Subject: RE Tax Free for 15

I forgot to mention how you can be tax free like GE for 15 years.

First you get back all taxes from 2006-2010, that's 6 years. Because of this purchase you create a huge adjustment to income by way of the depreciation that this generates. In addition, you remember that this program continues through 2016, so you will be addition credits and depreciation into future years up till 2020 and perhaps beyond: 2006 to 2020 = 16 years tax free.
