction for the
- 12 purpose of them being able to focus the light into one
- 13 particular area.
- Q. And you testified that you have not decided who
- 15 will actually own the towers that Cobblestone Center
- 16 constructs?
- 17 A. I think that's my right.
- 18 Q. Is that correct; that you have --
- 19 A. That is correct and it's my right.
- 20 Q. Fine.
- 21 A. Okay. Then I don't want an argument with it.
- 22 Q. I just want to understand.
- 23 A. Okay. That's fine.
- 24 Q. I show you what's been Plaintiff's Exhibit 70A
- 25 that's 70-A. For the record, it's Bates marked

Page 96

- 1 Shepard_Greg-295-296.
 - 2 A. (Peruses document.)
 - 3 Q. Do you recognize this document, sir?
 - 4 A. I don't, but I assume that somebody wrote it for
 - 5 me. I may have wrote it myself. I don't know. But go
 - ahead and ask the question.
 - Q. So take a look, please, at this document. Read it 7
 - quietly to yourself.
 - 9 A. Okay.
 - 10 (Peruses document.)
 - 11 Okay. What can I --
 - Q. Does Plaintiff's Exhibit 70A accurately reflect 12
 - 13 RaPower3's system?
 - A. I believe it does. On the date that this was 14
 - 15 issued I believe it's accurate.
 - 16 Q. Okay. Okay. You can put that aside.
 - 17 A. Okay.
 - 18 (Exhibit 544 marked.)
 - Q. (BY MS. GALLAGHER) Plaintiff's Exhibit 544 is 19
 - 20 marked Shepard Greg 302. Take a look at that document,
 - 21 please, and let me know when you're done.
 - 22
 - 23 Q. Do you recognize Plaintiff's Exhibit 544?
 - 24 A. No. I've never seen it before.
 - 25 Q. The RaPower3 logo is in the lower left-hand

3 Q. And if we look up at the top left-hand corner, the	3 Q. But there's another option that a customer could

10 A. That's correct.	10 Q. So in that instance a customer would pay \$105 per

20 A. Okay.	20 Q. So with the 10 percent program notion that we see
	21 at the top left of page Ra3-15863, the subsequent list of
	22 names through to the very top of Ra3-15874 are people who,
,	23 in fact, paid that 10 percent of the down payment; correct?
23 Q. Do you recognize Plaintiff's Exhibit 545?	24 A. I would assume that would be accurate.
24 A. I do not.	
25 Q. If you want to take a look at the names, does this	
Page 98	Page 100
1 appear to be a list of RaPower3 customers?	1 A. I mean, I don't have any way of knowing or not
2 A. It appears that. But like I said, I've never seen	2 knowing, but I would assume you're right.
3 it before, so.	3 Q. That appears to be correct per this document;
4 Q. Does this look like something that would have been	4 right?
5 produced from the computer program we talked about earlier?	5 A. That is the way I'm reading it, but that doesn't
6 A. Yes, uh-huh.	6 make it so. But, yes, I I agree with you that's what it
7 Q. And, in fact, the top header says "RaPower3;"	7 appears to be, okay?
8 right?	8 Q. If we take a look at page Ra3-15874
9 A. Right.	9 A. Okay.
10 Q. And then on the upper left-hand side under the	10 Q there's a header there that says "Time
11 headers it says "10% Program," correct, on the first page?	11 Program."
12 A. Uh-huh.	12 A. Okay.
13 Q. "Yes?"	13 Q. What does that mean?
14 A. Yes.	14 A. I would assume that it had to do with a payment
15 Q. And that sounds like the 10 percent commission	15 structure to pay from the 10 percent of a down payment to
16 program we talked about earlier; right?	16 complete the total transaction.
17 A. No.	17 Q. So do I understand, sir, that someone could pay 10

- 3 Q. So if anyone is going to change the payment
- 4 structure, it's you; correct?
- 5 A. That is correct.
- 6 Q. Do you have any idea who generated Plaintiff's
- 7 Exhibit 545?
- 8 A. No. I don't know who did. I have no idea.
- 9 Q. Do you know who --
- 10 A. It could have probably been my wife, but I -- I'm
- 11 not going to say that because I don't know.
- 12 Q. Do you know from what records this was generated?
- 13 A. I'm not positive because it doesn't have the
- 14 database that I could refer to listed on that, but I would
- 15 assume that it would come out of our bookkeeping program.
- 16 Q. Do you have any idea what Plaintiff's Exhibit 545
- 17 was created for?
- 18 A. I do not know.
- 19 Q. Mr. Johnson, I believe we touched on this on
- 20 another day, but my question for you is it appears that
- 21 RaPower3 purchased IAS stock during fiscal year 2016. Is
- 22 that correct?
- 23 A. That is correct, yes.
- 24 Q. Why did it do that?
- 25 A. I felt like it would be a prudent way to -- to

- 1 Q. Lagree.
- 2 A. Okay. If you want to know did I do it? Yes. If
- 3 you want to see that if I've lost money, that's a
- 4 possibility, and that's a possibility to take whenever you
- 5 invest money anyplace. I don't even know --
- 6 Q. Sir, my question to you is before buying this IAS
- 7 stock, was that 3-plus million dollars sitting in a bank
- 8 account belonging to RaPower3?
- 9 A. Yes, it was. At that particular time it had -- it
- 10 has no earmarks on it. It will have is what I'm telling
- 11 you. When you buy -- when you buy something and sell it,
- 12 there's a space between the time you sell it and the time
- 13 you pay for it. That's the normal way you do business.
- 14 From the time that I used to by grocery stores,
- 15 I'd hold millions of dollars in a bank account. I could do
- 16 what I want with that until the payment is due upon the
- 17 product, and when the product is due, I can then take the
- 18 money out of a savings account, an investment account, and
- 19 then I could purchase the product. It's my choice.
- 20 (Ms. Gallagher and Ms. Hines confer.)
- 21 Q. (BY MS. GALLAGHER) Handing you what's been marked
- 22 Plaintiff's Exhibit 117.
- 23 A. Okav.
- Q. Please take a look at that exhibit and let me know
- 25 when you're ready to answer questions.

Page 102

- 1 move the money into an account that would be more productive 1
- 2 than just sitting in a bank.
- 3 Q. It looks like -- and if you want to refer, I'm
- 4 looking at Plaintiff's Exhibit 507.
- 5 A. Okay.
- 6 Q. If you take a look at page 35.
- 7 A. (Witness complies.)
- 8 Okay.
- 9 Q. It looks to me, on this table, like the total
- 10 price RaPower3 paid for IAS stock was \$3,077,839.
- 11 A. Okay.
- 12 Q. Is that your understanding as well?
- 13 A. If that's what it says, that's what it was, yes.
- 14 Q. So that's how much RaPower3 paid to IAS for stock?
- 15 A. Looks like it, yes.
- 16 Q. Okay. And I believe you just testified that you
- 17 wanted a more productive use of this money --
- 18 A. That's right.
- 19 Q. -- than sitting in a bank account?
- 20 A. That's correct. Are you going to challenge my
- 21 reasoning in my business decisions?
- 22 Q. Sir, I'm just trying to understand.
- 23 A. No, you're not. You're -- now, see, you're --
- 24 you're accusing me of making a poor business decision. And
- 25 whether I did or whether I didn't, it's still my decision.

- 1 A. Okay. Okay. What's the guestion?
- 2 Q. Okay. Let's take a look at the middle of the page
- 3 where it says "Very Important." Do you see that?
- 4 A. Okay.
- 5 Q. It says -- the second sentence says "I have been
- 6 authorized to tell you the following three points."
- 7 Did I read that correctly?
- 8 A. Okay. Where -- "Very Important?"
- 9 Q. Okay. The second sentence after "Very
- 10 Important" --
- 11 A. Okay.
- 12 Q. -- says "I have been authorized to tell you the
- 13 following three points." Do you see that?
- 14 A. It wasn't authorized by me.
- 15 Q. Well, my question to you is this is an email from
- 16 Greg Shepard; correct?
- 17 A. I don't know. Let's see. To who?
- 18 Q. It's from Greg Shepard; correct?
- 19 A. Right.
- Q. Okay. So did you authorize Greg Shepard to share
- 21 the following three points with RaPower --
- 22 A. Hell, no (laughing).
- 23 Q. Let me finish the question, sir.
- 24 A. Okay.
- 25 Q. Did you authorize Greg Shepard to share any of the

Page 104

- 1 following information with RaPower3 team members?
- 2 MR. SNUFFER: I'm gonna object for lack of foundation,
- 3 but go ahead and answer.
- 4 THE WITNESS: No. I haven't ever authorized Greg
- 5 Shepard to do such a stupid thing. My gosh.
- 6 Q. (BY MS. GALLAGHER) Mr. Johnson, once you learned
- 7 about the audits that the IRS was undertaking, what, if
- 8 anything, did you do to talk with Greg Shepard or coordinate
- 9 a response for RaPower3 team members?
- 10 A. I never coordinated a response with RaPower --
- 11 with Greg Shepard to do any kind of interactions with any of
- 12 the team members. If I remember right, I've had a
- 13 discussion with him and told him that I would hire an
- 14 attorney to take care of that situation, and then as the
- 15 people got -- got an audit, that he would tell them that
- 16 this was available to them and that they could -- that he
- 17 would respond to the IRS.
- 18 I wouldn't even do it myself. I'm not a tax
- 19 expert, I'm not -- I don't claim to be. I've never -- I've
- 20 never instructed anybody to do a particular thing in an
- 21 audit, I have never instructed anybody to do a particular
- 22 thing with their taxes, I have never told anybody that I was
- 23 a professional in tax bills, that I was -- that I knew
- 24 everything about taxes. I said I would talk to my attorney,
- 25 I would have an attorney then talk to those people, and he

- 1 A. Okay.
- 2 Q. Okay. Plaintiff's Exhibit 467 appears to be an

Page 107

Page 108

- 3 email from Greg Shepard. Do you see that?
- 4 A. Yes, uh-huh.
- 5 Q. And the subject line is RaPower3 Memo Approval
- 6 Requested?
- 7 A. Okay.
- 8 Q. Do you see that?
- 9 A. Uh-huh.
- 10 Q. "Yes?"
- 11 A. Yes.
- 12 Q. And Mr. Shepard sent it to Glenda Johnson at
- 13 Mrs. Johnson's email address; is that right?
- 14 A. That's correct.
- 15 Q. Did -- did Mr. Shepard often ask for your approval
- 16 on items that he would send out to people?
- 17 A. Yeah, at a time when he knew doggone well he would
- 18 get it (laughing). Among things he wouldn't, he knew he
- 19 wouldn't get it, I didn't get anything.
- Q. So do I understand you correctly to say that if
- 21 Mr. Shepard thought that he would get your approval, he
- 22 would seek it?
- 23 A. Yeah.
- Q. But if he didn't think he would get your approval,
- 25 he would not seek it?

Page 106

- 1 could instruct them on any kind of a situation that they
- 2 needed to do at my expense.
- 3 But myself, I did not get involved in visiting
- 4 with or instructing anybody or teaching them how to take --
- 5 I've never been audited before. I wouldn't even know what 6 an audit was.
- 7 Q. Did Mr. Shepard report to you any --
- 8 A. No, he did not.
- 9 Q. Let me finish the question.
- 10 A. Sorry.
- 11 Q. Did Mr. Shepard report to you any information
- 12 about customers that were being audited?
- 13 A. Yes. And I would turn them over to Paul Jones or
- 14 he would turn them over to Paul Jones. But I never
- 15 contacted anybody directly or authorized anybody that wasn't
- 16 a tax professional to contact anybody on any subject that
- 17 had to do with taxes.
- 18 Q. Okay. But --
- 19 A. That is the stupidest thing I could think of.
- 20 Q. And you said that you allowed Mr. Shepard to
- 21 contact Paul Jones with information about customers under
- 22 audit; is that right?
- 23 A. I think so, yes.
- Q. Okay. Show you what's been marked Plaintiff's
- 25 Exhibit 467.

- 1 A. Of course. That's why he's got so many stupid
- 2 things. Yeah. That's the way it worked. If you want to
- 3 get more testimony on the subject, I'll get you a whole
- 4 bunch of people.
- 5 Q. Mr. Johnson, did you ever give Greg Shepard the
- 6 title of Chief Director of Operations?
- 7 A. No (laughing). No.
- 8 Q. You're aware that he has used that title?
- 9 A. He's used more than that. He's probably been
- 10 president of IAS a time or two. I don't know.
- 11 Q. When did you first learn that he was using the
- 12 title Chief Director of Operations for RaPower3?
- 13 A. I don't know. It's been a while ago, of course,
- 14 but I -- I don't know.
- 15 Q. Did you take any action to stop him from doing
- 16 that?
- 17 A. No. I told him that he wasn't, but I didn't do
- 18 anything more than that.
- 19 Q. Do you recognize the name Roger Freeborn?
- 20 A. Yes, I do.
- 21 Q. Roger Freeborn, I believe you said, was one of the
- 22 original salespeople for RaPower3.
- 23 A. I believe so, yes. Yeah.
- 24 Q. Are you aware that Roger Freeborn used the title
- 25 RaPower3 National Director?

1 A. No. I wasn't aware of that, no.

2 Q. Is Roger Freeborn still a salesperson for

- 3 RaPower3?
- 4 A. I don't think so, no.
- 5 Q. Do you know why not?
- 6 A. I don't remember exactly, but it seemed like there
- 7 was a problem that arose. I chose to break our
- 8 relationship. But whether he has continued to sell or not,
- 9 I -- I really don't know. But it was my understanding that
- 10 there was a problem and he was doing something and I -- that
- 11 I felt would be detrimental, and I said -- I thought I
- 12 severed relationships with him. But I don't know whether he
- 13 understood it that way or whether he didn't, but there was
- 14 no written documentation on it, so.
- 15 Q. How did you get the understanding that
- 16 Mr. Freeborn might have been doing something detrimental?
- 17 A. It was just lately. I thought -- I thought he
- 18 hadn't been doing anything, and somebody said that he was,
- 19 and so I -- but I never checked up. I couldn't tell you for
- 20 sure one way or the other.
- 21 Q. What do you think he was doing?
- 22 A. Well, lately he's probably been selling, but I
- 23 don't know that for a fact. I don't know. But there was a
- 24 time when there was an issue of something. I don't remember
- 25 what the issue was, but there seemed like there was an
 - Page 110

- 1 issue.
- Q. You don't remember why you severed relations with
- 3 Roger Freeborn?
- 4 A. Well, I just -- I don't really know, but there was
- 5 a problem that arose, and over some issues I think, and I
- 6 don't know what it was. I can't remember. But I thought
- 7 that we had severed some relationships, but I don't keep a
- 8 grudge very long and I forget, so.
- 9 Q. So you don't recall asking Greg Shepard to
- 10 terminate Roger Freeborn?
- 11 A. Well, I may have -- I may have done that. That's
- 12 what I'm saying. That's how we severed -- maybe severed our
- 13 relationship. But I don't know whether it was completed or
- 14 whether or not they -- that whether Greg decided that he
- 15 would change his -- change my mind and do it without me
- 16 knowing it, you know, and reestablished relationships. I
- 17 don't know. I am -- I'm very busy and concentrated on the
- 18 areas that are much more important to me than that.
- 19 (Exhibit 546 marked.)
- 20 Q. (BY MS. GALLAGHER) Please take a look at
- 21 Plaintiff's Exhibit 546 and let me know when you're ready.
- 22 It's Bates marked Jameson-2259 through 562.
- 23 A. (Peruses document.)
- 24 Okay.
- Q. Do you recognize Plaintiff's Exhibit 546?

- 1 A. Yes, uh-huh.
 - 2 Q. What -- what is it?
 - 3 A. It is a placed-in-service letter.
 - 4 Q. It's a few placed-in-service letters; correct?
 - 5 A. Correct, uh-huh.
 - 6 Q. And you signed all of these; right?
 - 7 A. I did.
 - 8 Q. On behalf of RaPower3?
 - 9 A. I did.
 - 10 Q. Let's take a look at the last page which is
 - 11 Jameson-22565.
 - 12 A. (Witness complies.)
 - 13 Okay.
 - 14 Q. And the first paragraph says "This letter is
 - 15 regarding the Alternative Energy Systems that you purchased
 - 16 from RaPower3, LLC."
 - 17 A. Okay.
 - 18 Q. Did I read that correctly?
 - 19 A. Correct. Yeah.
 - Q. And Alternative Energy Systems means lenses;
 - 21 correct?
 - 22 A. Yes, uh-huh.
 - 23 Q. The next sentence says "RaPower3 put into service
 - 24 your equipment for 25 solar lenses on or before December 31,
 - 25 2013." Did I read that correctly?

Page 112

Page 111

- 1 A. That's correct.
- 2 Q. What did RaPower3 do to put into service 25 solar
- 3 lenses that Mr. Shepard bought?
- 4 A. Would have authorized Cobblestone, or at that time
- 5 it probably would have been Cobblestone to do that, or
- 6 International Automated Systems, but they would have done it
- 7 themselves.
- 8 Q. You just said that RaPower3 would have authorized
- 9 Cobblestone to do that?
- 10 A. To put in -- to put in -- to put the lenses into
- 11 service, yes.
- 12 Q. And what I'd like to know is what does that mean
- 13 to you? What does it mean to put a lens into service?
- 14 A. Well, I think it means what it says in the
- 15 McConkie document letter, and I think that we followed -- we
- 16 followed the directions that were given to us by Burnell
- 17 that worked for the McConkie law firm.
- 18 Q. Okay. So the Kirton McConkie letter or
- 19 memorandum, rather, was written in October 2012.
- 20 A. Okay.
- 21 Q. So did you have an understanding before October
- 22 2012 of what placed in service would mean for any lens?
- 23 A. Well, I'm sure that I did, but I'm saying that
- 24 that's -- that's the information that we relied upon and
- 25 that's the -- that's the relationship that -- what I placed

- 1 in service before I think has the same -- the same caption
- 2 right here (indicating), and so we probably validated our
- 3 position by having access to either the Anderson letter or
- 4 the McConkie letter. Either one. Or the Hansen CPA letter
- 5 before then.
- 6 So if you're looking at all three letters that we
- 7 had available to us, I think we complied with the
- 8 information that we had acquired to facilitate this letter.
- 9 Q. Okay. I think I'm understanding that the source
- 10 for your information about the legal requirements for
- 11 something to be placed in service come from three sources
- 12 that you've identified; Hansen Barnett & Maxwell, the
- 13 Anderson letter, and the Kirton McConkie memorandum.
- 14 A. Plus my own -- my own work in studying the tax 15 codes.
- 16 Q. Okay.
- 17 A. Okay?
- 18 Q. Any other source for the legal requirements?
- 19 A. Probably any other CPAs I've talked to. But, yes,
- 20 we relied upon people that I felt like understood that
- 21 particular issue.
- 22 Q. And by we, you mean you?
- 23 A. Yeah. Yeah. Sorry about that. That I -- that I
- 24 anticipated that they would have a clear understanding of
- 25 the law and understand exactly how the law operated.

Page 114

- 1 Q. So I understand the -- the legal information that 2 you had at the time.
- 3 A. That's good. Okay.
- 4 Q. What are the actual action that RaPower3 took to
- 5 put into service Greg Shepard's solar lenses?
- 6 A. The one -- the ones I just told you about. We
- 7 implemented the information that we received from all those
- 8 sources. And by implementing the items that -- that we
- 9 understood, we then met the requirements in doing something
- 10 with the lenses that would be required by the information
- 11 that we got.
- 12 Q. So, Mr. Johnson, is it your testimony then that by
- 13 a customer having signed an operation and maintenance
- 14 agreement to lease their lenses to LTB, a customer -- a
- 15 customer's lenses were thereby placed into service?
- 16 A. It was my understanding from the letter that we
- 17 followed the letter. And if you want a legal -- I'm not
- 18 qualified to give you the legal requirements or give you
- 19 legal advice on that -- on that. We followed -- we feel
- 20 like we followed legal advice in producing this letter and
- 21 did exactly what was required and probably more.
- 22 Q. Right. And my question to you is --
- 23 A. But -- but --
- 24 Q. -- what was required of you. What was required of
- 25 you in order to be able to issue this letter?

1 A. I'm not -- I'm not qualified to -- to give you the

- A. I'm not -- I'm not qualified to -- to give you tr
- 2 law of what -- of what the law is or isn't to you.
- 3 Q. I'm just trying to understand.
- 4 A. And I just did what I did.
- 5 Q. So what did you do?
- A. I told you we followed the letter. If you want to
- 7 get out the letter and read it, that's what we did.
- Q. What actions, sir, did you take? I understand
- 9 you're not a lawyer. I understand. I want to know what
- 10 actions RaPower3 took to put lenses into service.
- 11 A. I told you we followed -- we followed what the
- 12 letter told us to do, and we did exactly that.
- 13 Q. What did the letter tell you to do?
- 14 A. I don't have the letter. I'm not going to try and
- 15 repeat the letter to you because I would get it -- it's not
- 16 something you could paraphrase well. It isn't something you
- 17 paraphrase because if you do that, you'll leave out a major
- 18 portion of the law.
- 19 MR. SNUFFER: If you're looking for the letter, I have
- 20 a copy of it that I could put in front of him if you want.
- 21 MS. GALLAGHER: I'm good. Thank you.
- 22 THE WITNESS: She doesn't trust you, Denver.
 - (Pause in the proceedings.)
- 24 (Exhibit 547 marked.)
- 25 Q. (BY MS. GALLAGHER) Mr. Johnson, please take a look

Page 116

Page 115

- 1 at Plaintiff's Exhibit 547. This does not have Bates
- 2 numbers on it, but I'll represent to you that it was
- 3 downloaded from RaPower3.com.
- 4 A. Okay.
- 5 Q. Please read Plaintiff's Exhibit 547 to yourself,
- 6 and let me know when you're ready to answer questions about
- 7 it.

9

23

- 8 A. (Witness complies.)
 - And where did you get this from?
- 10 Q. As I said, I downloaded it. It was downloaded
- 11 from RaPower3.com.
- 12 A. Okay. So what is the question?
- 13 Q. Have you read the entire document, sir?
- 14 A. Well, I read it enough to know what it is, yes.
- 15 Q. It also has a back page.
- 16 A. Okay.
- 17 (Peruses document.)
- 18 Okay.
- 19 Q. Okay. Let's talk about the first page.
- 20 A. Okay. All right.
- 21 Q. Is the first page of Plaintiff's Exhibit 547
- 22 consistent with your understanding of how placed in service
- 23 works here?
- 24 A. No. And -- and this isn't -- this is not a legal
- 25 document and it's not something I wrote or prepared.

- 1 Q. I'm just asking you if this is consistent with
- 2 your understanding of what --
- A. I prefer -- I prefer, if I'm going to answer a
- 4 question concerning the placed-in-service letter, that I get
- 5 the -- the legal document that I referred to. If you're
- 6 asking me whether or not this reflects something that I
- 7 would think would be made -- would meet those qualifications
- 8 or not, I would say I don't know. I would prefer to look at
- 9 the legal documents presented by the -- the attorneys and
- 10 the -- the accountants.
- 11 Q. So, sir, you did not write Plaintiff's Exhibit
- 12 547?
- 13 A. No, I did not.
- 14 Q. Do you know who did?
- 15 A. No, I don't. Do you want me to guess?
- 16 Q. No.
- 17 A. Okay.
- 18 Q. Showing you, sir, what's been marked as
- 19 Plaintiff's Exhibit 473.
- 20 A. Okay. Yes. All right.
- 21 (Peruses document.)
- Q. Plaintiff's Exhibit 473 is an email from Greg
- 23 Shepard. Do you see that?
- 24 A. Yes, uh-huh.
- 25 Q. Please take a look at this document, review it,

Page 118

- 1 and let me know when you're ready to answer questions.
- 2 A. (Witness complies.)
- 3 Okay.
- 4 Q. Would you take a look, please, at page
- 5 ShepardGreg-337.
- 6 A. 377?
- 7 Q. Yes.
- 8 A. Okay.
- 9 Q. You're looking at it?
- 10 A. Okay.
- 11 Q. So it's the first full paragraph on that page
- 12 where it says "The placed-in-service letter is regarding the
- 13 Alternative Energy Systems that you purchased from RaPower3,
- 14 LLC. RaPower3 put into service your equipment."
- 15 Did I read that correctly?
- 16 A. Yes, uh-huh.
- 17 Q. How might Greg Shepard have known that RaPower3
- 18 put into service customers' lenses?
- 19 A. I'm not going there. I have no idea how he would 20 know that.
- 21 Q. Did you, Mr. Johnson, tell Mr. Shepard about your
- 22 understanding of what placed in service means?
- 23 A. I'm sure I did. There's no question about that.
- 24 Q. When did you first tell him about that?
- 25 A. The first time I got the understanding of it I may

1 have told him, but I also told him I was not an attorney.

- 2 Q. And when did you first talk to Mr. Shepard about
- 3 what placed in service might mean?
- A. I can't remember. I wouldn't have any idea.
- 5 Q. Was it before or after 2010?
- 6 A. It was probably before 2010.
- 7 Q. Before or after 2005?
- 8 A. It'd probably be closer right around 2006-2007,
- 9 but I don't know for sure. But I never promoted myself as a
- 10 legal expert, neither a CPA or a tax preparer or an
- 11 attorney, tax attorney.
- 12 Q. Mr. Johnson, to your knowledge, did Greg Shepard
- 13 sign placed-in-service letters on behalf of RaPower3?
- 14 A. I don't think so. He may have done, but I -- I
- 15 don't think he did. He wouldn't be authorized to do such a
- 16 thing.
- 17 Q. So you understand that Greg Shepard may have
- 18 signed placed-in-service letters on behalf of RaPower3?
- 19 A. I don't know. I have no way of knowing that.
- 20 Q. Mr. Johnson, was one of your -- I think you
- 21 actually said that the grocery store had an address of 326
- 22 North Highway 6.
- 23 A. Did I say that? Was it South or North?
- 24 Q. I don't remember. What was the address?
- 25 A. I don't know. I think it's 326 North Highway 6.

Page 120

- 1 It could be South.
- Q. Could you point towards the court reporter,
- 3 please. It's hard for her to hear you.
- 4 A. Oh. I'm sorry. It's -- I think it was 326 North
- 5 Highway 6, Salem, Utah. I think it was 8426. I can't
- 6 remember now what I said. 82462, something like that.
- 7 Q. And another address of yours was 4035 West 4000
- 8 South, Delta, Utah; correct?
- 9 A. That is correct, yes.
- 10 Q. Mr. Johnson, I'd like to show you again
- 11 Plaintiff's Exhibit 531 and 532.
- 12 A. Okay.
- 13 Q. We talked about those yesterday. Do you remember
- 14 that?
- 15 A. Okay. Vaguely.
- 16 Q. And you said that you did not create marketing
- 17 materials for RaPower3, but other people did. Is that
- 18 right?
- 19 A. I don't remember saying it quite like that, but --
- 20 because I have in the past developed material that later was
- 21 implemented into brochures and other things, but -- so I'm
- 22 not sure if I did say that. I'm not sure why I would say
- 23 that. But I don't -- but I -- I have not personally really
- 24 developed a lot of the material. Did I say -- didn't I say
- 25 I did this one?

Page 121 Q. Oh, yeah, uh-huh. Well, my -- I -- just wanted

2 to --

1

- 3 A. But I just said that this was -- this particular
- 4 item was not at the marketing -- it was -- it was passed
- 5 around to see how people liked the idea in concept. I don't
- 6 know where the marketing material that went with this is and
- 7 whether or not I did it or didn't.
- Q. Well, my question to you is to your knowledge, did
- 9 other people create marketing materials for RaPower3?
- A. Oh, I think so. Yeah. I believe they did. 10
- Q. And to your knowledge, did they do that with 11
- 12 information that you had given them?
- A. Yes. I would hope they would. 13
- Q. And that information had to do with the sales
- 15 structure for RaPower3?
- A. That's -- that's true. I'm the only one that 16
- 17 could have developed the information for them to develop and
- 18 me to go over that with them.
- 19 Q. And RaPower3 marketing materials have also
- 20 included information about the tax benefits from buying the
- 21 lens; correct?
- 22 A. Yes. There is certain information that we do.
- 23 Whether or not I had done every word in it or not, I
- 24 wouldn't -- I wouldn't think that'd be the case, but -- and
- 25 some people may have done some marketing material where they

2 would -- I would rely upon the people that were involved to

A. Not -- not -- not to hold in my memory. I

Page 123

- 3 make that determination. And if they -- if they brought him
- 4 up in that -- in that context and they said that they
- 5 were -- that I was, then I would believe that I was.
- Q. Who are the people that would be involved with
- whether you were paying Richard Jameson's legal fees? 7
- 8 A. It would probably be Paul Jones would be the one
- 9 that I would rely upon.
- 10 Q. So would you be relying on Paul Jones to advise
- 11 you on whether to pay his legal fees or . . .
- A. I would hope that he would advise me on what was
- 13 going on and then we could determine whether or not we
- 14 wanted to be involved in his -- his predicament, if he was
- 15 in a predicament, how -- how we would approach that on a
- 16 legal basis.
- 17 Q. Mr. Johnson, yesterday and earlier we looked at
- 18 Plaintiff's Exhibit 23A. Do you remember that?
- 19 A. (Peruses document.)
- 20 Okay.
- 21 Q. Do you remember that?
- 22 A. Yes. I remember it.
- 23 Q. Did you obtain Plaintiff's Exhibit 23A as the
- 24 manager of RaPower3?
- 25 A. I don't know. I wouldn't -- I would probably have

Page 122

- 1 interjected their own interpretation of things. But,
- clearly, I was involved in -- in the outline and the general
- 3 concept of the marketing material.
- This I didn't do. I don't believe I did this one. 4
- 5 but I can't remember. I could have done it, but I don't
- 6 remember doing it.
- Q. So do you recognize the name John Howell? 7
- 8 A. Just vaguely. It does ring a bell, but I'm not 9 positive.
- 10 Q. Do you have any -- any idea who he is or what he 11 does?
- 12 A. Not without some reference point. If you could
- 13 give me an idea of something about him, I may be able to
- 14 recognize.
- 15 Q. Do you recall if you've ever met him?
- A. Again, without some kind of a reference, it would 16
- 17 be difficult for me to determine that.
- Q. What about the name Richard Jameson? 18
- A. I've heard the name. I don't know exactly -- I 19
- 20 don't know that I met him. I may have, but without having
- 21 some reference, again, I really don't know how to tie -- tie
- 22 him together with me.
- Q. Do you have any understanding about whether you 23
- 24 are paying his legal fees for any response he might be
- 25 making in this case?

Page 124

- 1 obtained it for myself rather than for RaPower3, so I'm not
- 2 sure of -- of why they put RaPower3 customers on here,
- 3 because this isn't something I disseminated out to my

4 RaPower3 customers at all. So this would be something that

- 5 I would have gotten for myself that made sure that I was
- 6 following as closely as I can with all the legal
- 7 requirements of the statutes that were written would have
- 8 allowed me to do.
- 9 But this was never posted on, wasn't allowed to.
- 10 From my understanding, it would be something I would use for
- 11 the RaPower sales material.
- 12 Q. So who, if anyone, did you share that letter with?
- 13 A. Well, I may have shared it with other -- with
- 14 people and let them read it.
- 15 Q. Like who?
- 16 A. Well, Greg and probably Roger and my kids and
- 17 other people, but.
- 18 Q. So Greg Shepard, Roger Freeborn, Randy Johnson and
- 19 LeGrand Johnson?
- 20 A. They could have read this, but --
- 21 Q. Anyone else?
- 22 A. I don't know. I mean, I don't remember how many
- 23 people I would have shared it with. But it wasn't something
- 24 for to get a sale with. I didn't sell -- I didn't give this
- 25 to Greg Shepard to sell him some equipment; okay? It wasn't

- 1 sale material for me to use. I wouldn't use it that way.
- 2 (Exhibit 548 marked.)
- 3 Q. (BY MS. GALLAGHER) Showing you, Mr. Johnson,
- 4 what's been marked as Plaintiff's Exhibit 548 which, for the
- 5 record, is Ra3-11818 to 20. Please take a look at that and
- 6 let me know when you're done.
- 7 A. Okay. I'm done.
- 8 Q. Do you recognize Plaintiff's Exhibit 548?
- 9 A. It's not something I've seen, really, myself. It
- 10 might have been shown to me earlier, but this is nothing 11 that I wrote.
- 12 Q. We see the RaPower3 logo up at the top left-hand
- 13 corner, correct --
- 14 A. Yeah.
- 15 Q. -- of the first page?
- 16 A. Yes, uh-huh.
- 17 Q. And then the text on this web page -- oh. And
- 18 we'll just take a walk-through. So in the upper right-hand
- 19 corner of each page we see the prefix for the RaPower3.com
- 20 website. Do you see that?
- 21 A. I do.
- 22 Q. At the bottom right-hand corner of these pages the
- 23 date is January 22, 2011, at 5:59 p.m.; is that correct?
- 24 A. Where are you looking at the date?
- 25 Q. The bottom right-hand corner of the page

Page 126

- 1 (indicating) --
- 2 A. Okay.
- 3 Q. -- is January 22, 2011, at 5:59 p.m. Do you see
- 4 that?
- 5 A. Right, uh-huh.
- 6 Q. And then the text of this web page is very, very
- 7 close to the text of Plaintiff's Exhibit 23A, if not
- 8 identical; correct?
- 9 A. I haven't read it word for word, but it appears
- 10 that you're correct.
- 11 Q. Okay. Do you have any idea how the Anderson
- 12 letter got online at RaPower3.com?
- 13 A. No. And I'm not -- I'm not saying that what was
- 14 in here was not accurate or either accurate or either
- 15 illegal for people to disseminate this information for
- 16 personal use. What I'm saying is I personally would not use
- 17 this for sales material, and the reason why I wouldn't use
- 18 it for sales material is it -- it -- I only use -- as I --
- 19 as I quoted you the other day, I only -- I only want these
- 20 kind of materials used with people that are involved in.
- 21 Businesses that -- that realize the implications of what
- 22 they're reading are digested properly in a way that would
- 23 not overexcite them into believing that you could -- that
- 24 this is a reason to purchase an item.
- 25 And so I would prefer -- I prefer not to use this

1 material because it could have unduly influenced an

- 2 individual to purchase something without seeking a CPA's or
- 3 someone that was close to them that had the legal status to
- 4 give them advice on that particular subject. It's not that
- 5 it was illegal. I just felt that on my side it was a little
- 6 bit immoral for me to use this to entice a sale, and that's
- 7 why I told everybody that I didn't want this out.
- 8 And I -- I told everybody, when I -- when I gave
- 9 this, I said, and I didn't give this reason and I didn't go
- 10 into the reasoning because I thought people could think on
- 11 their own that this would be something that would maybe --
- 12 to entice people to do something without having to go to a
- 13 professional individual to actually determine their
- 14 particular status in the tax law.
- 15 So when you're saying, well, is this a bad thing?
- 16 No, it isn't. People should be able to understand and read
- 17 this. Can they? Some people could and some people can't.
- 18 I don't determine that. But from my own standpoint, I
- 19 prefer to undersell an item rather than to oversell it, and
- 20 so in that -- in that respect I would prefer to enter into a
- 21 dialogue that a person could understand and then give them
- 22 information upon what I felt like they could comprehend and
- 23 what they could not comprehend and how the best way to use
- 24 that information.
- 25 Q. So Mr. --

Page 128

Page 127

- 1 A. So this, for that reason, it's not that it's
 - 2 illegal and it's not that it's probably immoral. It's just
 - 3 that I particularly think that it would be something that I
 - 4 felt like that would unduly influence an individual to take
 - 5 action that I would prefer them not to.
 - 6 Q. So did you tell Greg Shepard not to give the
 - 7 Anderson letter --
 - 8 A. I did. I told -- I didn't know this was even on
 - 9 there until the raids, and they came down and told me about
 - 10 it being on there. And I said I have no -- I had no idea
 - 11 that was out there.
 - 12 Q. So what, if anything, did you do as RaPower3 to
 - 13 make Greg Shepard take it off the internet?
 - 14 A. I asked him to remove it, but I don't know whether
 - 15 he did or whether he didn't. I didn't check up on that.
 - 16 But I -- but I told him that -- and it wasn't because it was
 - 17 illegal or there was something wrong with the information
 - 18 being disseminated in that way. I mean, you could go to the
 - 19 law -- to the tax books and you could read exactly the same
 - 20 thing. Anybody can do that.
 - 21 Q. Sir, I'm gonna object to the responsiveness of the
 - 22 answer because my question to you was did you require Greg
 - 23 Shepard to remove it from the internet?
 - 24 A. Right. But you implied that I felt like it was
 - 25 illegal --

- Q. Sir --1
- 2 A. -- and I didn't.
- 3 Q. -- my only question is whether you required Grea
- 4 Shepard to remove it from the internet.
- 5 A. I asked him to. I didn't -- I didn't say anything
- 6 beyond that.
- 7 Q. Showing you what's been marked Plaintiff's Exhibit 480. 8
- 9 A. Okay.
- 10 Q. And we talked about this --
- 11 A. Okay.
- 12 Q. We talked about this document earlier this week,
- 13 and my question to you is did you, as RaPower3, ever receive
- 14 this document?
- A. I have never received this document as any -- any 15
- 16 entity myself, the CEO of International Automated Systems or
- RaPower3, LTB, or any other entity. This letter has never
- been in my possession and I have never seen it. If I had a
- done, there would have been a lawsuit filed.
- 20 Q. Why would there have been a lawsuit filed?
- A. Because this is not the truth. And he would have 21
- 22 been -- he would have been in -- he's in serious trouble
- 23 over this, by the way. That is going -- he is going to get 24 a lawsuit.
- 25 Q. You're going to sue Todd Anderson?

Page 130

- A. Definitely. 1
- 2 Q. Why is that?
- 3 A. Because this is improper procedure of doing
- 4 business and you should never have gotten this. This should
- 5 have been a client privileged information from Todd Anderson
- 6 to me personally not to be disseminated in this way. And
- 7 because of that, he's going to get sued and the damages are
- 8 going to be horrendous. Because you'd think a little
- country pumpkin down in Fillmore should have known that
- (laughing). I'm afraid that he should have, and he's gonna
- 11 wish that he had.
- 12 (Pause in the proceedings.)
- 13 Q. Mr. Johnson, what, if anything, did you tell
- 14 Mr. Shepard about the 1603 Grant program?
- 15 A. Just what was available to me from the government.
- Q. And what was that information? 16
- A. I'm not positive what it was, but I know that I 17
- 18 told him about it, about what the government was offering.
- 19 Q. Did you tell him that the solar energy technology
- 20 at issue in this case had been approved for a 1603 Grant?
- A. I may have used those words, but -- and it was, 21
- 22 according to my understanding, as long as I -- as long as I
- proceeded according to the documents that Dave Nelson gave
- 24 me, and Dave Nelson told me if I complied with the
- 25 information that he received, that I would be able to

1 qualify for the continuation of the project as outlined by

Page 131

Page 132

- 2 the 1603 of the grant program.
- Q. So did you ever comply with the requirements for
- 4 the 1603 program?
- 5 A. I applied for the initial 5 percent and that's
- 6 what we indicated in all the drawings and all of the
- 7 other -- and -- and the -- and the data on the equipment and
- 8 the lenses and the turbine and the means for erecting the
- 9 equipment.
- 10 Q. Do you have any records of your having complied
- 11 with the requirements for the 1603 program?
- A. I only have -- I don't keep those on. Dave Nelson 12
- 13 would be the only one that would have those.
- 14 Q. So you think that if this technology qualified for
- 15 a 1603 Grant, your attorney, David Nelson, would have such
- 16 records?
- 17 A. Yes, he would, and we did qualify. We sent them
- 18 the information indicating what kind of equipment would be
- 19 used, and we showed them the drawings that they -- that we
- were gonna implement in -- in erecting the equipment, and
- 21 they said it would qualify if I met the other requirements
- 22 of being able to construct the equipment before the deadline
- 23 was -- was there. And they had no problem with any of the
- 24 equipment.
- 25 Q. Did you, in fact, construct the equipment before

2 A. I did not, no.

1 the deadline?

- 3 (Exhibit 549 marked.)
- 4 Q. (BY MS. GALLAGHER) Mr. Johnson, you've been handed
- 5 what's been marked Plaintiff's Exhibit 549, Bates No.
- 6 Greg P&R-772. Please take a look at this email and let me
- 7 know when you are done.
- 8 A. Okav.
- 9 Q. Is the information in this email from Greg Shepard
- 10 consistent with information you may have given him about the
- 11 Treasury Grant program?
- 12 A. It may -- it may. There may be some inaccuracies,
- 13 but on the whole this was the information that the -- the
- 14 grant program offered and, as far as I understood, we were
- 15 given a letter to proceed. That we could -- we were
- 16 authorized to proceed with the project with the equipment
- 17 outlined in the drawings and the information that was given
- 18 to whoever was authorized to receive this information. Did
- 19 I authorize this to go out to people? No.
- 20 (Exhibit 550 marked.)
- 21 THE WITNESS: What in the hell. Okay. I didn't know
- 22 that. I didn't know we was charging \$12,500 to participate
- 23 in the program.
- 24 Q. (BY MS. GALLAGHER) Would you please take a look at
- 25 what's been marked Plaintiff's Exhibit 550. Bates No.

- 1 Greg_P&R-13 -- no -- 1738.
- 2 A. But this would never have to do with RaPower
- anyway, but I don't understand what he was doing.
- Q. Sir, directing your attention to Plaintiff's
- 5 Exhibit 550.
- 6 A. I apologize. Okay.
- 7 Q. Please go ahead and read that email and let me
- 8 know, to yourself, and let me know when you're ready.
- 9 A. (Witness complies.)
- 10 Okay.
- 11 Q. I'm interested in the last paragraph starting "As
- 12 of last Friday."
- A. Okay. 13
- 14 Q. Is the information in this paragraph consistent
- 15 with information that you may have given Greg Shepard about
- 16 the Treasury Grant program?
- 17 A. Yes. He may have asked about it and I probably
- 18 told him that we've had -- we've developed the 600 trusses
- 19 and that had to be delivered to the site.
- 20 Q. For the 1603 program?
- A. For the 1603 program, yes. But did I ask him to 21
- 22 disseminate that information? No. But that's what it is.
- 23 The people, if they did invest, that'd be dumb. They
- 24 wouldn't get a tax credit (laughing). I wouldn't believe
- 25 anybody would do it (laughing). I doubt anybody did it. I

 - 1 can't -- I don't know anybody who'd ever do it. It'd be the
 - silliest thing in the world to do. If somebody would have
 - 3 came and asked me about it, I would have said what, are you
 - 4 nuts.
 - Q. Handing you what's already been marked Plaintiff's
 - 6 Exhibit 43, this is a long one, but go ahead and read this
 - to yourself, please. Let me know when you're done.
 - 8 A. Let's see.
 - 9 (Peruses document.)
- 10 It's pretty light.
- 11 (Peruses document.)
- 12 Okay. So what do you want me to do with this one?
- 13 Q. Mr. Johnson, has what Mr. Shepard written here in
- 14 Plaintiff's Exhibit 43, is that consistent with your
- understanding of what the tax laws are that are applicable
- 16 to purchasing lenses?
- A. No, they're not. I don't -- as far as what you're 17
- 18 looking at, the participation agreements, there are things
- 19 that I wouldn't necessarily agree with, and I've never
- 20 indicated that I ever did agree with those things. So I
- 21 don't know what they are.
- Q. Did you ever talk to Mr. Shepard about what
- 23 material participation means for purposes of Internal
- 24 Revenue laws?
- A. No, because I didn't think it was that ever

- 1 relevant to the -- to the depreciation. The depreciation
- 2 didn't come from the purchase of the lenses for the purpose
- 3 of putting them into a solar energy product. That isn't
- 4 where -- isn't what I was advised on and it wasn't something
- 5 that was in -- that I would have ever -- I would have ever
- 6 told anybody about because I didn't think it was applicable.
- 7 Q. What was applicable to the question of whether a
- lens could be depreciated?
- 9 A. Well, there again, you're talking about a legal --
- 10 legal requirement that I don't have the ability to respond
- 11 to.

15

- 12 Q. I'm just asking for your understanding.
- 13 A. I know, but you'll trap me and then I'll be
- 14 trapped like a little mouse in a trap.
 - Q. What's your understanding?
- 16 A. If you want to go off the record, I can tell you.
- 17 Well, what it is is the fact that the letter, and I -- and
- 18 I'd have to read the letter to make sure that I'm accurate
- 19 on this because it's been a long time, but it was to be
- 20 used -- the equipment was to be used in -- in -- for
- 21 research and development. And we went through nearly, I
- 22 don't know, 15,000 lenses in and out of those towers with
- 23 different lenses and different ownerships in the lenses that
- 24 produced its heats from different points in time. And my
- 25 understanding was that research and development is a
 - Page 136

- 1 commercial application, and that is the Tax Code and a 2 statute.
- 3 And from -- and my understanding of a CPA's tax,
- 4 when you write your tax dollars out, that you can depreciate
- 5 things based upon what you do and in -- in research and
- 6 development as a business for the purpose of developing new
- 7 technologies, which we do. And we can prove we have because
- 8 of the patents that we've been issued.
- 9 In the process of that, we can lease equipment or
- 10 rent equipment or pay somebody to be able to use their
- 11 equipment. Once we do that, we're -- those people then are
- 12 able then to consider that a business -- a business on
- 13 their -- on their part so that they may then take a
- 14 depreciation when that is used in that -- for that purpose.
- 15 And whether or not they do or whether they don't, I've never
- 16 talked to anybody like this on their -- on their part. I've
- 17 always referred to them to go to your accountant and explain
- 18 with this information and see how they felt about it.
- But that is my understanding of -- of depreciable 19
- 20 property. And I didn't take the depreciation on it, so it
- 21 was available to the person that I was paying to use their
- 22 equipment for that purpose, and so they were actively
- 23 involved in the business as far as that goes.
- 24 Now, that's my understanding. That's, I think,
- 25 what the tax opinion letter was closely relating to. I

- 1 didn't quote it word for word and so you can't, you know, if
- 2 I would have said it to someone, I would have -- I would
- 3 have said here's what I've -- here's the letter, you read
- 4 it. Take it to your -- take it to your tax CPA person and
- 5 see what they say.
- 6 Q. Where did you get this understanding?
- 7 A. From the, I think, McConkie letters and things
- like that and other places in the Tax Code.
- 9 Q. Who, if anyone, did you talk to about this to come 10 to this understanding?
- 11 A. Probably NATP, CPAs and attorneys and tax
- 12 attorneys and other accountants and friends that were
- 13 accountants and just anybody that would listen to me. Not
- 14 many people listen to me very long though. They always say
- 15 what you do. I don't want to listen to you anymore. But
- 16 that's what I do.
- 17 Q. Other than individuals that you have named so far
- 18 today, yesterday, the day before, are there any other names
- 19 of people that you can give me that you talked to about
- 20 this?
- 21 A. I don't really know, but I would have -- I'm very
- 22 thorough. I do my homework on all things I get involved
- 23 with and I'm very thorough on -- on getting the information
- 24 out, thinking about what the information is that I'm trying
- 25 to -- to comprehend. I then disseminate that information to

1 photo attached) 150 towers ready to install, and 15,000,000

Page 139

Page 140

- 2 in the bank." Did I read that correctly?
- A. You probably read it correctly, but it's not
- 4 accurate, so.
- 5 Q. To your recollection, around November 2012 did the
- 6 manufacturing plant have 21,000 lenses in inventory?
- 7 A. It had more than that. Closer to 34,000, but then
- 8 we don't know -- I don't know -- I wouldn't have known -- I
- 9 wouldn't have known that figure. Because we probably could
- 10 have used 10,000 lenses during that period of time in the
- 11 R&D procedures out at the -- out at the site.
- 12 Q. And --
- 13 A. But he wouldn't have known that. Nobody would
- 14 have known how many lenses I have, nor would they know how
- 15 many towers I had ready. Nobody would know how much money I
- 16 have in the bank.
- 17 Q. So you don't know where Mr. Shepard might have
- 18 gotten this information about 150 towers ready to install?
- 19 A. I do not know that.
- 20 Q. In November 2012 did RaPower3 have \$15,000,000 in
- 21 the bank?
- 22 A. No, it did not.
- 23 Q. Did IAS have \$15,000,000 in the bank?
- 24 A. No.
- 25 Did any other entity over which you have control

- 1 someone else and ask what their understanding of the
- 2 information is. I see whether it coincides with the
- 3 information that I received. And in most cases I'm -- I'm
- 4 fairly accurate on what I've been able to do in my life. I
- 5 have a number of patents to prove it, so. But that's what I 6 do.
- 7 (Pause in the proceedings.)
- 8 Q. So, Mr. Johnson, tying together a couple of things
- that we've talked about in the last couple of days -- I'll 10 withdraw that.
- Showing you what's been marked Plaintiff's Exhibit 11
- 12 141. Would you take a look -- you're welcome to look
- 13 through the whole document, Mr. Johnson, but I actually have
- 14 questions about an email that's the first one on the first 15 page.
- 16 A. (Peruses document.)
- 17 So what's the purpose of this?
- Q. I have a question for you on the first email on 18
- 19 the first page.
- 20 A. Okay.
- Q. If you want to turn back to the first page, 21
- 22 please.
- 23 A. Okay.
- 24 Q. The first sentence of the first email reads "The
- 25 manufacturing plant has 21,000 lenses in inventory, (see

- 1 that relates to solar energy technology have \$15,000,000 in
- 2 the bank?
- 3 A. No.
- Q. All right. I'm handing you, Mr. Johnson, what's
- 5 been marked as Plaintiff's Exhibit 504. Please take a look
- 6 at Plaintiff's Exhibit 504 and let me know when you're done.
- 7 A. (Witness complies.)
- 8 Okay.
- 9 Q. Do you recognize Plaintiff's Exhibit 504?
- A. No, not really. It probably is -- they probably 10
- 11 handed it to me, but I would have not ever opened it up and
- 12 looked at it.
- Q. Well, let's take a walk-through. The first page 13
- 14 of 504 is an email from Greg Shepard. Do you see that?
- A. Okay. 15
- Q. "Yes?" 16
- 17 A. Yes. I see it, yes.
- Q. And then attached to that email appears to be a
- 19 booklet called RaPower32012 National Convention. Do you see
- 20 that?
- 21 A. I do.
- 22 Q. And I believe you just said Mr. Shepard may have
- 23 handed you this booklet at some point?
- 24 A. It may have been. I don't remember having it.
- 25 Q. Nonetheless, I believe we talked earlier that, in

- 1 fact, RaPower3 had a national convention in 2012.
- A. No, they didn't. This was Greg Shepard's Ra 2
- 3 convention, not RaPower-3's. He put on several conventions
- 4 of his own as a RaPower salesperson to develop sales, but
- 5 this was never authorized by RaPower3 to do. He didn't --
- 6 he did it on -- he asked me to be there. The fact is I just
- 7 was in the hospital on that very day getting an operation
- 8 and I came up to the -- the next day. I can't remember
- 9 exactly when.
- 10 It was just the day before I had a major operation
- 11 because of a motorcycle accident, and I was just out of the
- 12 hospital when he asked me to come up and address the people,
- 13 and I did, but I was in -- I was in terrible shape, I
- 14 believe.
- 15 Q. When did he first ask you to address the
- 16 convention?
- A. I don't know that -- I don't know that's true or 17
- 18 not, but -- but it seemed like when I did -- when they had
- 19 this national convention, I was in -- I just came out of the
- 20 hospital on one of them. I don't know if this is the one.
- 21 But one of them I did, and I just came out of an operation,
- 22 so
- 23 Q. So do you recall or do you not recall when
- 24 Mr. Shepard asked you to participate in the national
- 25 convention?

Page 142

- A. Well, he probably asked me earlier to participate 1 2 in the convention, but.
- 3 Q. Do you think, like, a month before, couple months
- 4 ago?
- 5 A. It could have been a month, could have been six
- 6 months before.
- 7 Q. Uh-huh.
- 8 A. And I didn't have any reasons why I wouldn't have
- 9 complied with his request.
- 10 Q. Did you tell him --
- A. But I didn't request him to do this. 11
- 12 Q. Did you tell him not to do it?
- 13 A. Well, no. No, I wouldn't, and I don't see
- 14 anything wrong with it, but it's just not something that I
- 15 did. I mean, I think he's good in some areas. I think he's
- 16 very good in some areas. That's why I like him and keep him
- around. But some areas he's not so great. It's just like
- everybody else. Everybody has their upsides and downsides.
- 19 Q. What areas do you think Mr. Shepard is good at 20 doing?
- A. He's a great people person. I'm not. I believe. 21
- 22 I believe he's better at working with people than I am. You
- 23 probably noticed that yourself. And maybe I'm not the best
- 24 people person, you know, in the world, you know.
 - Q. Do you think he's a good salesman?

A. Well, he's probably a lot better than I am. But

- 2 in some ways I'm better in some areas and I do very well in
- 3 some areas, but I wouldn't -- I wouldn't have ever put
- 4 something like this on. I never do.
- Q. If we take a look, please, at page Greg_P&R-2664.
- 6 A. Okav.
- 7 Q. Take a look at the convention schedule there.
- 8 A. Okay.
- 9 Q. And, for example, if we look at 10:30 a.m., the
- 10 topic is Break-through Technology No. 3, the Turbine.
- 11 A. Okay.
- 12 Q. And your name is at the end of that section. Do
- 13 you see that?
- 14 A. Right, uh-huh. Okay.
- 15 Q. Right. So does that mean that you were the
- 16 speaker about that topic?
- 17 A. I believe it was, yes.
- 18 Q. So if we look up above, it looks like your son,
- 19 Randy Johnson, is the one who talked about the evolution of
- 20 the solar lenses.
- 21 A. Right. I believe he did. I believe he asked
- 22 Randy. He was involved with it and he was around me a lot
- 23 during that period of time. And he is a -- he is a much
- 24 better people person than I am and he's much better at
- 25 interacting with people than I am. And both my sons are,
 - Page 144
- 1 actually. And I'm grateful for that. I mean, I'm not
- 2 unhappy about that. I just wish I would have -- I would
- 3 have been a little bit like those people in that area.
- Q. So let's turn, please, to the page number ending 5 in 2669.
- 6 A. Okav.
- 7 Q. This page has some text about the evolution of the
- 8 solar lenses. Do you see that?
- 9 A. Correct, uh-huh.
- 10 Q. Do you know where Mr. Shepard may have gotten this
- 11 information from?
- 12 A. Well, it looks like he must have got it from the
- 13 things that I wrote -- had written in the -- in the outlines
- 14 that I -- that I had done earlier.
- 15 Q. And if we take a walk through the pages ending in
- 16 2670 through 2680 --
- 17 A. Okay.
- 18 Q. -- do you believe the same is true for that text?
- 19 A. I believe so. Yeah, I believe that. I think that
- 20 information to be pretty well in line with what I had
- 21 written on the subject.
- 22 Q. And let's take a look, please, at the page ending 23 in 2681.
- 24 A. (Witness complies.)
- 25 Q. Which has the title Manufacturing and Construction

- 1 Plans --
- 2 A. Sure.
- Q. -- For 2012. 3
- 4 A. Okay.
- 5 Q. Do you see that?
- 6 A. I do.
- 7 Q. Take a look at the information here and let me
- 8 know -- let me know when you've read it.
- 9 A. Okay. What is it that you want to ask me about?
- 10 Q. I'm just curious if this is consistent with what,
- 11 if any, plans you may have had during 2012.
- A. Well, it would have been something that I would 12
- 13 have outlined to direct me to think along certain lines
- about the -- the possibilities of -- of where I would have
- constructed solar energy projects it looks like.
- 16 Q. So do you believe you drafted the text on the page
- marked 2681? 17
- 18 A. Oh, I didn't. I didn't draft this text, but I
- would have -- I would have -- I would have had an outline on
- a piece of paper somewhere.
- 21 Q. Like the text on this page?
- A. Right. But it wouldn't have been -- it may not 22
- 23 have been in this -- in this detail, but like it. The fact
- is the very last -- the very last paragraph I would never
- have done. I would never have tried to do this as a -- the

- 1 I would get involved with doing.
 - 2 I found a way to alternative -- an alternative to

 - 7 whether I get it from preselling power, see, the money

 - 10 whether I borrow money from the taxpayer, whether I borrow
 - 11 money from a bank, or whether I prepay -- presell power.
 - 12 So -- so what I do is I look at the best -- best
 - 13 way for me to handle the situation, and what we've been

 - 15 at preselling power for the down payments, because we
 - 16 have -- we have an operation that's very inexpensive to
 - 17 operate, therefore, I could presell two years of power and
 - 18 pay for my system without having any obligations other than
 - 19 to produce power.
 - 20 Q. So, sir, I'm gonna stop you there because I'm
 - A. Okav.
 - 23 Q. How are you preselling power?
 - 24 A. Well, they do it all the time.
 - 25 Q. No, no, no. Not -- no. How are you preselling

- 1 company. And No. 7 I never -- I -- I never liked PPAs
- because they -- they're only -- a PPA is a hard thing to
- 3 negotiate when you're negotiating something that's gonna
- 4 cost them more than they can get power from someone else.
- 5 And I -- most of the time I think it's a waste of time to
- 6 try it, but it's not something that I'm -- that I'm trying
- 7 to -- it limits your markets to a very, very narrow market.
- 8 That's why I never have -- have worked toward a
- power purchase agreement situation. Because all of -- all
- 10 of the -- all of your people that get these are doing it
- 11 because they're trying to get some financing from some
- 12 people to participate in your program. And in order to do
- 13 that, it's just like -- it's just like the PPI -- or the
- 14 Delta Power project. In order to get that power project up,
- they would have had to get a PPI -- PPA from Los Angeles to
- last them 30 years or so to get the 4 or \$5 billion it took
- to build that plant, because they had to get all the loans
- in place in order for that to take place.
- 19 They then would have had -- they would have had to
- 20 do a EPA on the entire -- entire project, including the land
- 21 that went from California to Utah, to put their lines up and
- 22 then get a EPA statement about the property they were
- 23 building their -- their property on. All of them take a
- 24 long time to do. Probably longer than it would take for the
- 25 tax credits to even run out. And so it's not something that

- 1 power?
 - A. I'm not. I'm getting ready -- I'm getting the
- 3 project ready so that that can be done that way.
- 4 Q. Have you ever presold power?
- A. No, I haven't. But that's not -- that's not what
- 6 I'm saying. I'm telling you that if I -- what I'm -- what
- 7 I'm -- what I'm developing is a better way to do energy, a
- less expensive way to do energy, and that's my goal.
- 9 Q. Object to the responsiveness of the answer after 10 "no."
- 11 A. Well, I'm just telling you that I would not have
- 12 wrote that and why I would have not done that last -- these
- 13 last paragraphs.
- 14 Q. Okay. So you didn't write those last couple of
- 15 paragraphs?
- 16 A. No. They're not mine.
- 17 Q. Thank you.
- 18 Showing you what's been marked Plaintiff's Exhibit
- 19 329. Please take a look at -- this is a series of emails
- and a photograph attached.
- 21 A. (Peruses document.)
- 22
- 23 Q. Plaintiff's Exhibit 329 is Greg_P&R-2202 through
- 24 2204.
- 25 A. Okay.

Rapower3 30(b)(6) Pages 145 - 148

Page 147

- - 3 do this. To me it doesn't matter where I borrow the money
 - 4 from on the tax credits, for example. I would have looked
 - 5 at -- I looked at it like this: Whether I get the money
 - 6 from a bank or whether I get it from an individual or

 - 8 coming in on to get the project is irrelevant where it comes
 - 9 from. I still have to pay it back. I have to pay it back

 - 14 doing is trying to develop the situation where we can look

 - 21 curious.
 - 22

 - - Page 148

- 1 Q. I'd like to take a look, first, at the last page
- 2 of the exhibit, Mr. Johnson.
- 3 A. Okay.
- 4 Q. Does the picture on the left page, to your
- 5 recollection, accurately reflect the state of the R&D site
- 6 in or around July 13 -- July of 2013?
- 7 A. That's not -- I don't believe that's accurate. I
- 8 don't think -- that picture's not accurate.
- 9 Q. No? Do you have an idea of when that picture
- 10 might have been taken?
- 11 A. Probably 2010-2011. I don't know for sure. But I
- 12 don't think that's accurate.
- 13 Q. I'm gonna draw your attention to --
- 14 A. But I don't have any way of knowing the exact date 15 on that.
- 16 Q. Okay. I'm gonna draw your attention to the first
- 17 page, last full paragraph on the first page.
- 18 A. The last full paragraph? Okay.
- 19 Q. It says "Hope all is well. Things are going
- 20 great. See the attached photo. It shows the solar disks
- 21 being raised. I think all 19 towers are now up. We are
- 22 just about ready to flip the switch. We have another 50 or
- 23 so towers out in the solar fields ready to have those holes
 24 drilled."
- 25 Did I read that correctly?

Page 150

- 1 A. (No audible response.)
- 2 Q. Did I read that correctly?
- 3 A. Oh. You read it fine, yeah.
- 4 Q. Do you have knowledge of, information about why
- 5 Mr. Shepard might have said, "We are just about ready to 6 flip the switch?"
- o hip the switch?
- 7 MR. SNUFFER: You said Mr. Shepard.
- 8 THE WITNESS: You'll have to ask --
- 9 MR. SNUFFER: This is Peter Gregg.
- 10 THE WITNESS: -- Mr. Shepard about that.
- 11 MS. GALLAGHER: We'll go off the record for a second.
- 12 (Discussion held off the record.)
- 13 THE WITNESS: But, in fact, we did make power when
- 14 those things were up, but when I -- when I showed it to you,
- 15 that would have been when we did it. I -- like I said, it
- 16 wasn't something we hadn't done, but I wouldn't have put it
- 17 -- I would never -- I would never put it out that -- a
- 18 statement like that.
- 19 The reason why I wouldn't -- why I don't do things
- 20 like that is because as the CEO of a public company, there
- 21 is -- there are dramatic consequences for talking about
- 22 things like that, and it wouldn't be something I would do
- 23 without -- without clarification, without disclaimers,
- 24 without an attorney being present. I just don't do that.
 - Q. (BY MS. GALLAGHER) I believe you just testified

Page 151

- 1 that you did, in fact, produce power in or around July 2013;
- 2 is that right?
- 3 A. Well, I don't know when the date of the letter
- 4 was, but I've been producing power for a long time, but the
- 5 date on the check indicates it was probably before then.
- 6 Q. Okay. So you're referring back to the check to
- 7 Patricia Lambrecht --
- 8 A. Right. We -- we -- we produced power a long time
- 9 ago. That wasn't an issue. Never was.
- 10 Q. And I'll ask: Do you have any documentation of
- 11 any of the times you have produced power?
- 12 A. I don't know. But we have and you'll just have to
- 13 take my word for it or not, but that's just the facts, so.
- 14 Q. Has anybody but you ever seen power produced?
- 15 A. Yeah. There's been a few.
- 16 Q. Who's that?
- 17 A. My boys and I think some of the people.
- 18 Q. Randy and LeGrand Johnson?
- 19 A. Uh-huh.
- 20 Q. "Yes?"
- 21 A. Right. And what I am going to do is I'm gonna try
- 22 and remember and get affidavits on that issue, so -- so --
- 23 but, yeah, I don't -- I don't have a problem with that. We
- 24 produced power in Mesquite, so yeah. It wasn't a problem
- 25 producing power. That wasn't the issue. Never was.
 - Page 152
- 1 Q. Showing you what's been marked Plaintiff's Exhibit
- 2 162.
- 3 A. Okay.
- 4 Q. Feel free to take a read of this, but I can point
- 5 you to the specific section with the question that I have.
- 6 A. (Peruses document.)
- 7 Okay.
- 8 Q. All right. My question is about the first line of
- 9 the second email which says "We should have 18 towers up and
- 10 running producing electricity going to a home and then on a
- 11 power line feeding Rocky Mountain Power in three weeks or
- 12 so."
- 13 Did I read that correctly?
- 14 A. Uh-huh.
- 15 Q. "Yes?"
- 16 A. (Nods head.)
- 17 Q. "Yes?"
- 18 A. Yes. I'm sorry. Yes. I apologize for that.
- 19 Q. Did you authorize Greg Shepard to make this
- 20 statement?
- 21 A. No, I did not.
- 22 Q. Any idea where he would have gotten any
- 23 information about that?
- 24 A. I don't know. I don't know what he does.
- 25 Q. Handing you what's been marked Plaintiff's Exhibit

- 1 71, please take a look at that and let me know when you're
- 2 done. Plaintiff's 71 is Bates marked ZELEZ_B&A --
- 3 A. Okay.
- 4 Q. -- 922 to 925.
- 5 A. Okay.
- 6 (Peruses document.)
- 7 Okay.
- 8 Q. Mr. Johnson, were you aware that Mr. Shepard sent
- 9 this email out to various people involved with RaPower3?
- 10 A. No. No, I did not.
- 11 Q. Did you authorize Mr. Shepard to send out such
- 12 documents?
- A. No. 13
- 14 Q. Handing you what's been marked Plaintiff's Exhibit
- 15 72 marked ZELEZ_B&A-942 to 943, please take a look at that
- 16 and let me know when you're done.
- A. (Peruses document.) 17
- 18 Okay.
- 19 Q. I'd like to draw your attention to the second full
- 20 paragraph that starts "Okay."
- A. Okay. 21
- Q. Have you read that paragraph? 22
- A. Okay. Yeah, I'm reading it, but go ahead. 23
- 24 Q. No. Go ahead and read it and then I'll ask my
- 25 questions.

- A. (Witness complies.) 1
- 2 Okay. So what do you want me to say?
- 3 Q. Okay. The third line says "The latest RaPower3
- 4 team members being audited have the guestions written down
- 5 in their first audit letter. Twenty-two questions in all.
- 6 Don't answer these."
- Did I read them correctly? 7
- 8 A. (No audible response.)
- 9 Q. Did I read those sentences correctly?
- 10 A. Yes, uh-huh.
- Q. Did you ever counsel Greg Shepard to tell RaPower3 11
- 12 customers not to answer the IRS's questions?
- 13 A. No, no.
- Q. Towards the end of the paragraph --14
- 15 A. Oh. Sorry.
- Q. That's okay. Third line up. 16
- A. Okay. 17
- Q. Mr. Shepard writes "You can also plead the 5th." 18
- 19 Did I read that correctly?
- 20 A. Okay (laughing). I'm sorry. I shouldn't laugh.
- Q. Did you ever talk with Mr. Shepard about RaPower3 21
- 22 customers pleading the 5th in response to IRS questions?
- 23 A. In an IRS audit I don't think so (laughing). He's
- 24 got more guts than I got.
- Q. So you never talked to Mr. Shepard about pleading

1 the 5th?

- 2 A. I'm -- I'm sorry. I shouldn't do that. It just
- 3 hit me in a funny way. No, I would not do that.
- Q. Showing you what's been marked Plaintiff's Exhibit
- 5 267.
- A. I'll say he's braver than I am. I don't know. 6
- Q. 267 is Bates marked GREGG_P&R-1994 through 1996. 7
- 8 A. Okay.
- 9 Q. Please take a look at that, including the photos,
- 10 and let me know when you're done.
- 11 A. Okay. Go ahead. What's the question?
- Q. Take a look, please, at the last page --12
- A. Okay. 13
- 14 Q. -- marked 1996.
- 15 A. Okay.
- 16 Q. Mr. Johnson, when we walked through the videos
- 17 from the site visit --
- 18 A. Right.
- 19 Q. -- I did not have a video that showed the
- 20 component that's attached to the back of this structure. So
- 21 what I would like to know from you is what's that gray box
- 22 connected to the structure?
- A. Okay. That's the -- that's the main transformer
- 24 that hooks up to the -- to the power grid. Or you could
- 25 either use it for an upload transformer or a download

Page 154

- 1 transformer. This was being used probably at this time as a
- 2 down -- a down voltage control or down voltage transformer,
- 3 and it's probably hooked into the house.
- Q. And back to the front page of 267, the second 4
- 5 paragraph of the email says "First Photo: The latest
- 6 available photo of the towers. The first project will
- 7 consist of 15 towers that will produce about 1.5 megawatts
- 8 for Rocky Mountain Power. We are almost done."
- 9 Did I read that correctly?
- 10 A. Yeah.
- 11 Q. Did I read that correctly?
- 12 A. Yes, you did.
- Q. So if you take a look, please, at the first photo 13
- 14 attached to 267 --
- 15 A. Right.
- 16 Q. -- does that photo appear to be a picture of the
- 17 R&D site in or around 2013?
- A. Like I said, I don't recollect exactly when the 18
- 19 photos were taken and I couldn't comment on that, but I did
- 20 have towers up and I did have this information, but the
- 21 dates are something that I don't -- the time just blends
- 22 together with me. It goes back way too fast.
- 23 Q. Is Mr. Shepard's statement about the first project
- 24 consisted of 15 towers, is that accurate?
- 25 A. Well, I think there's at least 15. It's probably

Page 155

- 1 closer to 19, but yes.
- 2 Q. And Mr. Shepard says there, "We are almost done."
- 3 A. Well, that's a subjective, you know, subject and 4 it's not something I could comment on.
- Q. Did you tell Mr. Shepard that the project was
- 6 almost done in or around October 2013?
- 7 A. I don't know. There's a lot of things that I
- 8 might say. And, like I said, what people -- if I'm working
- 9 on a project for -- for -- constant for 13, 12, 13 years and
- 10 I see a culmination of things coming together and you ask me
- 11 am I almost done, in considerations of where I'm looking at
- 12 and what I've accomplished and the number of patents that
- 13 I've -- that I did and all of the -- all of the work and I'm
- 14 looking at a point where I can't see forward, I can't see
- 15 whether or not there are other things that need to be
- 16 invented or changed, I could have said that we're almost
- 17 done. We're almost done with -- with a variety of things.
- But there -- there are -- it's -- it's impossible
- 19 to know ahead of time what you don't know, and so if I said
- yes, I feel like I'm almost done, I'm thinking I should be
- 21 able to purchase this, I should be able to get this and this
- 22 should work in this way, in a reasonable way that would --
- 23 that would fit in with my goals of producing electricity and
- 24 energy at a certain price point with the minimum amount of
- 25 labor and -- and overhead, I could have said yes, I -- yeah,
- 1 I'm done now that, you know, with -- with the -- and putting
- these new devices up and the new heat exchangers, and I
- 3 could have said yeah, I think I'm about done, but then I
- 4 find out later that there's something that needs to be
- 5 worked on, and I think that this one here lacked the
- 6 hydraulic turning mechanisms that I was not aware that we
- 7 even needed. And there was no way that I would have known
- 8 that other people's turning mechanisms would not work in the
- 9 way that they described.
- 10 And I found out that later that they did not work
- 11 in the manner. And I put them up and the gear system broke
- 12 because of the load and the wind structures and the way
- gears are developed and made. And the stresses that are
- 14 required to hold the gears in place on -- on the amount of
- 15 steel that intermeshes with the other gears is -- makes the
- gear system limited on its -- on its structural strength in
- the weight that we were looking at in the -- in the wind
- 18 load situations.
- 19 So then when we discovered that, I -- I then
- 20 developed a new turning mechanism which uses hydraulic
- systems that will hold 35, 50,000 pounds. And so that one
- 22 there -- and they're more accurate and they move smoother
- 23 and they're easier to control with less -- less vibration in
- 24 them and less -- and less chance for a harmonic situation to
- 25 become involved.

- And so from that standpoint when you're talking
 - 2 about inventing, see, you're saying okay, well, how do I
 - 3 know that I needed that. Because someone else told me they
 - 4 had something that would work, and it didn't, so I didn't
 - 5 know that. So, yes, I said a lot of times I think I'm about
 - 6 there where I think that now I can -- I feel like I can go

 - 7 in full production, and then from there I'll turn on the
 - 8 power. And more than just intermittently, I will then make 9 power available and put it in the news that we're making
 - 10 power.
 - 11 But if I would have done that and then the gear
 - 12 broke and then I found out I got another year and a half to
 - 13 develop, which other companies have taken years and years
 - 14 and years and have not developed this technology that I did
 - 15 in less than a year. On the turning mechanisms other
 - 16 companies, the one I told you in -- in Nevada, took -- they
 - 17 got them again another grant for \$5,000,000 to develop that
 - 18 hydraulic system.
 - 19 Q. Sir, I'm gonna stop you there, once we're talking
 - 20 about another company, and I'm gonna ask you a guestion.
 - 21 A. Okay.

9 those.

- 22 Q. You said there were a few times that you may have
- 23 said that you were done, and correct me if I'm wrong, but
- 24 what I believe I heard from you is that your understanding
- 25 of being done is that there were no more pieces to invent.
 - Page 160

Page 159

- 1 A. No. What I said is I -- that the things that I --
 - 2 that I needed to -- for example, back in 2003 we had
 - 3 developed the turbine to where it was operating better than
 - 4 any turbine on the market. It would last longer. Our
 - 5 turbine would have a million hour rating, from what the
 - 6 people evaluated it, against the 48,000 hour rating in a
 - 7 particular -- in the turbines that now exist. And they
 - 8 would do and have -- they would have several advantages over
 - 10 Now -- now, I said to my kids, well, we're about
 - 11 done. All we gotta do is go out and buy a solar thermal
 - 12 mirror system, we'll hook that right in and put coal with
 - 13 it, and we've got -- we will have the best price on anything
 - 14 you can believe. What I didn't realize that the heat
 - 15 exchangers were 200-year-old technology and they would
 - 16 not -- there's a -- there's a lot of maintenance cost.
 - 17 Besides being very, very expensive, it would take a lot of
 - 18 money to build it out and a lot of money to maintain it.
 - 19
 - 20 What in the -- what in the devil they thinking. They can't
 - 21 possibly believe this is gonna function in this -- in this
 - 22 day and age. And so then I had to take the time to develop 23 the heat exchanger.
 - 24 At the same time we went out and looked at the 25 mirror system, and the mirror system requires you to have a

And when I got to that I thought oh, my crap.

- 1 perfectly leveled ground that you're putting a dollar --
- 2 minimum of a dollar a square foot into the property --
- 3 Q. Okay, Mr. Johnson. I'm gonna stop you there.
- 4 A. Well, I'm just explaining --
- 5 Q. I'm gonna ask you --
- 6 A. -- what you're wanting to know.
- 7 Q. Well, I understand and I appreciate that, and
- 8 we're going --
- 9 A. But then I said --
- 10 Q. -- we're going a little bit --
- 11 A. -- we're all done.
- Q. -- far afield. 12
- 13 A. Well, we're not. That's exactly what the whole
- 14 question is. See, you're -- you're -- the whole question
- 15 is can --
- 16 Q. No, Mr. Johnson. Mr. Johnson, please stop.
- 17 A. -- can I do this.
- 18 Q. No. No, that's not the question.
- 19 A. Yeah, it is.
- 20 Q. The question is --
- A. That's the whole question. 21
- 22
- 23 the course of the life of your solar energy technology that 23 work the way you actually wanted it to?
- 24 you thought that you were close to being done.
- 25 A. Well, that's --

Page 162

- Q. Correct?
- 2 A. -- what I'm saying, and so --
- Q. Right. And --3

1

- 4 A. -- then what I just said --
- 5 Q. Right. And -- no. Stop.
- 6 A. -- was relevant --
- 7 Q. Please stop.
- 8 A. -- to explain that question.
- 9 Q. Please stop.
- 10 A. Well, you can't have this question then because --
- 11 then just take the whole question out. If you're not gonna
- 12 let me finish the answer, you cannot have this question
- 13 because that doesn't reflect the accuracy of what I was
- 14 thinking.
- 15 Q. Mr. Johnson.
- 16 A. No. I'm not gonna say that.
- Q. We are not going to have a narrative of the whole 17
- 18 process of the inventions here.
- 19 A. Well, you have to have --
- 20 Q. There are --
- A. Well, then you can't have any of the question 21
- 22 because it doesn't -- you can't just say did you ever say
- 23 that, yes, that we were done. Okay. What does that mean?
- 24 Tell me what that means when I say that. What -- what are
- 25 you gonna say in court when you say, well, Mr. Johnson, you

Page 163

- 1 told everybody this was gonna be done next week. And then
- 2 what do these people think?
- Q. Mr. Johnson.
- 4 A. But you have -- but they haven't heard the whole
- 5 story, and neither have you. But if you hear the whole
- 6 story and then when I tell in court, I says no, Your Honor,
- 7 she's not telling the story that I told her about the
- 8 situations that reflected why I said those things. And
- 9 you're not going to allow me to say that and I'm not gonna
- 10 allow you to put that in there and say I said that without
- 11 the explanation that I gave to the people when they came
- 12 back to me.
- Q. We're gonna stop and go off the record. 13
- 14 (Eight-minute recess taken.)
- 15 Q. (BY MS. GALLAGHER) So, Mr. Johnson, I'm just
- 16 trying to get a simple understanding of the process that I
- 17 understand is more detailed, but we do have time limits
- 18 today. So you testified earlier that there were a few times
- 19 in the course of invention and development of the solar
- 20 energy technology at issue here you said you thought you
- 21 were done, and you also testified that you then learned that
- Q. The simple question is there are a few times over 22 you were not done. And is that because the system did not

 - 24 A. No. We could have complied with the regulations
 - 25 if we would have just put out -- if we would have put ropes

Page 164

- 1 on the towers and had people track the sun.
- 2 Q. Object as nonresponsive. All right. What is --
- 3 A. What I'm saying is, what you're asking me is, and
- 4 you said is it because the project didn't work. And I said
- 5 no, it wasn't because the project wouldn't work.
- Q. No, sir. The way you wanted it to. So I
- 7 understand you wanted to keep costs very low and you wanted
- 8 to have more efficient mechanisms to make your system
- 9 produce power at a very low cost. I understand that. And
- 10 my question to you is --
- A. I don't -- no, I don't think you understand, and
- 12 that's what I'm saying is that's a critical point in the
- 13 whole development of the system. I could have any time
- 14 since 2005 put power on the grid. I could have done that
- 15 easily. I wasn't looking -- at the time I developed my
- 16 system, I wasn't looking to develop a power -- a power
- 17 system to go out there and -- and just -- and just a quick
- 18 thing and make a whole bunch of money and then walk away.
- 19 That wasn't my -- that wasn't my goal. It was never my 20 goal.
- I have -- I could have -- I could have had plenty
- 22 of money before I ever started that. I didn't need -- I
- 23 didn't need the project to make a living with. I had plenty
- 24 of money. I got plenty of patents. I could sell -- I've
- 25 been -- I can sell patents --

- Q. So, sir, what is your goal? What's your goal? 1
- 2 A. The goal is to provide clean energy at a very low 3 price, at a better price.
- 4 Q. And there are a few times in the course of the
- 5 development that you thought you would be able to do that.
- A. That's correct. I did. 6
- 7 Q. Right. And then you learned that there was some
- 8 obstacle in the way of doing that; isn't that right?
- 9 A. Yes. But it wasn't in the obstacle of the product
- 10 working at that level of being equal to or better than
- 11 anything on the market at that time. That wasn't the issue.
- The issue was how do I take -- I was looking at taking an
- energy market over; okay? And obviously I didn't think it
- was gonna take this long or I just would have said forget it
- 15 in the first place.
- 16 But I wasn't interested -- when I started, there
- 17 was no tax credits, and so my interest was not that. The
- 18 interest is I saw an opportunity, a business opportunity
- 19 that I had developed a turbine that had the capacity to take
- 20 over a market if it was done properly.
- 21 Q. And has it taken over the market?
- A. Of course not. I'm not there and I never said 22
- 23 that I -- that I was. But I still have the capacity to do
- 24 it if I'm careful on how I approach it. But if I approach
- 25 that wrong and I -- and I just go out -- and I'll make -- I
- 1 would make a lot of money no matter what -- no matter what
- 2 happened with this system. No matter what you do, whether 3 you win this case or whether you don't win this case, I will
- 4 make a lot of money off the deal. It won't matter. There's
- 5 a lot of money to be made just where I'm at if I promote it.
- 6 Q. Why haven't you done it yet?
- A. Because I felt like that I wanted to keep this --7
- 8 this lowball because I wanted to surprise the market. If I
- 9 would have done it the other way, I would have had
- 10 competitors all the way through the market system, and by
- 11 doing it this way I'm -- I'm now at the crest of where I'm
- 12 at and now I can take the market.
- 13 Q. Okay.
- A. And that's -- that's a business decision. It's 14
- 15 not something that's relied upon with the -- with everybody
- 16 else's stuff. It isn't money I need.
- Q. Okay. I've shown you --17
- A. It never was. 18
- 19 Q. I've shown you what's been marked Plaintiff's
- 20 Exhibit 272.
- 21 A. Okay.
- 22 Q. I'm looking at the last line of text before
- 23 Mr. Shepard's signature.
- 24 A. Okay.
- 25 Q. The line says "We have another 500 towers that are

1 ready for installation." Did I read that correctly?

- 2 A. Well, he probably looked out and saw all the --
- 3 all of the trusses out there.
- Q. Sir, did I read that sentence correctly?
- A. Oh, I'm sorry. I apologize. Go ahead. Yes, you
- 6 did. I -- I'll try and keep my responses more -- more 7 critique.
- 8 Q. Any idea why Mr. Shepard may have thought that
- 9 there were 500 towers that were ready for installation?
- 10 A. It probably has something to do with the 1603
- 11 program, but I'm not a mind reader, and I don't know.
- 12 Q. In or around February 2014, in fact, were there
- 13 500 towers for installation?
- 14 A. No. I don't think so. But I don't know where he
- 15 got that from, so I don't know. And the only thing is the
- 16 number of trusses and the other things, but I'm still not --
- 17 I don't know.
- 18 Q. All right. I'm handing you what's been marked
- 19 Plaintiff's Exhibit 289. Please take a look at that.
- 20 A. Okay.
- 21 Q. And let me know when you're finished. I will let
- 22 you know that I'm interested in asking you about goal 3 on
- 23 the third page of this exhibit.
- 24 A. Okay. What was it again?
- 25 Q. Goal 3 at the top of the third page of the

Page 168

Page 167

- 1 exhibit.
- 2 A. Oh, okay. Go ahead.
- 3 Q. This says that "Goal 3: To have our concentrated
- 4 photovoltaic (CPV) prototype completely finished."
- 5 A. Okay. Okay.
- 6 Q. Do you have a CPV prototype?
- A. Yes. It's what you saw out there operating when 7
- 8 you came down.
- 9 Q. When did we see that?
- 10 A. When you were at the site and I put that -- those
- 11 PD system into the focal point and producing power. That
- 12 board is -- is the CPV system.
- 13 Q. Okay.
- 14 A. It's -- it's ready for production right now. It's
- 15 what we're doing now.
- 16 Q. Has any CPV mechanism ever generated electricity
- 17 that has then been purchased by any other person or entity?
- A. No, no. But it has produced. It -- the CPV 18
- 19 system has produced power for the last, I think, two years.
- 20 Q. Do you have any records of the CPV --
- 21 A. No.
- 22 Q. -- mechanisms -- let me finish the question,
- 23 please.
- 24 A. Oh. Sorry.
- 25 Q. Do you have any records of the CPV mechanism

Page 169

1 having produced power in the last couple years?

- 2 A. No, but it has, and I can show it to you. You saw
- 3 it, so.
- 4 Q. Do you have any data of the power -- reflecting
- 5 the power that it has produced?
- 6 A. Just your -- just your -- just your video. By the
- 7 way, that was a difficult task. People have tried that for
- 8 years and said they had it done and had it done, and they
- 9 didn't have it done.
- 10 Q. Please take a look at what I've handed you as
- 11 Plaintiff's Exhibit 25.
- 12 A. Uh-huh.
- 13 Q. It's a lengthy document with some small text, so
- 14 please take your time and have a read.
- 15 A. Okay. With my eyes I don't think I'll be able --
- 16 okay. Well, ask what you need to know and I'll see if I can
- 17 read it.
- 18 Q. Well, no. I want you to read the document,
- 19 please, and then I'll ask you questions.
- 20 A. I don't think I can.
- 21 (Peruses document.)
- 22 All right. Satisfying the IRS --
- 23 Q. To yourself, please.
- 24 A. Okay.
- 25 (Peruses document.)

Page 170

- 1 MS. JOHNSON: You're gonna have to read it to him. He
- 2 can't see it.
- 3 THE WITNESS: My eyes aren't that good. I can't --
- 4 okay. I think I got some of it. Okay. Go ahead.
- 5 MS. GALLAGHER: Keep reading.
- 6 THE WITNESS: All right. Go ahead.
- 7 Q. (BY MS. GALLAGHER) Well, my question to you, sir,
- 8 is does Plaintiff's Exhibit 25, in your mind, accurately
- 9 reflect how a RaPower3 customer might satisfy the IRS
- 10 depreciation conditions?
- 11 A. Yes, I can see that, but it's nothing to do with
- 12 what I would have -- that I would have done. I've never
- 13 done anything like this.
- 14 Q. Well, I'm just asking if this is consistent with
- 15 your understanding of how to satisfy IRS depreciation
- 16 conditions.
- 17 A. It's probably not, but I -- I can't . . .
- 18 (Peruses document.)
- 19 I mean, I don't -- he may be right. I do not
- 20 know. From my understanding, this isn't the way that I
- 21 would have -- well, I don't know. It's hard for me to read.
- 22 (Peruses document.)
- Okay. The bonus contract. Let's see what that
- 24 says.
- 25 (Peruses document.)

- 1 I don't -- I don't see where he's explaining
- 2 accurately the depreciation as far as I'm -- that I
- 3 understand. But then I'm not an attorney and a tax

Page 171

Page 172

- 4 attorney, so I'm not clear on that.
- 5 Q. And you keep saying he.
- 6 A. I mean Greg Shepard.
- 7 Q. So did you write any of the text on Plaintiff's
- 8 Exhibit 25?
- 9 A. No, I didn't.
- 10 Q. Do you know who did?
- 11 A. I do not.
- 12 (Exhibit 551 marked.)
- 13 Q. (BY MS. GALLAGHER) Mr. Johnson, handing you what's
- 14 been marked Plaintiff's Exhibit 551.
- 15 A. Okay.
- 16 Q. Do you recognize Plaintiff's Exhibit 551?
- 17 A. No. I do not.
- 18 Q. I'll represent to you that this is a website
- 19 printout from RaPower3.com.
- 20 A. Okay.
- 21 Q. And that this printout -- do you see the date at
- 22 the top left-hand corner of the page; 3-2-2015?
- 23 A. Okay.
- 24 Q. Do you see that?
- 25 A. Uh-huh.
- He 1 Q. "Yes?"
 - 2 A. Yes.
 - 3 Q. If you take a look at the lower third of the page,
 - 4 there are two boxes there in orange. Do you see those?
 - 5 A. Uh-huh.
 - 6 Q. One says Anderson Letter.
 - 7 A. Okay.
 - 8 Q. One says Kirton McConkie Letter.
 - 9 A. Okay.
 - 10 Q. Were you aware that as recently as March 2015
 - 11 Mr. Shepard had posted the Anderson letter and the Kirton
 - 12 McConkie letter online?
 - 13 A. I wasn't aware, but I wasn't concerned about it
 - 14 because it had already been out there and the -- and the --
 - 15 I was the -- the DOJ had, I think, and it's my understanding
 - 16 from what I was told by Sam Alba, my attorney, that the
 - 17 Department of Justice was no longer interested in pursuing a
 - 18 criminal case or continuing any further criminal
 - 19 investigations. And -- and he'd already used it several
 - 20 times, but I didn't know it was out there, no.
 - 21 I didn't authorize it out there either, but I
 - 22 wasn't paying any attention to it either. I didn't like it
 - 23 out there, by the way. I still don't.
 - 24 Q. Mr. Johnson, did you show Mr. Shepard a copy of
 - 25 the Kirton McConkie memorandum?

- 1 A. I'm sure I did. I didn't have a problem doing
- 2 that, yes. Personally I don't see anything wrong with it.
- 3 It's accurate. The letter's accurate, so it wasn't -- it
- 4 wasn't, like I said, the reason why I didn't want it out
- 5 there.
- 6 (Exhibit 552 marked.)
- 7 Q. (BY MS. GALLAGHER) Handing you, Mr. Johnson,
- 8 what's been marked as Plaintiff's Exhibit 552, Greg_P&R-275
- 9 through 281. On the first page of this exhibit we do see
- 10 the RaPower3 letterhead at the top; correct?
- 11 A. Yes, uh-huh.
- 12 Q. All right. I'd like to draw your attention,
- 13 actually, to the page that ends in 279.
- 14 A. Okay.
- 15 Q. And I'm curious about the first two full sentences
- 16 at the top of the page. They read "However, Frito Lay in
- 17 California uses solar energy to heat their plant. Another
- 18 California solar energy company uses heat to produce water
- 19 for irrigation."
- 20 Did I read that correctly?
- 21 A. Uh-huh.
- 22 Q. "Yes?"
- 23 A. Yes.
- 24 Q. Did you ever talk to Mr. Shepard about these two
- 25 different companies that he mentions in these sentences?

- 1 A. Okay. Go ahead.
 - 2 Q. All right. We see the RaPower3 letterhead at the

Page 175

Page 176

- 3 top of Plaintiff's Exhibit 10; correct?
- 4 A. Correct.
- 5 Q. Did RaPower3 authorize Mr. Shepard to send this
- 6 letter?
- 7 A. No, they didn't.
- 8 Q. Mr. Johnson, did you ever talk to Mr. Shepard
- 9 about sending letters to the IRS?
- 10 A. No, I did not. Did he send this to the IRS?
- 11 Okay. He's -- he's -- okay. It's probably accurate, but
- 12 it's not something I would have done.
- 13 Q. To the extent that Mr. Shepard makes statements
- 14 about the state of the solar energy technology --
- 15 A. Yes.
- 16 Q. -- can you think of any sources for information
- 17 about that other than his visits to the site or hearing it
- 18 from you?
- 19 A. Do you -- you don't want me to go through that
- 20 speel again, do you? I'm the only one he would have --
- 21 would have contacted, but I think we've -- we've taken
- 22 enough of that time on that issue.
- 23 Q. Take a look, please, at the page that ends 2673.
- 24 A. Okay.
- 25 Q. Third paragraph from the bottom.

Page 174

- 1 A. Yeah. He -- he said -- he told me these things,
- 2 yes.
- 3 Q. Oh. So Mr. Shepard told you about them?
- 4 A. Uh-huh.
- 5 Q. "Yes?"
- 6 A. Yeah, uh-huh.
- 7 Q. Did you look into these companies or what they
- 8 were doing with solar energy any further?
- 9 A. No. I had no interest in them. But I think it's
- 10 a good analysis and I think the --
- 11 (Telephonic interruption.)
- 12 MS. GALLAGHER: Off the record, please.
- 13 (Brief recess.)
- 14 Q. (BY MS. GALLAGHER) Mr. Johnson, did you -- did
- 15 RaPower3 authorize Mr. Shepard to write the letter in
- 16 Plaintiff's Exhibit 552?
- 17 A. No, they did not. No. But I think some of it's
- 18 accurate and some of it's pertinent to the -- of what's
- 19 going on, but I didn't do it.
- 20 Q. Did you --
- 21 A. The only thing I ever wrote or authorized is what
- 22 you saw, and I thought mine was pretty tasteful.
- 23 Q. Showing you what's been marked Plaintiff's Exhibit
- 24 10, Bates Nos. US2672 through 2677. Please take a look at
- 25 Plaintiff's Exhibit 10 and let me know when you're done.

- 1 A. Okay.
- 2 Q. Second sentence.
- 3 A. Go ahead.
- 4 Q. It says "We expect to be producing electricity on
- 5 a small grid before the end of March and by the end of May
- 6 we should be in full production."
- 7 Did I read that correctly?
- 8 A. Oh, yeah. Yeah, you read it.
- 9 Q. Do you have any idea what the small grid is?
- 10 A. No. I don't know what he's talking about, but
- 11 there again, I think he was seeing -- seeing how far I was
- 12 in production on the -- on the rest of the -- there's two
- 13 other towers out there or, roughly, two other towers that
- 14 are close to being done, and he would have probably came to
- 15 that conclusion on his own about how fast we were getting16 things done.
- 17 Q. Handing you what's been marked Plaintiff's Exhibit
- 18 292 --
- 19 A. Okay.
- 20 Q. -- Bates GREGG_P&R-1961 through 65.
- 21 A. Okay.
- 22 Q. My first related questions for you about this
- 23 email have to do with the first paragraph.
- 24 A. Okay.
- 25 Q. The second sentence.

- 1 A. Okay.
- 2 Q. "Also, we are now in the process of negotiating a
- 3 PPA for the first set of towers that will be going up."
- 4 Did I read that correctly?
- 5 A. Probably did, but we weren't, so.
- 6 Q. Did I read that correctly?
- 7 A. Yes, you did.
- 8 Q. In or around April 2015 was RaPower3 in the
- 9 process of negotiating a PPA for the first set of towers?
- 10 A. No. I don't -- I would -- I would never negotiate 11 a PPA anyway.
- 12 Q. Would you be surprised to learn that Mr. Shepard
- 13 claimed to have been negotiating power purchase agreements? 13
- 14 A. No. He's got a friend, Monte. They do it all the 15 time.
- 16 Q. Is that Monte Hamblin?
- 17 A. Hamilton, I think --
- 18 Q. No, no.
- 19 A. -- Hamilton.
- 20 Q. Monte Hamilton?
- 21 A. Yeah. I -- I think they're involved in something
- 22 and I don't know what it is. But they keep claiming they
- 23 have something, and I says okay, whatever.
- 24 Q. What, if any --
- 25 A. But I don't need it.

Page 178

- 1 Q. What, if anything, is Monte Hamilton doing with 2 PPAs?
- 3 A. They have friends and they have friends in
- 4 California that Hamil -- Mr. Hamilton is a very -- I think
- 5 he's involved in a variety of venture -- venture capitalists
- 6 or what do they call them, the same operations as -- not
- 7 venture capitalists, but they're like that, as Romney was 8 involved in.
- O MD CNIJEED.
- 9 MR. SNUFFER: He's a venture capitalist.
- 10 THE WITNESS: They were venture capitalists?
- 11 MR. SNUFFER: Uh-huh.
- 12 THE WITNESS: They weren't -- there was something else.
- 13 They got another name for them. Anyway, it doesn't matter.
- 14 But, anyway, they -- they keep telling me they've got
- 15 this -- they -- they want to have -- these people want to
- 16 invest huge amounts of money, and all they want to do is see
- 17 one tower working and they have a billion, \$2 billion that
- 18 are ready to move. They've been doing this for about four
- 19 years. And the -- and the people are really -- I've talked
- 20 to them. And the fact is Google is out. A representative
- 21 from Google is out --
- 22 Q. (BY MS. GALLAGHER) Sir, I gonna stop you there
- 23 because I want to talk about the people who may want to give
- 24 you billions of dollars.
- 25 A. I don't know anything about it. I don't know

1 anything about it. They're just telling me this.

- 2 Q. Have you ever shown them even a single tower
- 3 working?
- 4 A. No, because I don't want to do what they do. I
- 5 could do it, but I never wanted to. I keep telling them
- 6 I -- I don't tell them -- I don't tell Monte that
- 7 (laughing).
- 8 (Exhibit 553 marked.)
- 9 Q. (BY MS. GALLAGHER) Showing you, sir, what's been
- 10 marked Plaintiff's Exhibit 563, GREGG_P&R-902. Please read
- 11 that and let me know when you're done.
- 12 A. (Witness complies.)
- 3 She did, huh? I didn't know that. That's very
- 14 complimentary.
- 15 Q. Are you done reading, sir?
- 16 A. I am, yeah. I guess Greg was there. I -- with
- 17 the -- with the deal. I don't know. But go ahead. Tesla.
- 18 I like that. Okay. Go ahead.
- 19 Q. So Mr. Shepard's email says, in the second full
- 20 paragraph, "Yesterday (12-8-2015), down in Delta, the expert
- 21 witness representing you arrived with Neldon's attorney."
- Do you have any recollection of an expert witness
- 23 coming down to Delta on December 8th, 2015?
- 24 A. I don't know the date that they came down, but the
- 25 same expert witness that you had came down and visited with

Page 180

Page 179

- 1 me in behalf of the IRS audits.
 - 2 Q. Okay. But that's our expert witness.
 - 3 A. But -- no. It was their expert witness. He was
 - 4 their expert witness before he was your expert witness.
 - 5 Q. So let's read the sentence very carefully.
 - 6 A. Right.
 - 7 Q. Okay? "The expert witness representing you,"
 - 8 meaning RaPower3 customers.
 - 9 A. Oh, I see. I apologize. All right. Okay.
 - 10 Q. So is there an expert witness representing
 - 11 RaPower3 customers?
 - 12 A. Oh, yeah. Not RaPower3 customers. They were
 - 13 representing the technology that I hired myself to come down
 - 14 and evaluate the system, and he did. And, yes, he was very
 - 15 impressed, but I figured that as long as I was paying him,
 - 16 he would tell me anything that I would want him to say.
 - 17 About like yours, you know. And so -- but I -- and Greg was
 - 18 probably there at the same time, so.
 - 19 Q. Who was the expert witness?
 - A. Dave Nelson is the one who got him, and I don't
 - 21 know. You'd have to -- we'd have to get that from Dave.
 - 22 But the other's an expert witness that has evaluated me and
 - 23 that says he was an expert in the field, so.
 - 24 Q. Do you know anything about this expert witness'
 - 25 background?

- A. Yes, I do, but I don't -- I don't recall it
- 2 because I'm just -- I'm -- I would have read thoroughly
- 3 his -- his background before I would have paid him to come
- 4 down and evaluate that.
- Q. And have you received any documents from this
- 6 expert witness?
- A. He would have gave that to Dave. I wouldn't have 7
- 8 got that directly because Dave was handling that. So I
- 9 don't really know.
- 10 Q. To your knowledge, you have not received any
- 11 documents from the expert witness?
- 12 A. No. But I -- but Dave said it was very favorable
- 13 and he said everything would work and everything was
- 14 functioning the way it should do. So -- but I don't
- 15 remember reading the document other than what Dave just told 15 do you anticipate producing power?
- 16 me. And he probably gave it to me and I just probably just
- 17 set it aside and wasn't that interested in it. I don't have
- 18 time to read stuff like that. I wasn't that interested in
- 19 what he had to say one way or the other. It wasn't for me I
- 20 would have hired him for.
- Q. Handing you what's been marked Plaintiff's Exhibit 21
- 22 279. Again, feel free to take a look at this whole email.
- 23 My question for you has to do with the first full paragraph.
- 24 A. (Peruses document.)
- 25 Okay. Go ahead.

Page 182

- Q. So the first full paragraph in the first line says 1
- 2 "All the R&D has been completed."
- 3 Did I read that correctly?
- 4 A. That is correct. Yes, uh-huh.
- 5 Q. In or around February 19, 2016, did you tell Greg
- 6 Shepard that all the R&D has been completed?
- 7 A. Yes, and it was now just moving the project into
- 8 mass production. All of the CPV system had been done, all
- of the heat transfer related subjects had been produced, all
- the turning mechanisms have been installed and have been
- 11 accurate, and the drawings for that have been completed for
- 12 the mass production procedures in order then to test --
- 13 those have all been tested and have been reproduced and
- 14 done.
- 15 Now, then, we're in the process of seeing how --
- 16 how the manufacturing process, the assembly line process was 16 approved it, so --
- 17 functioning. And they had functioned very well and now we
- 18 are sending the parts -- we're starting to get parts from
- 19 China to be made from there and shipped here so that we
- 20 could eliminate most of our part making and just do the
- 21 assembly. Then from then on we just do the assembly.
- But that's -- that's an accurate statement here.
- 23 You can see it. You saw it, that it's being done that way.
- 24 And it's a test -- it's a test procedure to go in from --
- 25 from the research and development company to the actual

- 1 manufacturing. Now -- now we will -- now we will turn on
- 2 the -- turn on the solar panels and, yes, we will then put
- 3 this on the news and get it on the television and we will
- 4 show it.
- 5 I'm going -- but I'm going to replace the -- the
- 6 tower with a new tower, the new lenses, and make it pretty.
- 7 We may even paint it. I don't know. That might be a
- 8 stretch, but.
- 9 Q. When do you anticipate producing power for the
- 10 grid?
- 11 A. Well, it wasn't for the grid I'm doing it for.
- 12 Now we're just doing -- we're doing the updates and getting
- 13 it in. We have other property that has --
- Q. Hang on. I'm gonna stop you there, sir. So when
- 16 A. Well, the power we produce is already done, but
- 17 now we're just gonna present it so that people can see it.
- 18 Q. And where are your records that power is being
- 19 produced right now?
- 20 A. Well, I've already told you that. You've already
- 21 seen that.
- 22 Q. But you don't have any data to support your
- 23 statement?
- 24 A. Well, I didn't know I was gonna get sued either,
- 25 so I didn't care, and I still don't.

Page 184

- Q. Sir, you got sued in November 2015. You haven't
- 2 produced or kept any records since that date?
- A. Not on that. I wasn't worried about it. 3
- Q. No. 4
- 5 A. So -- so what I did --
- 6 Q. One more question, sir, actually. The next
- 7 sentence says "Both the manufacturing and construction
- 8 stations have been tested and approved."
- 9 What does that mean?
- 10 A. Approved by me I guess. I don't know anybody else
- 11 it would have been approved by.
- 12 Q. Well, do you have any idea what that sentence
- 13 means?

17

- 14 A. Well, I can only say that it means that it was
- 15 working and it's doing what it was designed to do, so I
- - Q. And so --
- 18 A. -- I assume that's what he meant.
- 19 Q. -- to your knowledge, you're the only person who
- 20 might have approved it?
- 21 A. Who else would have? I don't know either. And
- 22 there was no legal -- there's no license or legal approval
- 23 necessary for what I'm doing that I have -- don't already
- 24 have. I'm very excited about what we've done and
- 25 accomplished now.

Q. So when is it that you plan to go public with

- 2 this, sir?
- 3 A. Just shortly. We're just in the process of
- 4 packaging some things to make them look better and then just
- 5 take the tower -- take the one tower off and put the other
- 6 tower up. Or the top of the tower on top of one of the
- 7 other . . .
- 8 Q. So by the end of 2017?
- 9 A. I'm not gonna say that. I get in trouble every
- 10 time I do because there's always something that comes out
- 11 and somebody sues me again and stops me. But, yeah, we're
- 12 hoping within just a few -- a short period of time where we
- 13 can -- I'm gonna demonstrate it before I change the tower,
- 14 but not make it public and make sure everything's
- 15 functioning that way, what you already saw. But then we'll
- 16 change the tower and we'll get pictures and video and then
- 17 we'll go national with the program.
- 18 Q. Object to the responsiveness of the answer.
- 19 A. Okay. Sorry.
- 20 Q. Are you going to publicize your creation before
- 21 the end of 2017?
- 22 A. Yeah, probably. We plan on it. We plan on
- 23 getting the videos all done within the next two to three
- 24 months. We already have the video equipment already in
- 25 place. We have the people already to -- to go, so it's just

Page 185

1 Contracts and Agreements, do you see that heading, sir?

Page 187

Page 188

- 2 A. Okay.
- 3 Q. "Yes?"
- 4 A. New Contracts and Agreements?
- 5 Q. Yes.
- 6 A. Okay.
- 7 Q. The first -- well, I'll just read the whole thing.
- 8 "Neldon Johnson and Greg Shepard have studied the old
- 9 contracts and agreements. The appropriate changes were made
- 10 for the new equipment purchase agreement, the operations and
- 11 maintenance agreement, et cetera."
- 12 A. Okay.
- 13 Q. "These changes were then taken to an attorney for
- 14 approval. The new contracts and agreement will reflect the
- 15 new sales program figures and will be made available ASAP on
- 16 the RaPower3.com website and the new order page."
- 17 A. Okav.
- 18 Q. Did I read that correctly?
- 19 A. Yes, uh-huh.
- 20 Q. So did you collaborate with Mr. Shepard in looking
- 21 at old contracts and agreements?
- 22 A. Oh, no. This was the -- just a new way we're
- 23 marketing the product.
- 24 Q. Okay. So this has --
- 25 A. And I just -- and he wanted it right now. And I

Page 186

- 1 says, I said I don't -- I don't do things right away. I
- 2 said then we have to go to tax attorneys, they have to go to
- 3 law attorneys, they have to go to intellectual property
- 4 attorneys, they have to go to SEC attorneys. I said it's a
- 5 little bit away from where you're at.
- 6 And so it went through the tax attorneys, it went
- 7 back to the technology attorneys to make sure that was
- 8 accurate. It went to an SEC attorney to make sure that
- 9 we're not violating any SEC laws, and I believe that's -- I
- 10 believe we got it back. I think that's all done, but.
- 11 Q. Well, sir, you're talking about the change in
- 12 commission structure; correct?
- 13 A. It's not just that. It's just we -- I always do
- 14 that when we take changes, because everybody hates me.
- 15 Everybody wants to sue me and everybody wants to put me out
- 16 of business.
- 17 Q. Sir, my question is are the changes discussed in
- 18 this paragraph, do they have to do with the commission
- 19 structure that we talked about at the beginning?
- 20 A. Well, yeah. It has to do with that too, but other
- 21 things as well.
- 22 Q. Other things? What other things?
- 23 A. I don't know. I just want to make sure that
- 24 everybody -- whenever I change a con -- you don't ever know
- 25 from a -- from a person like me if you change one word, how

- Page
- 2 impact on the marketing and -- and things like that.
- 3 I gotta be careful because if I say I'm gonna get

1 a matter of how -- how well we want it to look to get the

- 4 my stock up, then she'll get the SEC on me again and then
- 5 I'll be in trouble. So I didn't say that. Do not buy
- 6 stock. You'll be buying it insider. I've had that stock at
- 7 \$50 a share before, by the way. That is worth \$500,000,000.
- 8 MR. SNUFFER: Should have sold.
- 9 THE WITNESS: I know. Now, if I -- if I would have had
- 10 a crystal ball, I'd a been gone. I'd have an island of my
- 11 own, and guns on it, and I wouldn't let anybody on it.
- 12 Q. (BY MS. GALLAGHER) Showing you what's been marked 13 Plaintiff's Exhibit 421.
- 14 A. Okay.
- 15 Q. Bates Greg -- Shepard_Greg-3437 through 41.
- 16 A. Okay
- 17 Q. This, Mr. Johnson, is an email from Greg Shepard.
- 18 Do you see that?
- 19 A. Yeah. Go ahead.
- 20 Q. And the date is November 15, 2016. Do you see
- 21 that?
- 22 A. Okay. Yeah. Go ahead.
- 23 Q. "Yes?"
- 24 A. Yes, uh-huh.
- 25 Q. On the page ending in 3439 under the heading New

- 1 does that impact the whole contract. See? And -- and if
- 2 I -- I go in and change a contract, then all the sudden oh,
- 3 wow, you know, that could be really exciting, and so I don't
- 4 do that. Even -- I don't change one word in a contract that
- 5 I don't take back to the tax attorney, to the other
- 6 attorneys to make sure that I did not put a word in there
- 7 that would negate something else or imply something that
- 8 would not be legal you might say.
- 9 Q. Who's the attorney or attorneys who reviewed these 10 changes?
- 11 A. Paul Jones, Dave Nelson, and there -- what's his
- 12 name over there at -- what is his name? I can't remember
- 13 his name.
- 14 Q. So there were three attorneys who reviewed the
- 15 changes?
- 16 A. I believe so. I believe there were.
- 17 Q. Paul Jones, David Nelson, and a third attorney
- 18 whose name --
- 19 A. SEC attorney just to make sure there wasn't
- 20 anything in there that would relate to a securities -- I
- 21 assume securities.
- 22 Q. And that's the attorney whose name you can't
- 23 remember?
- 24 A. That's the one that -- I call him a different name
- 25 and I don't want to repeat it. You might find out

Page 190

- 1 (laughing). No. I'm only kidding. I think it's Wally, but
- 2 I'm not positive. I call him Wally. That's not his name,
- 3 but I call him Wally. I don't know. I don't remember his
- 4 name.
- 5 Q. Showing you what's been marked Plaintiff's Exhibit
- 6 352, Bates marked US4269 --
- 7 A. Okay.
- 8 Q. -- to 70. Mr. Johnson, you see the date up at the
- 9 top there; December 15, 2016?
- 10 A. Uh-huh.
- 11 Q. "Yes?"
- 12 A. Yes, uh-huh.
- 13 Q. And this appears to be a printout from
- 14 RaPower3.com; is that correct?
- 15 A. That's correct.
- 16 Q. Okay. Feel free to take a look at what's written
- 17 here. Really my question to you is this writeup does not
- 18 include information about depreciation.
- 19 A. Okay.
- 20 Q. And I'm asking you on behalf of RaPower3, did
- 21 RaPower3 change from letting people know about depreciation
- 22 to not letting people know about depreciation at some point
- 23 last year?
- A. Well, I -- I had -- this is where I made a change
- 25 in the -- in the program, and this is more of an outline

1 that I would have approved, and this one here I think I did

Page 191

- i that i would have approved, and this one here i think it
- 2 approve this one, and it reflects the . . .
- 3 (Peruses document.)
- 4 . . . the -- the way the new program will
- 5 operate. The old program was only designed for just a short
- 6 period of time because it wasn't gonna make me any money.
- 7 This program here is still marginal on what I'll make, but I
- 8 make -- I only make money if the -- if the -- if the -- if
- 9 it produces power.
- 10 Q. So Mr. Johnson --
- 11 A. So that's all it is.
- 12 Q. Mr. Johnson, you believe you approved the text in
- 13 Plaintiff's Exhibit 352?
- 14 A. I believe I -- I believe I did if I can read it.
- 15 But, yeah, I think that this one is -- this is something I
- 16 would have approved.
- 17 Q. Why did you make the change taking depreciation
- 18 out of it?
- 19 A. Well, I -- I never worried about depreciation in
- 20 the first place, but this one here is just reflects what
- 21 we're doing and making sales. If they could depreciate it,
- 22 that's something they'll have to figure out with their CPAs.
- 23 And some companies will do this. Some companies, big
- 24 companies that will buy into this will -- will have it so
- 25 they can depreciate the equipment.

Page 192

- 1 Smaller people will have a more difficult time,
- 2 from what I understand, but I'm not -- but I don't give out
- 3 tax opinions, nor do I -- do I state what I think about what
- 4 you should and shouldn't do. I never have.
- 5 Q. Mr. Johnson --
- 6 A. And so that's why I do what I do.
- 7 Q. In prior information on RaPower3.com --
- 8 A. Right.
- 9 Q. -- customers were informed that depreciation may
- 10 be a tax benefit that they could claim. Do you agree with
- 11 that?
- 12 A. Well, yeah. There's been a lot of statements
- 13 about depreciation, and whether or not it's accurate or not
- 14 I wouldn't know. I assume that it probably is, but I
- 15 wouldn't know.
- 16 Q. Okay. And now on this website printout, RaPower3
- 17 does not mention depreciation?
- 18 A. Well, you should be happy about that.
- 19 Q. My question is why make the change?
- 20 A. I don't -- I don't have a particular reason. I
- 21 changed the way I marketed the product and the reason why I
- 22 changed the way I marketed the product is because now I
- 23 could make money and develop a program that will sustain the
- 24 company. That's the only reason why I made the changes. I
- 25 didn't make it for any other reason.

- 1 If you're implying that I made it because you guys 2 are scaring me, I didn't. It's nothing to do with that.
- 3 I've never -- I've never done anything that I am -- that I'm
- 4 not -- that I do not feel that I did everything I could to
- 5 make a proper decision that would not -- that would be
- 6 honest and forthright. So if you're implying that from what
- 7 you're saying, it's not accurate. I did this from a purely
- 8 business standpoint. I felt like that this would -- this
- 9 would reflect more of a profit. It would generate a profit
- 10 for me where the other one wouldn't.
- 11 Q. So what changes did you make in how you marketed 12 lenses?
- 13 A. All I did was reduce my -- my portion of the down
- 14 payment to 650 instead of 1050 and that's basically the only
- 15 thing I did and that's why I ran it by all the -- I ran it
- 16 by Paul Jones and Dave Nelson and the securities attorney to
- make sure that we were not selling the securities, we're still selling a product.
- 19 Q. And how, in your mind, was reducing the down
- 20 payment from 1050 to 650 going to make you more money?
- 21 A. I eliminated the bonus program and so that I could
- 22 make down money -- that it would make me some money.
- 23 Q. What does eliminating the bonus program have to do
- 24 with reducing the amount of the down payment?
- 25 A. Reduces my overall cost and so I reflected that

- 1 invite them to buy my product. Whether or not they 2 depreciate it out or whether they don't depreciate it or
- 3 whether they depreciate it out the other one or whether they

Page 195

Page 196

- 4 didn't depreciate it out never affected how much money I
- 5 made on the system, irregardless of either one.
- 6 But this program will actually decrease, probably,
- 7 sales not because of the depreciation, but because of the
- 8 bonus program that I had, and it will reflect a decrease in
- 9 the number of customers that probably will participate.
- 10 But, at the same time, it will start producing income that
- 11 was -- that could sustain the company for a long period of 12 time.
- 13 I don't anticipate using it for a long period of
- 14 time because I -- because I would prefer another way of
- 15 raising capital, and that's what I will do. Three
- 16 hundred -- 97 percent of all solar energy companies are
- 17 bankrupt today when it started. Same one -- some went as
- 18 high as 3 to \$400 a share. Can you imagine what the losses
- 19 to those people who have bought into that programs were?
- 20 It's huge and it makes a black mark on my company.
- 21 I can't really -- I can't raise capital
- 22 advertising solar energy. I had to develop brand-new
- 23 technologies in order to do that now and bring my company
- 24 back out of a dark -- of a dark picture that the 300 -- 97
- 25 percent of the solar companies have generated and created a

Page 194

- 1 back into my sales program.
- 2 Q. So because you eliminated the bonus program, you
- 3 reduced the amount of down payment?
- 4 A. Right. It was a business decision. It had
- 5 nothing to do with any tax -- tax things or any kind of
- 6 operation. As far as I know, it still is -- it's legal and
- there's no problem with what we're doing.
- Q. Is there any connection, Mr. Johnson, between a
- customer's ability to claim depreciation on a lens and money
- 10 that would end up in your pocket?
- A. Yeah. The bonus program is what -- what I -- is 11
- 12 what I have available. The depreciation has nothing to do
- with me personally. I don't care. But if they could take
- depreciation doing that, they're welcome to it. I don't
- care. It has nothing to do with me. 15
- 16 The program that I initiated here is for the
- 17 purpose of making me money. Whether or not they can
- 18 depreciate it or whether they don't depreciate it has
- 19 nothing to do with the program. This will -- this program
- 20 will probably cut sales because of the bonus program.
- 21 There's no doubt about that. There'll be less people
- 22 excited about this program than there were about the bonus
- 23 program. There's no way I can sustain that program.
- 24 This here, however, will be a sustainable program 25 and will be something that people could use and it would

- 1 bad impression across the whole country.
 - Q. Mr. Johnson, as RaPower3, what was your first
- 3 notice that the IRS was disallowing deductions in credits on
- 4 lenses that RaPower3 sold?
- 5 A. I'm not sure I understand the question.
- 6 Q. Well, you're here today to testify on behalf of
- 7 RaPower3?
- 8 A. Right.
 - Q. So I'm asking RaPower3.
- 10 A. Okay.

9

- 11 Q. When RaPower3 first learned that the IRS was
- 12 disallowing the deductions in credits the customers claimed
- 13 by -- through purchasing the lenses.
- 14 A. I don't really know. I don't have a date. I
- 15 don't keep those in my mind. So it's -- the days just go by
- 16 so rapidly I can't keep track of them, but I don't have -- I
- 17 don't have a particular date that I could tell you that.
- Q. Okay. So we've talked about a couple of changes 18
- 19 that RaPower3 has made. One of those is the commission
- 20 structure. 21 A. Right.
- 22 Q. And one of those is not promoting depreciation, so
- 23 I know those two changes have happened, and we've talked
- 24 about those. What, if any, changes did RaPower3 make in the
- 25 course of how it markets lenses since the IRS started

Rapower3 30(b)(6) Pages 193 - 196

- 1 allowing -- disallowing depreciation deductions and solar
- 2 energy tax credits?
- A. Right. But the way you ended -- the way you
- 4 coated that guestion is you're trying to make it so that I
- 5 made the changes to reflect the pressure put on me by the --
- 6 by the IRS and the DOJ.
- 7 Q. I'm not trying to do that. I'm not trying to do 8 that.
- 9 A. I know, but that's the way -- the impression I get 10 out of the question.
- 11 Q. Then let me ask a different question.
- 12 A. Okay.
- 13 Q. What, if anything, did RaPower3 do after learning
- 14 that the IRS was disallowing depreciation deductions and
- 15 energy tax credits as a result of customers purchasing the
- 16 lenses?
- 17 A. We changed our marketing approach to selling the
- 18 product in 2015. Was it '15 or '16? Anyway, whatever this
- 19 says. And -- but we did if for -- what was it? It was
- 20 purely a business decision. It wasn't due to any other
- 21 reflection on whether or not what the IRS was doing or what
- 22 they were not doing.
- 23 Q. Did RaPower3 change any of its marketing practices
- 24 as a result of the IRS's disallowance of deductions and
- 25 credits claimed connected to the solar lenses?

- 1 What we're doing is we feel like we're trying to be honest,
- 2 we're trying to be honest people, and we've always done that
- 3 and, because of that, I think that's why we are successful
- 4 and I've not gone broke.
- Q. Object as nonresponsive after "no."
- A. You shouldn't object to that. That's beautiful. 6
- 7 Q. Let's take five, please.
- 8 (Ten-minute recess taken.)
- 9 Q. (BY MS. GALLAGHER) We're back on the record after
- 10 a brief break. Mr. Johnson, did you talk to anybody about
- 11 the facts of the case during the break?
- 12 A. No, I did not.
- 13 Q. Are there any answers that you've given today that
- 14 you would like to supplement or change?
- A. No. Not right now. Thanks.
- 16 Q. Then at this time I'll pass the witness.
- MR. SNUFFER: And as curious as I am about a lot of 17
- 18 things, I'm not gonna ask you any questions.
- 19 THE WITNESS: Thank you.
- 20 MS. GALLAGHER: So we will ask that the witness read
- 21 and sign.

- 24 THE WITNESS: Okay.
- 25 MS. GALLAGHER: And we're off the record for today.

Page 198 A. No. I -- I just assumed that that would go 2 through the courts, and if they decided it was wrong, then

- 3 we would deal with it at that point in time.
- Q. What, if anything, did RaPower3 change about its 5 policies or practices after the criminal raids in summer
- 6 2012?

1

- 7 A. There, again, we didn't do anything because we
- 8 felt like that if there was something wrong, it would be --
- 9 it would be taken care of in the proper court proceedings,
- 10 and then if there was a need for a change, then we would do
- 11 it.
- 12 Q. And what, if anything, has RaPower3 changed about
- 13 its policies and practices as a result of the complaint
- 14 having been filed in this case?
- 15 A. Nothing. We have never -- again, we look at it
- 16 from a standpoint of we don't feel like we've done anything
- 17 wrong. There may have been -- there may have been mistakes 17
- 18 made, but they weren't for the purpose of negotiating our
- 19 sales or at the expense of someone else. We were hoping to
- 20 develop a company, viable company that would produce tax
- 21 dollars and increase -- increase revenue to the government.
- 22 Not decrease it.
- 23 We -- we didn't start this based upon tax
- 24 incentive to bring about this new technology. We did it
- 25 before then. We will continue to do it with them gone.

(The proceedings adjourned at 4:35 p.m.)
