Merry Christmas Everyone!

Why not give yourself, friends & relatives a huge Christmas present this year by sharing the RaPower3 Renewable Energy Program with them? As of this writing, our group has sold 10,575 systems, and counting. That means that these taxpayers who have purchased RaPower3 systems have or will be awarded tax credits and incentives according to HR 1424. Specifically, that amounts to over \$35,000,000 in incentives and \$12,000,000 in direct energy tax credits to people who have enrolled into the program by redirecting their federal income taxes to foster the development of this renewable energy industry. And that also means that those people who have shared this good news with others have earned commissions amounting to over \$3,750,000 making this a very good Christmas for them.

Then there's the issue of the Bonus money – amounting to over \$35,000,000. Add to this the issue of 35 year residual income amounting to another \$30,000,000. Totally up everything to date, that amounts to over \$115,000,000. Believe it or not, that's just the beginning. Remember, this program is in effect through 2016. That's an additional full five years. There are contracts that will be negotiated amounting to the Billions of dollars.

You have the same opportunity to "Go Green – Make Money & get put on the path to become Debt Free" as well. As you can see, there's literally hundreds of thousands of dollars available to everyone. The amount available to you winds up being your choice: whether or not you choose to participate.

The RaPower3 Renewable Energy Program enables all of us to benefit from provisions of HR 1424 (The Recovery Act) providing individual income tax relief and incentives for energy production. Remember, the 100% depreciation on the equipment you purchase ends this year. The depreciation will dial back to 50% next year. This is your chance to take advantage of this tax law.

I will host a RaPower3 webinar Thursday evening starting at 6PM Pacific, 9PM Eastern to provide further details of the program. People should be on the phone and in front of their computer to see & hear a powerpoint presentation.

Greg Shepard, Chief Operations Director for RaPower3, will lead off the call with a RaPower3 status update on the progress toward the first demonstrations of this revolutionary technology.

Start Spread'in The News!

### **RaPower3 WEBINAR**

1. **THURSDAY EVENING**
2. **TIME: 9:00 PM EST – 6:00 PM Pacific**
3. **Go to [www.freeScreenSharing.com](http://www.freeScreenSharing.com) & JOIN A MEETING**
4. **ENTER YOUR NAME & EMAIL**
5. **MEETING ID: 341-496-262**
6. **PHONE: 559.546.1200 ACCESS CODE: 341496262#**
