---

THE UPDATE: Here's what I can tell you at this time.

There are now 21,000 lenses in stock at the manufacturing plant. There are many hundreds of lenses that have been put into their frames along with the wind-resistant braces also stored at the manufacturing plant. (See attached Photo #55) The turbine is now up on one tower and attached to a heat exchanger and generator. (See attached Photos #58 -turbine on the right, Photo #62 and two workmen on the tower as shown in Photo #67

All we need now is to have a high temperature pump delivered and some seals for the turbine and we can start generating electricity. I'm hoping this can be accomplished in the next 7-14 days.

We also expect a well-written tax opinion letter from a very large and prestigious law firm in the next week or two. This letter will help immensely in convincing CPAs throughout the country of the veracity of our RaPower3 tax benefit program.

MEMBER ALERT: Because of the great progress made this year and the expectation of a quantum leap forward our technology will give us, IAUS is attracting much interest. It appears that bigger deals will be forthcoming. Therefore, the sweet commission deals with the network marketing component along with bonuses may soon be coming to an end. I'm hoping our RaPower3 deal will last until the end of the year. Nonetheless, it would behoove all to make a move to purchase and make sales between now and Thanksgiving.

I have talked with Neldon Johnson urging him to allow current RaPower3 team members the ability to keep purchasing systems until the end of 2016. I will keep you informed.

Regards, Greg
