ORDER

This matter comes before the Court upon Defendant RaPower-3, LLC's motion to compel arbitration, Plaintiff's opposition to the same, and Plaintiff's alternative motion to stay the ruling on the motion to compel arbitration pending discovery. The Court, having reviewed the pleadings plus attachments to the same and having heard arguments of counsel for both parties in open court, finds that RaPower-3's motion to compel arbitration is due to be GRANTED and that this action is due to be DISMISSED against Defendant RaPower-3, LLC.

Plaintiff's alternative motion to stay the ruling on arbitration pending requested discovery is DENIED due to Plaintiff's acknowledgment of his signature on the subject agreements between the parties and failure to present a factually based predicate specifically challenging the arbitration clauses contained within the subject agreements.

It is therefore ORDERED, ADJUDGED and DECREED that this action is DISMISSED as to Defendant RaPower-3, LLC, due to the binding arbitration

agreements between the parties. Costs are to be taxed as paid.

DONE this 11th day of May, 2016.

/s/ HON. JOHNNY HARDWICK
CIRCUIT JUDGE
