TO ALL:

Attached is a nice photo at the convention of Neldon explaining his turbine. Below is a comment from J.S. who attended the conference.

QUICK UPDATE: Akeena Solar can't compete either like so many other photovoltaic companies: stock price has plummeted from \$60.00 a share to 35 cents.

Now that the R&D is done and the Manufacturing Plant is completed along with the manufacturing of so many components is done, CONSTRUCTION WILL BEGIN THIS MONTH. More on that later.

Greg.

Thanks for a very informative conference. I'm sure there will two or three times the number of people attending in 2013. After personally meeting everyone involved in the RaPower3 and IAUS business, I am more firmly convinced this is a gigantic opportunity to not only have great tax benefits, but to be a part of a company that is destined to make worldwide history that will benefit everyone no matter where they live. I am excited about all the possibilities!

J. S.
