TO ALL BEING AUDITED:

See the attached photo: This is the main tower. There will be 17 to 18 satellite towers that will feed the main tower's turbine and heat exchanger producing 1.5 megawatts of power. This will soon be put on power poles going into Rocky Mountain Power which is Utah's largest utility company.

OK, the new IRS ploy is to ask many personal questions that have no relevance to your audit. This may be done over the phone, or at the audit. The latest RaPower3 Team Members being audited have the questions written down in their first audit letter. Twenty-two questions in all. Don't answer these. They don't apply to your audit. They are fishing for info or to catch you in an inadvertent lie or inaccurate information. Just refer them back to your contracts, invoices and other relevant documents like IRS form 3468 with instructions. When the new rapower3.com website is launched next week, you may use that to show the IRS auditor. You can also plead the 5th. The auditor may get mad and threaten you, but the first auditor is going to turn you down any way.

These kinds of non-relevant questions won't be asked at the appeal level. Better to wait for that. Statistics show that 29 out of 30 appeals go in favor of the tax payer. In tax court it's even better. 99 out of 100 are ruled in the tax payer's favor. Also, the tax court staff has been cut back nationwide due to budget cuts, They will not be happy having to review something as ridiculous as our cases.

Example of questions: Has control of any solar plant been transferred to you? YOU PURCHASED SOLAR LENSES NOT A PLANT.
Did you recommend this tax shelter to any of your friends? If so, please give name and address. THERE IS NO TAX SHELTER. YOU PURCHASED SOLAR LENSES TO PRODUCE HEAT.
Were you ever told that they had permits and licenses for a solar power plant. If so, who? NOT RELEVANT. YOU PURCHASED SOLAR LENSES TO PRODUCE HEAT - BTU'S. PLEASE READ THE EQUIPMENT PURCHASE CONTRACT AND GO TO YOUR IRS FORM 3468 AND ITS INSTRUCTIONS.
What documents do you have to support a solar energy plant exists? NOT RELEVANT. YOU PURCHASED SOLAR LENSES.
Have you ever gotten anyone else involved in purchasing these solar energy systems. If so, give their complete name and address? HOW IN THE WORLD IS THIS RELEVANT TO YOUR SOLAR LENSES PRODUCING HEAT?

Regards, Greg
